Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

First Citizens Banc Corp and Affiliates
Sandusky, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of the Pension Plan for Employees of First Citizens Banc Corp and Its Affiliates, which comprise the statements of accumulated plan benefits and net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in accumulated plan benefits and net assets available for benefits and for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Pension Plan for Employees of First Citizens Banc Corp and Its Affiliates' s accumulated benefits and net assets available for benefits as of December 31, 2013 and 2012, and changes therein for the year ended December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4i – Statement of Assets (Held at End of Year) and Schedule H, Line 4j – Statement of Reportable Transactions, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Pension Plan for Employees of First Citizens Banc Corp and Its Affiliates's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

PENSION PLAN FOR THE EMPLOYEES OF
FIRST CITIZENS BANC CORP AND ITS AFFILIATES
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Pension Plan for the Employees of First Citizens Banc Corp and Its Affiliates (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined benefit pension plan covering substantially all employees of The Citizens Banking Company, First Citizens Bank, R.A. Reynolds Appraisal Service, Inc., Mr. Money Finance Company (“Mr. Money”), and SCC Resources, Inc. (collectively, the “Company”) who have completed six months of service and attained 20½ years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Company instituted a soft freeze on the Plan after December 31, 2006. No new participants are being added to the Plan. The Company is continuing to accrue benefits to provide for the existing participants currently enrolled in the Plan. The Compensation Committee is responsible for oversight of the Plan.

Pension Benefits: Participants are entitled to a monthly benefit beginning at normal retirement age (65) equal to 1.4 percent of their average monthly compensation multiplied by their total number of years of service, plus 0.65 percent of their average monthly compensation in excess of one-twelfth of their covered compensation (defined as the average of the contribution and benefit bases under Section 230 of the Social Security Act), multiplied by their total number of years of service up to 35 such years. The Plan permits early retirement at age 55. Participants may elect to receive their pension benefits in the form of a joint and survivor annuity. If participants terminate before rendering five years of service, they forfeit the right to receive a portion of their accumulated Plan benefits. If the joint and survivor annuity option is not elected, the participant may elect (a) the purchase of a different form of annuity; (b) payment of equal installments payable over a period not more than the participant’s life expectancy; or (c) a single lump-sum payment, payable upon death, disability, or retirement.

Vesting: Participants are fully vested in the Plan upon achieving five qualifying years of service. In order to earn a qualifying year of service, the participant must work at least 1,000 hours during the plan year.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated Plan benefits as of the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated Plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated Plan benefits reported in the accompanying financial statements.

Risks and Uncertainties: The Plan invests in a variety of investments including mutual funds and money market funds. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition: Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Reclassification of Comparative Figures: Certain comparative amounts for prior years have been reclassified to conform to current year presentations. Such reclassifications did not affect net assets available for benefits.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

Actuarial Present Value of Accumulated Plan Benefits: Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries.

Benefits under the Plan are based on employees' compensation during their highest five years of average compensation. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by an actuary from Rehmann Retirement Builders for the years ended December 31, 2013 and 2012, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2013, and December 31, 2012, were (a) life expectancy of participants (the 1994 Group Annuity Reserving Table was used); (b) retirement age assumptions (the assumed average retirement age was 65); and (c) investment return. The 2013 and 2012 valuations included a rate of return of 3.80 percent and 4.68 percent, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2014 and 2013. Had the valuations been performed as of December 31, 2013, there would be no material differences.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

NOTE 3 - FUNDING POLICY

Employer contributions are determined based on an actuarial calculation. Such contributions are designed to fund the Plan's normal cost requirement and to amortize unfunded accrued liabilities over periods of 10 to 30 years. During the year ended December 31, 2013, the Company made contributions of \$4,500,000. The Plan has met the minimum funding requirements of ERISA for the year ended December 31, 2013.

NOTE 4 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC. As of December 31, 2013, the maximum monthly guaranteed benefit was equal to \$4,792 for a 65-year-old retiree.

NOTE 5 - INVESTMENTS

The following table presents investments that represent 5 percent or more of the Plan's net assets that are separately identified at December 31, 2013 and 2012.

Mutual funds	\$ 346,009
Common\collective trust funds	<u>1,568,566</u>
Total	<u>\$ 1,914,575</u>

NOTE 6 - TAX STATUS

The design of the Plan is based on an underlying volume submitter plan, which has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2010, stating that the written form of the underlying volume submitter document is qualified under Section 401(a) of the Internal Revenue Code ("Code"). Any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code, and, therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

The majority of Plan investments are held by State Street Bank Company which is a custodian as defined by the Plan. Certain investments of the Plan are managed by Citizens Wealth Management, which is a division of the Plan Sponsor. The Plan also holds certain investments in mutual funds and money market funds sponsored by an affiliate of Diversified Investment Advisors, the Plan's record keeper, which qualifies these investments as party-in-interest investments. These investments include mutual funds of \$13,579,115 and \$11,930,459 at December 31, 2013 and 2012, respectively. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

<u>Name of Party in Interest</u>	<u>Relationship</u>	<u>2013</u>
Diversified Investment Advisors	Record keeper	\$ 33,439

Certain other expenses, which include legal and accounting fees, as well as the investment advisory fees charged by Citizens Wealth Management were paid by the Plan Sponsor. These fees amounted to \$16,471 for the year ended December 31, 2013.

NOTE 8 - FAIR VALUE MEASUREMENTS

The following disclosures show the hierarchal disclosure framework associated with the level of pricing observations utilized in measuring assets and liabilities at fair value. The three broad levels defined by U.S. generally accepted accounting principles are as follows:

- Level I: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level II: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.
- Level III: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value.

Mutual funds

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund

The money market fund (the "Fund") attempts to stabilize (NAV of its shares at \$1.00) by valuing its portfolio securities using the amortized cost method. A market-based NAV per share is calculated on a periodic basis. The Fund does not guarantee that the NAV will always remain at \$1.00 per share. Shares can be redeemed on a same day basis but only directly with the Fund. Such transactions do not constitute an active market.

NOTE 8 - FAIR VALUE MEASUREMENTS (Continued)

Common/collective trust funds

Valued at the daily NAV as reported by the funds. These funds are not traded in an active market or exchange, and the NAV per unit is calculated by dividing the net assets of the fund by the number of units outstanding, which includes observable inputs.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

NOTE 9 - FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments are defined as cash, evidence of ownership interest in an entity, or a contract which creates an obligation or right to receive or deliver cash or another financial instrument from/to a second entity on potentially favorable or unfavorable terms. Fair value is defined as the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced liquidation or sale. If a quoted market price is available for a financial instrument, the fair value would be calculated based upon the market price per trading unit of the instrument.

Investments and employer contributions receivable would be considered financial instruments. At December 31, 2013 and 2012, the carrying amounts of these financial instruments approximate fair value.

NOTE 10 - SUBSEQUENT EVENTS

The Plan assessed events occurring through July 29, 2014, the date the financial statements were issued. Effective April of 2014, the Plan instituted a hard freeze with participants no longer accruing additional benefits under the Plan. No additional subsequent events occurred requiring accrual or disclosure.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
