Participants are permitted loans up to the lesser of \$50,000 or 50% of their vested account balance. Participants should refer to the Plan document for a complete description of loan provisions.

Contributions

Participants may elect to defer annual earnings up to the maximum allowed by the IRS, as defined by the Plan document. The Company may make discretionary matching contributions to the Plan, as defined in the Plan document, not to exceed 10% of the participant's compensation. For salaried employees, the Company contributed \$.50 for every \$1 of eligible participant contributions in 2013 and 2012. For all collective bargaining employees, the Company contributed \$.25 for every \$1 of eligible participant contributions in 2013 and 2012.

Note 1 – Description of Plan (continued)

Contributions (continued)

In addition, for collective bargaining employees hired after August 27, 2005, the Company contributes an annual lump sum amount based on the number of years of service as of the employees' anniversary date. The lump sum contribution is \$100 after one year of service and increases \$50 per year of service until reaching a maximum annual contribution of \$500. Effective January 1, 2009, for collective bargaining employees hired on or prior to August 27, 2005, the Company contributes an annual lump sum based on years of seniority, as noted in the following table:

<u>Years of seniority</u>	<u>Contribution</u>
4 to 9 years	\$ 700
10 to 24 years	1,200
25+ years	1,750

The Company may also elect to make a profit sharing contribution, as defined by the Plan document. No profit sharing contributions were made in 2013 or 2012.

Vesting

All contributions are fully vested and non-forfeitable.

Forfeitures

Forfeited balances (resulting from excess company contributions) are allocated to eligible participants annually, in accordance with the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants become fully vested in the total value of their account.

Administrative Costs

Administrative costs are paid by the Company (for audit and other services) and by the Plan (for asset management and loan fees).

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Guaranteed interest accounts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive guaranteed interest accounts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used. The Plan's investments are held by Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC as of December 31, 2013 and 2012 (the Custodians).

Guaranteed interest accounts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. At December 31, 2013 and 2012, the Plan holds shares of the Key Guaranteed Portfolio Fund. The investment is a fully benefit-responsive guaranteed interest account backed by the assets of Great-West Life & Annuity Insurance Company. The value of the account is provided by the Custodians based on the value of the underlying assets. As of December 31, 2013 and 2012, the Key Guaranteed Portfolio Fund fair value is equal to contract value.

Mutual funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at the net asset value.

Note 2 – Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent outstanding loans and are measured at their unpaid principal balance plus accrued interest.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3 – Investments

All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2013 and 2012, net appreciation (depreciation) in fair value of investments in mutual funds, earnings on guaranteed interest accounts, and dividends and interest for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Custodians.

Note 3 – Investments (continued)

Investments that represent 5% or more of the fair value of the Plan's net assets available for benefits are as follows:

	December 31,	
	2013	2012
* Great-West		
Key Guaranteed Portfolio Fund	\$ 1,235,915	\$ 920,591
Lifetime 2025 Fund I T1	973,306	823,536
Lifetime 2035 Fund I T1	936,049	911,332

American Century Mid Cap Value A	532,081	**

* Represents investment in fund sponsored by the Plan Custodians.

** Less than 5% of net assets available for benefits.

Note 4 - Guaranteed Interest Account

As of December 31, 2013 and 2012, the Plan maintains a benefit-responsive investment contract in which the Plan's contributions are maintained in the Key Guaranteed Portfolio Fund, backed by the Great-West Life & Annuity Insurance Company's general account. A guaranteed interest account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed interest account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest account. Contract value, as reported to the Plan by the Custodians, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Note 4 - Guaranteed Interest Account (continued)

The guaranteed interest account permits the Custodians to terminate the agreement prior to the scheduled maturity date as a result of specific occurrences as defined. There have been no changes in the fully benefit-responsive status of the Plan's investment contracts as held during the years ended December 31, 2013 and 2012.

Average yields for the benefit-responsive investment contract are as follows for the years ended December 31:

	2013	2012
Based on Actual Earnings	1.26%	1.45%
Based on Interest Rate Credited to Participants	1.26%	1.45%

Note 5 - Fair Value Measurements

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth a summary of the Plan's investments with redemption restrictions as of December 31, 2013 and 2012:

	<u>Type of Withdrawal</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>

	Terminated participation in the fund other than due to Plan termination	Daily, within 12 months following date of notification	Up to 12 months

Note 7 – Income Tax Status

The Internal Revenue Service ruled on March 31, 2008, that the Prototype Non-standardized Profit Sharing Plan with CODA (the prototype plan of the Custodian upon which the Plan is based) qualifies under Section 401(a) of the Internal Revenue Code (IRC) and the related trust is, therefore, not subject to tax under present income tax law. Subsequent to this ruling the Plan was amended. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 – Subsequent Events

Management has evaluated subsequent events through August 22, 2014, the date the financial statements were available to be issued, and determined that no events have occurred that require additional disclosure.
