1. DESCRIPTION OF PLAN

The following description of the Welch Allyn 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees who are employed with a participating employer of the Plan. The principal employer that sponsors the Plan is Welch Allyn Holdings, Inc. (the "Plan Sponsor") and the participating employer includes Welch Allyn, Inc. (the "employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute a percentage of their pre-tax annual compensation, as defined in the Plan. In addition, participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other tax-qualified retirement plans except from other plans maintained by the participating employers. The employers will make matching contributions equal to 50% percent of the first 6% of participant contributions, up to a maximum amount of 3% of the participant's compensation. In addition, the employers will make an employer safe harbor contribution on behalf of each participant equal to 5% of each participant's compensation for each payroll period. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the employers' matching and safe harbor contributions and Plan earnings, and charged with an allocation of administrative and investment expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions and employer safe harbor contributions plus actual earnings thereon. Vesting in the employers' matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

1. DESCRIPTION OF PLAN (CONT'D)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of the participant's vested account balance, subject to certain conditions as defined in the Plan agreement. The loan and interest thereon shall be repaid over a period not to exceed five years (except for certain residential loans which can extend up to ten years). The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined monthly by the Plan administrator. Interest rates on outstanding loans range from 4.25% to 6.75% at December 31, 2013. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum amount equal to the vested value of their account. Upon death, disability or retirement a participant may elect to receive a series of payments over a period not to exceed the life expectancy of the participant or the joint life expectancy of the participant and their beneficiary.

Hardship withdrawals are permitted in the event of immediate and heavy financial need. Participants may elect to receive a hardship withdrawal in an amount equal to the value of their elective deferral contributions including earnings thereon.

Investment Options

Investments are held within various investment funds offered and maintained by Fidelity Management Trust Company. Contributions to the Plan are invested, at the discretion of the participant, in one or a combination of available investment fund options.

Forfeited Accounts

Forfeited non-vested accounts totaled $194,035 and $146,739 at December 31, 2013 and 2012, respectively. These amounts are used to reduce future employer contributions and pay certain administrative expenses. In 2013, employer contributions were reduced by $55,551 through the application of forfeitures.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

Plan investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

(Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Administrative Expenses

Investment expenses incurred in connection with the purchase or sale of securities are charged against the investment funds whose assets are involved in such transactions. Certain administrative costs of the Plan are paid by the Plan Sponsor but reimbursed by the Plan and allocated to participant accounts based upon account balances. These administrative expenses amounted to approximately $164,000 for the year ended December 31, 2013. All other expenses relating to participant transactions are deducted from those participant accounts as transactions occur.

Starting in 2013, the Plan's recordkeeper offered the Plan a revenue credit program that reimburses amounts equal to the excess of plan service recordkeeping revenue with agreed upon compensation. The amounts received by the Plan for the year ended December 31, 2013 totaled approximately $169,000 and are netted with administrative expenses.

Subsequent Events

The Plan has evaluated subsequent events through July 24, 2014, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

(Continued)

3. FAIR VALUE MEASUREMENTS (CONT'D)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- *Mutual funds*: valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Common collective trust fund*: consists primarily of fully benefit-responsive contracts and is included in the financial statements at contract value, which represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses. The fair value is determined by the issuer of the funds based on the fair market value of the underlying investments and is adjusted by the issuer to contract value. Fair value of these stable value funds are captured at the fund level. The Plan's investment balance for these funds is calculated as a percentage of the total value of the pooled investment.
- *Self-directed brokerage accounts*: valued at the aggregate value of the investments held. Money market accounts are valued at cost plus accrued interest. Mutual funds are valued at the daily closing price as reported by the fund. Corporate stocks are valued at closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FINANCIAL INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has received a certification from Fidelity Management Trust Company, the trustee of the Plan that states that the following information is complete and accurate as of December 31, 2013 and 2012, and for the year ended December 31, 2013.

- Statements of Net Assets Available for Benefits - Investments, at fair value, notes receivable from participants and adjustment from fair value to contract value for fully benefit-responsive investment contracts.
- Statement of Changes in Net Assets Available for Benefits - Interest and dividend income, net appreciation in fair value of investments and interest income on notes receivable from participants.
- Note 4 - Investment balances and net appreciation in fair value of investments
- Schedule H, Line 4i - Schedule of Assets (Held at End of Year) - All items and amounts

6. RELATED-PARTY TRANSACTIONS

Certain Plan investments are managed by Fidelity Management Trust Company, who acts as trustee as defined by the Plan and, therefore, transactions qualify as party-in-interest transactions.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the employers have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(Continued)

9. INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated May 20, 2009, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "IRC"), and therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator and the Plan's tax counsel believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31:

	2013	2012
Net assets available for benefits per the financial statements	$ 358,236,958	$ 310,975,626
Add: Adjustments from fair value to contract value for fully benefit-responsive investment contracts	186,536	425,196
Net assets available for benefits per Form 5500	$ 358,423,494	$ 311,400,822

The following is a reconciliation of total additions per the financial statements to Form 5500 for the year ended December 31, 2013:

Total additions to net assets per the financial statements	$ 85,285,160
Less: Prior year adjustments from fair value to contract value for fully benefit-responsive investment contracts	(425,196)
Add: Current year adjustments from fair value to contract value for fully benefit-responsive investment contracts	186,536
Total increase in net assets per Form 5500	$ 85,046,500
