WHITLEY PENN 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan

General

The following description of the Whitley Penn 401(k) Profit Sharing Plan (the "Plan") provides only general information. The Plan is sponsored by Whitley Penn LLP (the "Partnership" or the "Plan Sponsor"). Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Partnership's offices are located in Dallas, Fort Worth and Houston, Texas.

The Plan is a defined contribution plan established May 16, 1988, covering substantially all employees of the Partnership, upon commencement of their employment, who are at least 21 years of age and are not:

- Residents of Puerto Rico;
- Independent contractors or interns;
- Employees who have irrevocably elected to not participate in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Participant:

Participants may elect to contribute a percentage or a flat dollar amount of their eligible compensation into the Plan after the eligibility requirements are met. After 30 days of employment, unless participants elect otherwise, all employees automatically contribute 3% of eligible compensation to the Plan. This percentage will annually automatically increase by 1% up to 8% of eligible compensation unless the participant elects otherwise. For contributions withheld from compensation, the percentage or flat dollar amount is subject to an annual limit of the lesser of 60% of eligible compensation or $17,500 and $17,000, the maximum annual salary deferral contribution limit as set forth by the Internal Revenue Code ("IRC") for 2013 and 2012, respectively, in a calendar year. Participants may enroll or change their contribution election as of the beginning of each pay period. Some or all of a participant's contribution may be designated as a Roth Deferral Contribution. Roth Deferral Contributions are made on an after-tax basis; however, such contributions will not be taxed at the time of a distribution. All participants who were eligible to make salary deferral contributions under the Plan and who have attained age 50 before the close of the Plan year were eligible for catch-up contributions of up to $5,500 during 2013 and 2012. Participants may also make rollover contributions from other qualified plans.

Employer:

The Partnership may contribute to the Plan a discretionary matching percentage of salary deferrals, which percentage will be determined each year and applied to participants' accounts each payroll period. There was no match made during 2013 and 2012.

A. Description of Plan – continued

Contributions – continued

Employer (Continued)

The Partnership may also contribute to the Plan a discretionary profit sharing contribution in an amount to be determined at the Plan year end by the Management Committee. Profit sharing contributions made to the Plan by the Partnership will be allocated to each participant's account in the ratio that a participant's compensation bears to the total eligible compensation paid to all eligible participants. During years in which the Plan is considered top heavy, the profit sharing contribution will only be allocated to non-key participants and will be at least 3% of eligible compensation. In 2013 and 2012, the Partnership made discretionary profit sharing contributions, net of forfeitures, of approximately $1,047,000 and $1,002,000, respectively.

Participant Accounts

Each participant's account is credited with the participant's elective contribution, employer contributions, and earnings thereon. Allocations are based on participant earnings or account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately fully vested in their salary deferral contributions plus actual earnings thereon and in all other accounts if the participant dies, becomes disabled or retires while an employee of the Partnership. Vesting in the Partnership's discretionary matching and profit sharing contribution portion of accounts due to termination for reasons other than those previously mentioned is as follows:

Years of Service	Vested Percentage
Less than two (2) years	0%
Two (2) years	20%
Three (3) years	40%
Four (4) years	60%
Five (5) years	80%
Six (6) or more years	100%

A year of service, for vesting purposes, is defined as a Plan year in which the employee completes a whole year of service.

Investment Options

Upon enrollment in the Plan, a participant may direct employer and participant contributions of any percentage into a variety of investment options, which vary in degree of risk. Participants may change their investment options daily.

A. Description of Plan – continued

Forfeitures

Forfeitures are used to reduce the Partnership's contributions. In 2013 and 2012, Partnership contributions were reduced by approximately $234,000 and $93,500, respectively, from previously forfeited balances, in accordance with the Plan document. Unallocated forfeitures approximated $224,000 and $40,000 at December 31, 2013 and 2012.

Benefit Payments

Participants withdrawing during the year for reasons of minimum required distribution at age 70½, disability, retirement, death or termination of employment are entitled to their vested account balance. If withdrawing participants are not entitled to their entire account balance, the amounts not received are forfeited. Benefit payments are made in the form of a lump-sum payment, installment payments or direct rollover into an Individual Retirement Account or another qualified plan. In-service withdrawals are available to participants who meet certain hardship requirements or attain age 59½.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested balance. A participant may have up to three notes outstanding at a time; however, the total outstanding balance of all notes may not exceed the lesser of $50,000 or 50% of the participant's vested balance. Note repayments must be made over a five-year period unless it is for the purchase of a principal residence in which case the note repayment period may not exceed beyond 15 years from the date of the note. Maturities range from 2014 to 2027 as of December 31, 2013. Notes receivable are secured by the participant's account and bear a reasonable rate of interest as determined by the Plan administrator. Interest rates on outstanding notes ranged from 5.25% to 6.00% at December 31, 2013. Principal and interest payments are made through payroll deductions.

Termination of the Plan

Although it has not expressed any intention to do so, the Partnership reserves the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, each participant will become fully vested and the net assets of the Plan would be distributed among the participants in accordance with ERISA.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

B. Summary of Significant Accounting Policies - continued

Investment Valuation and Income

The Plan's investments are stated at fair value. Shares of registered investment companies are valued based on the quoted market prices of the shares held by the Plan at year end. The fair value of investments in the common/collective trust is determined periodically by Fidelity Management Trust Company ("Fidelity") based upon the current fair value of the underlying assets of the fund based on quoted market prices. Investment gains and losses are accounted for using the average cost basis of the securities sold. These investments are subject to market or credit risks customarily associated with debt and equity investments.

The net realized and unrealized gains and losses on investments include realized gains and losses on sales of investments during the year and unrealized increases or decreases in the market value of investments held at year end. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. Financial Accounting Standards Board ("FASB") ASC Topic No. 962 ("ASC"), *Plan Accounting—Defined Contribution Pension Plans*. As required by ASC 962, the accompanying statements of net assets available for benefits present the fair values of the investment in the common/collective trust as well as the adjustment of the investment from fair value to contract value relating to such investment contracts. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Employees of the Partnership perform certain administrative functions with no compensation from the Plan. Generally, most Plan expenses are paid by the Partnership and are not reflected in the accompanying financial statements, but a portion of expenses paid by the Plan are reflected in the accompanying financial statements.

Contributions

Contributions from the Partnership and participants are accrued as they become obligations of the Partnership, as determined by the Plan's administrator, and in the period in which they are deducted, in accordance with salary deferral agreements.

C. Investments

The fair value of individual investments that represents 5% or more of the Plan's net assets available for benefits as of December 31, is as follows:

	2013
Dimensional Global 60/40 Institution	$ 6,443,530
Dimensional Global Equity Institution	2,633,045
Fidelity Contra Fund	2,124,586
Fidelity Growth Company	1,962,733
Fidelity Managed Income Portfolio	1,912,309
PIMCO Total Return Fund	1,784,658

	2012
Dimensional Global 60/40 Institution	$ 5,850,814
Fidelity Managed Income Portfolio	1,463,442
PIMCO Total Return Fund	2,097,978
Fidelity Growth Company	1,323,684
Fidelity Contra Fund	1,421,259

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

For the years ended December 31, 2013 and 2012, the net appreciation in fair value of investments was all attributable to investments in registered investment companies.

D. Fair Value Measurements

FASB ASC Topic No. 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The hierarchy focuses on the inputs used to measure fair value and requires that the lowest level input be used. The three levels defined in FASB ASC Topic No. 820 are as follows:

- Level 1 – observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets.
- Level 2 – observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.
- Level 3 – inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

D. Fair Value Measurements - continued

FASB ASC Topic No. 820 requires that we describe the methodologies used to measure the fair value of assets and liabilities. These methodologies were consistently applied to all assets and liabilities carried as of December 31, 2013 and 2012. We have described below the methodology used to measure each major category of assets and liabilities.

- Registered investment companies are valued at the total market value of the underlying assets provided by the administrator of the Plan and are classified within Level 1 of the valuation hierarchy.

- The common/collective trust is valued periodically by Fidelity based upon the current fair value of the underlying assets of the fund based on quoted market prices, thus are classified within Level 2 of the valuation hierarchy.

The following table presents the fair value of financial instruments as of December 31, 2013 and 2012 by type of asset and by the FASB ASC Topic No. 820 valuation hierarchy described above. The Plan has no assets or liabilities that are classified as Level 3 as of December 31, 2013 and 2012.

E. Information Certified by the Trustee

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator limited auditing procedures with respect to the investment information certified by the Fidelity, which included total investments as of December 31, 2013 and 2012, the total investment income, including net realized and unrealized gains (losses) on investments for the years ended December 31, 2013 and 2012, and all information included in the supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year).

F. Tax Status

The Plan has adopted The CORPORATE plan for Retirement, a Fidelity Prototype Plan, which has received a favorable opinion letter from the IRS stating that the written form of the prototype plan is acceptable under Section 401(a) of the IRC and that any employer adopting this prototype plan document will be considered to have a plan qualified under Section 401(a) of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan has been operated in compliance with the applicable requirements of the IRC and, therefore, the Plan and the related trust are exempt from taxation.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examination for the years prior to 2010.

G. Party-in-Interest

The Plan invests in shares of registered investment companies, a common/collective trust fund and a money market fund managed by Fidelity, who acts as trustee for the Plan's investments. The Plan is also invested in loan receivables from participants. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

H. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per financial statements to the Form 5500 as of December 31,:

	2013	2012
Net assets available for benefits per the financial statements	$ 30,732,650	$ 22,963,910
Adjustment from contract value to fair value for fully benefit-responsive investment	28,824	41,879
Net assets available for benefits per the Form 5500	$ 30,761,474	$ 23,005,789

The following is a reconciliation of the net increase in assets available for benefits as of December 31, 2013 and 2012, per the financial statements to the Form 5500:

	2013	2012
Net increase in assets available for benefits per the financial statements	$ 7,768,740	$ 6,516,025
Change in adjustment from contract value to fair value for fully benefit-responsive investment	(13,055)	4,902
Net assets available for benefits per the Form 5500	$ 7,755,685	$ 6,520,927

The reconciling item above is the result of the difference in the method of accounting used in preparing the Form 5500 as compared to the Plan's financial statements. Reporting rules used to prepare the Form 5500 require benefit-responsive investment contracts to be reported at fair value while accounting principles generally accepted in the United States of America require these to be reported at contract value.

I. Subsequent Events

In preparing the Plan's financial statements, the Plan Sponsor has evaluated all subsequent events and transactions for potential recognition or disclosure through July 22, 2014, the date the financial statements were available for issuance.
