1. Description of Plan

Plan Description

United Notions, Inc. 401(k) Plan (the "Plan") was established January 1, 1977 to provide retirement, disability, and death benefits for qualified employees of United Notions, Inc. (the "Company" or "Employer"). Effective January 1, 2010, the Plan adopted the Nova 401(k) Associates Volume Submitter Prototype Profit Sharing Plan document and adoption agreement to become a Non-Standardized Safe Harbor Profit Sharing Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan Administration

Under the trust agreement, Capital Bank and Trust Company (the "Trustee") is responsible for the custody of all plan assets. As recordkeeper for the Plan, American Funds Retirement Resources maintains the account records for each participant. A third party administrator, Nova 401(k) Associates ("Nova"), provides additional services to the Plan, such as preparation of Form 5500. The Company's board of directors has appointed an officer of the Company to have complete control of the administration of the Plan (the "Plan Administrator").

Eligibility

The Plan covers all employees of the Company who have attained the age of 18 and have completed at least 1,000 hours within 12 months of service. Eligible employees may enroll in the Plan on the first day of January, April, July, or October.

Contributions

In each calendar year, participants may contribute up to 90% of their compensation, as defined by the Plan and as allowed by law. The Internal Revenue Service's (IRS) 2013 limit on participants' before-tax contributions is $17,500, and for participants who have reached age 50 by year end, $5,500 additional in "catch-up" contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Plan also permits participant rollovers from the qualified plans of former employers.

Company discretionary qualified matching and profit sharing contributions may be made at the employer's discretion and Company non-discretionary safe harbor contributions are made. For plan year 2013, the Company made safe harbor non-elective contributions equal to 3% of the eligible participants' compensation. The Company did not make discretionary profit sharing contributions or discretionary qualified matching contributions in 2013.

The Company's total safe harbor non-elective contribution for the year ended December 31, 2013 was $251,839.

Participant Accounts

Participants direct the investment of their contributions, rollover contributions, if applicable, and Company contributions, if any, into any of the 21 registered investment companies or a money market fund. Investment earnings are allocated to participants based on the balances in each participant's account. There are no other benefits to which a participant is entitled other than the balance in the participant's account.

Vesting

At all times participants, regardless of the participants entry date into the Plan, are 100% vested in their contributions, rollover contributions (if any), and in any Company discretionary matching, profit sharing, and safe harbor contributions.

Forfeitures

Participant account balances are 100% vested regardless of the source of contributions. Any unallocated forfeitures from a previous plan year must first be used to pay the Plan expenses, then may be used to reduce the Company's discretionary profit sharing contribution, and may last be used to reduce the Company's discretionary matching contribution, if any.

Unallocated forfeitures and related earnings at December 31, 2013 and 2012 totaled $59,592 and $56,730, respectively.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account or annual installments. For termination of service due to other reasons, a participant may receive the value in his or her account as a lump-sum distribution. In addition, in-service distributions are permitted if certain criteria are met.

If the balance is less than $5,000, a lump-sum distribution may be made either in cash or rolled over into an individual retirement account or another qualified plan as soon as administratively possible. If the balance is greater than $5,000, a distribution may be made in a single lump-sum payment or partial withdrawals or installments with respect to required minimum distributions over a period of not more than the participant's (or their beneficiaries') life expectancy.

Notes Receivable from Participants

Participants may borrow from their own contributions a minimum of $2,000 and up to a maximum equal to the lesser of $50,000 or 50% of their participant source balance. A participant may only have one loan outstanding at a time. Issued notes must be repaid within five years unless the loan is used to acquire a principle residence (which is determined at the time of the loan). The notes are secured by the balance in the participant's account and bear interest at a fixed rate of 10%. Principal and interest are paid ratably through bi-weekly payroll deductions.

As of December 31, 2013 and 2012, the interest rate on outstanding loan balances was 10%. As of December 31, 2013, maturity dates on outstanding loans ranged from February 2014 to November 2017. As of December 31, 2012, maturity dates on outstanding loans ranged from January 2013 to January 2017.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses deducted from the respective participant's account and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefits Paid

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan may be paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date, and interest income is recorded as earned. Net appreciation in fair value of registered investment companies includes realized gains and losses on shares of registered investment companies sold during the year as well as appreciation of the registered investment companies held at the end of the year.

New Accounting Pronouncements

The Plan's management has evaluated the recently issued accounting pronouncements through the date these financial statements were available to be issued and has determined the application of these pronouncements will have no material impact the Plan's financial position and changes in net assets available for benefits.

3. Investments

Investments at December 31, 2013 and 2012 that represent 5% or more of the Plan's net assets available for benefits consist of the following:

December 31,	**2013**	2012
American Funds:		
American Balanced Fund, Inc.	**$ 950,995**	$ 976,100
EuroPacific Growth Fund	**1,104,813**	1,048,553
Fundamental Investors, Inc.	**1,995,339**	1,320,852
Money Market Fund	**2,244,708**	3,540,444
Small-Cap World Fund, Inc.	**2,137,389**	1,494,974
Capital World Growth and Income Fund, Inc.	**1,060,193**	777,206
The Bond Fund of America, Inc.	**938,250**	754,766
The Growth Fund of America, Inc.	**1,735,250**	1,218,937
The New Economy Fund	**1,035,721**	765,701
Washington Mutual Investors Fund	**1,496,689**	701,744

During 2013, the Plan's investments in registered investment companies (including gains and losses on investments bought and sold, as well as held during the year), appreciated in value by $2,376,731.

4. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") topic *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC topic *Fair Value Measurements and Disclosures* are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered Investment Companies: Investments in registered investment companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end mutual funds that are registered with the Security and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Investment Assets at Fair Value as of December 31, 2013

5. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Information Prepared and Certified by the Trustee

The Plan Administrator elected the method of compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator limited auditing procedures with respect to the information certified by Capital Bank and Trust Company, the Trustee, as

being complete and accurate, including investments at fair value and notes receivable from participants reported in the statements of net assets available for benefits, total investment income as reported in the statement of changes in net assets available for benefits, the information disclosed in Note 3, and all information presented in the supplemental schedule, schedule H, line 4i – schedule of assets (held at end of year).

The Plan's auditors performed no auditing procedures other than agreeing these amounts to the certified trust statements.

7. Related Party and Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by American Funds. American Funds and Capital Bank and Trust Company, Trustee, are part of the Capital Group Companies, Inc. These party-in-interest transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the Internal Revenue Code ("IRC"). Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Company paid directly any other fees related to the Plan's operations.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. Income Tax Status

The IRS has advised Nova in a letter dated July 1, 2009, that the Volume Submitter Document is qualified under Section 401(a) of the IRC, and therefore exempt from federal income taxes. The Plan has been amended since adopting the Volume Submitter Document; however, the Plan Administrator and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and the Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to examinations for years prior to 2010.

10. Subsequent Events

The date to which events occurring after December 31, 2013, the date of the most recent financial statements and supplemental schedule, have been evaluated for possible adjustment to the financial statements and supplemental schedule or disclosure is July 25, 2014, which is the date on which the financial statements and supplemental schedule were available to be issued.
