1. DESCRIPTION OF PLAN

The following description of the Pacific Life Insurance Company Retirement Incentive Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

GENERAL

The sponsor and administrator of the Plan is Pacific Life Insurance Company (Pacific Life or the Company), a stock life insurance company domiciled in the State of Nebraska. The trustee of the Plan is Principal Trust Company (the Trustee). Several entities affiliated with the Company are adopting employers of the Plan, and their agents or employees meeting the eligibility requirements listed below, also participate in the Plan.

The Plan is a defined contribution plan under which the Company and employees of the Company make contributions. The Plan is designed to qualify under Section 401(a) and 501(a) of the Internal Revenue Code (IRC), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

ELIGIBILITY

Generally, employees (collectively, the participants) who have one month of continuous employment are eligible to participate in the Plan the first of the month following one month of service. Terminated and retired employees have the option to leave vested account balances in the Plan unless the vested account balance is $1,000 or less, in which case an automatic payment will be made following 90 days of the termination date.

CONTRIBUTIONS

Participants may contribute 1% to 75% of their before-tax or after-tax qualifying compensation or commissions in each pay period. Each participant's contribution must be in cash and is nonforfeitable. For the year ended December 31, 2013, a participant's total calendar year contributions cannot exceed $23,000 ($17,500 plus $5,500 catch-up contributions for employees age 50 and over). Each participant shall be allocated a company-matching contribution at least equal to 75% of the participant's before-tax or after-tax contributions which are not in excess of 6% of the participant's qualifying compensation for each pay period. Company-matching contributions are made in cash. Plan participants are also credited cash contributions funded by the Company, which vary based upon attained years of service as of January 1, 2007 and qualified compensation. The Plan also allows for rollover contributions from other qualified retirement plans.

AUTOMATIC ENROLLMENT

All new employees are automatically enrolled in the Plan if the employee does not file with the Company an election to decline enrollment in the Plan. Any eligible employee who is automatically enrolled is deemed to have elected before tax contributions equal to 3% of their compensation. The 3% contribution rate will increase 1% in April of each year following the year the participant was enrolled until the contribution rate equals 10% of the participant's compensation. These contributions will be invested in the Vanguard Target Date Retirement Fund most appropriate for the participant's retirement age. At enrollment, participants have the ability to direct investment allocations.

PARTICIPANT DIRECTED INVESTMENTS

The Plan's investments are participant directed and consist of mutual funds and a stable value fund managed by an unrelated third-party (Note 7).

PARTICIPANT ACCOUNTS

Individual accounts are maintained for each participant. Each participant's account is credited with the participant's contributions and withdrawals, as applicable, and allocations of: (a) Company contributions and (b) Plan earnings, and charged with withdrawals and allocations of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest at 20% after two years, increasing by 20% in each year thereafter, and are 100% vested after six years of credited service.

PARTICIPANT NOTES RECEIVABLE

The Plan permits participants who are current employees to borrow certain amounts against their vested account balances. The maximum loan is $50,000 or 50% of their account balance at the origination of the loan, whichever is less. Such notes bear interest at the prime rate at loan inception, plus 1%, and are repaid to the participant's account in equal semimonthly installments over a period of not less than 6 but not more than 54 months. Interest rates, on these notes outstanding as of December 31, 2013 and 2012, ranged from 4.25% to 8.75%. As of December 31, 2013, remaining maturities of outstanding notes range from January 2014 through June 2018. The notes are collateralized by the participant's vested balance in the Plan.

PAYMENT OF BENEFITS

On termination of service due to death, complete and total disability, extreme hardship, or the attainment of the normal retirement age, participants may elect the method of distribution of their vested interests in Plan assets from the following alternatives:

a. Purchase of an annuity available under a group annuity contract
b. Payment of a single distribution
c. Combination of lump-sum payment and annuity purchase
d. Mandatory single disbursement if vested interest is $1,000 or less
e. Transfer the taxable portion to an IRA or other eligible employer plan

FORFEITED ACCOUNTS

Any amount of a participant's account attributable to Company contributions not vested at termination of employment is forfeited if the participant does not resume employment with the Company prior to incurring five consecutive one-year breaks in service. Accumulated forfeited nonvested accounts totaled $126,552 and $113,202 at December 31, 2013 and 2012, respectively. Administrative expenses paid by the Company were reduced by $263,348 from forfeited nonvested accounts in 2013. Forfeited nonvested accounts may be used to restore Company contribution accounts and Company retirement contributions of rehired participants, reduce Company contributions and Company retirement contributions, or pay reasonable expenses for the administration of the Plan. Company contributions and Company retirement contributions paid by the Company were reduced by $738,955 from forfeited nonvested accounts in 2013. Certain administrative expenses of the Plan are paid by the Company; others are paid by the Plan.

2. SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

The Company has evaluated events subsequent to December 31, 2013 and through August 7, 2014, the date the financial statements were available to be issued.

INVESTMENT VALUATION

The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. The Stable Value Fund is stated at estimated fair value and then adjusted to contract value. See Notes 7 and 8. Estimated fair value of the Stable Value Fund is the net asset value of its underlying investments, and contract value is principal balance plus interest. The Stable Value Fund has investments in guaranteed interest contracts (GICs) issued by Pacific Life, security-backed investment contracts and common collective trusts. The estimated fair value of a GIC is based on the present value of future cash flows using the current discount rate. Investments in common collective trusts are valued at the net asset value of units of a bank collective trust. The net asset value is provided by the trustee and is based on the estimated fair value of the underlying investments held by the trust, less its liabilities. The estimated fair value of a security-backed investment contract includes the value of the underlying securities and value of the wrapper contract. The estimated fair value of a wrapper contract provided by a security-backed investment contract issuer is the present value of the difference between the current wrapper fee and the contracted wrapper fee.

Purchases and sales of securities are reflected on a trade date basis. Interest income is recorded as earned on an accrual basis and dividend income is recorded on the ex-dividend date.

Included in the statement of changes in net assets available for benefits is the net appreciation or depreciation in the fair value of the Plan's investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments, with the exception of the Stable Value Fund.

Participants can direct the investment of their contributions into mutual funds offered by the Plan and the Stable Value Fund. If more than one investment option is selected, the allocation must be in whole percentages.

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

RISKS AND UNCERTAINTIES

The Plan provides for investment in any combination of mutual funds and a stable value fund offered. These investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits as of December 31, 2013 and 2012, and the statement of changes in net assets available for benefits for the year ended December 31, 2013.

PARTICIPANT NOTES RECEIVABLE

Participant notes receivable are carried at the aggregate unpaid principal balance of notes outstanding plus any accrued but unpaid interest, and are collateralized by the participant's vested account balances.

BENEFITS PAYABLE

Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid were $152,792 and $33,125 as of December 31, 2013 and 2012, respectively.

4. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Codification's Fair Value Measurements and Disclosures Topic establishes a hierarchy that prioritizes the inputs of valuation methods used to measure fair value for investments that are carried at fair value. The hierarchy consists of the following three levels that are prioritized based on observable and unobservable inputs.

Level 1 Unadjusted quoted prices for identical instruments in active markets. Level 1 investments would include securities that are traded in an active exchange market.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in inactive markets; and model-derived valuations for which all significant inputs are observable market data.

Level 3 Valuations derived from valuation techniques in which one or more significant inputs are unobservable. Level 3 investments include less liquid securities for which significant inputs are not observable in the market, such as certain structured securities that require significant management assumptions or estimation in the fair value measurement.

This hierarchy requires the use of observable market data when available.

The following tables present, by fair value hierarchy level, the Plan's investments that are carried at fair value as of December 31, 2013 and 2012. Discussion on determining fair value of the Plan's investments is included in Note 2.

December 31, 2013:	Level 1	Level 2	Level 3	Total
Mutual funds:				
Growth funds	$317,709,347			$317,709,347

Total	$552,142,094	$317,990,685	$0	$870,132,779

December 31, 2012:	Level 1	Level 2	Level 3	Total
Mutual funds:

GICS		117,564,083		117,564,083
Total	$434,180,204	$319,689,532	$0	$753,869,736

For the years ended December 31, 2013 and 2012, there were no significant transfers in or out of Levels 1 and 2.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The table below presents a summary of the investments in the Stable Value Fund, in which the estimated fair value is determined using a net asset value per share:

December 31, 2013:

Stable Value Fund Investments [1] [2]	Estimated Fair Value	Redemption Frequency
Security-backed contracts fixed income	$49,015,047	Daily
Common collective trusts fixed income	36,553,065	Daily
Common collective trusts fixed income	159,193,682	Monthly

December 31, 2012:

Stable Value Fund Investments [1] [2]	Estimated Fair Value	Redemption Frequency
Security-backed contracts fixed income	$35,374,443	Daily
Common collective trusts fixed income	32,021,315	Daily

(1) Excludes GICs held by the Stable Value Fund, in which estimated fair value is based on the present value of future cash flows using the current discount rate. See Note 8.

(2) The Stable Value Fund is comprised of a portfolio of investment grade fixed income securities.

There are no unfunded commitments or other redemption restrictions and no redemption notice periods as of December 31, 2013.

Dividend income	$8,209,292

Supplemental schedule: All investment balances and information included in the supplemental schedule of assets (held at end of year) are certified by the Trustee, with the exception of the estimated fair value of the Stable Value Fund.

Note 3 and Note 4: All investment balances and information included are certified by the Trustee, with the exception of the fair value of the Stable Value Fund and the classification by hierarchy level established by the Codification's Fair Value Measurements and Disclosures Topic.

6. INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter, dated March 27, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the IRS determination letter.

The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. As a qualified tax exempt entity, the Plan's financial statements do not include a provision for income taxes.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2008. As of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of an asset or liability or require additional disclosure in the financial statements.

7. STABLE VALUE FUND

The Stable Value Fund is managed by an unrelated third-party and is primarily comprised of investment contracts issued by financial institutions and cash equivalents. The types of investment contracts in which the Stable Value Fund invests include GICs, common collective trusts and security-backed investment contracts.

The GICs are issued by Pacific Life and guarantee the return of principal and a stated rate of interest. The guarantee is backed by the general account of the Company. The Company is contractually obliged to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%.

Common collective trusts and security-backed investment contracts are comprised of two components: 1) a book value wrap contract issued by a financial institution and 2) an underlying investment grade quality portfolio of fixed income securities backing the contract whose market prices fluctuate. The wrap contract is the vehicle which allows participants to transact at book value (principal plus accrued interest) without experiencing the price fluctuations of the underlying securities.

The Stable Value Fund is included in the financial statements at estimated fair value and then adjusted to contract value as reported to the Plan by the Company, in accordance with the Codification's Plan Accounting – Defined Contribution Pension Plans Topic. The estimated fair value and contract value as of December 31, 2013 was $317,990,685 and $316,001,878, respectively. The estimated fair value and contract value as of December 31, 2012 was $319,689,532 and $310,073,488, respectively.

Certain events such as premature termination by the Company may limit the ability of the Plan to transact at contract value. Plan management does not believe that the occurrence of events that would cause the Plan to transact at less than contract value is probable.

The average yield based on the fair value of invested assets and annualized earnings was 2.59% and the average yield based on interest credited to participants was 2.46% for 2013. The average yield based on the fair value of invested assets and annualized earnings was 2.90% and the average yield based on interest credited to participants was 3.28% for 2012.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

8. RELATED-PARTY TRANSACTIONS

The Plan invests in GICs issued by Pacific Life. See Note 7. The estimated fair value and contract value as of December 31, 2013 was $73,228,891 and $71,232,160, respectively. The estimated fair value and contract value as of December 31, 2012 was $117,564,083 and $111,261,706, respectively.

The Plan permits participants who are current employees to borrow certain amounts against their vested account balances See Note 1.

These transactions qualify as exempt party-in-interest transactions and therefore are not considered to be prohibited transactions under ERISA.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.
