POWER FINANCIAL CREDIT UNION
401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF PLAN

The following description of the Power Financial Credit Union 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Power Financial Credit Union (the "Credit Union"). Eligibility is subject to the minimum age and length of service requirements specified in the Plan. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility and Vesting: All employees are eligible to participate in the Plan on the first entry date provided the employee attains age 20 and has completed three months of employment. Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of their accounts plus earnings thereon is based on years of credited service. All participants who are participating in this plan will be 100% vested after five years of credited service.

Contributions: Participants may elect to defer to the Plan a portion of their eligible earnings on a pre-tax basis up to the maximum allowed under Section 402(g) of the internal Revenue Code ("IRC"). Participants may contribute funds from another qualified plan as rollover contributions. The Credit Union may make discretionary matching contributions, other discretionary profit sharing contributions, and/or a qualified non-elective contribution to the Plan.

Participant Accounts: Each participant's account is credited with the participant's contribution, the Credit Union's contribution and allocations of the Plan earnings and losses, reduced by distributions. Allocations are based on participant contributions, participant earnings, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable From Participant: Participants may borrow from their fund accounts at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 1.56% to 5.56%, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: Upon termination of service due to death, disability, or retirement, benefits are paid either in a lump sum, in the form of an annuity, or in equal installments over a period not more than the participant's or designated beneficiary's assumed life expectancy at the time of distribution. For termination of service for other reasons, a participant may receive that value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures: A participant vests in the employer contributions in accordance with the provisions of the Plan. Forfeitures of non-vested amounts remain in the Plan and may first be used to pay any administrative expenses, and any remaining amounts will be used to reduce future contributions of the Plan sponsor. There were $1,498 and $15,381 in forfeited amounts available as of December 31, 2013 and 2012. Approximately $15,401 and $12,000 in forfeited amounts were used to reduce expenses and employer contributions for the years ended December 31, 2013 and 2012, respectively.

401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation: The Plan's financial statements are on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from these estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Certain expenses of maintaining the Plan are paid directly by the Credit Union and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

Subsequent Events: Credit Union Management has evaluated subsequent events through August 14, 2014, the date on which the financial statements were available to be issued.

NOTE 3: INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds an investment contract with Minnesota Life Insurance Company. The assets invested in fully benefit-responsive contracts, reported as Guaranteed Return Account in the Plan's accounting records. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the Guaranteed Return Account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The Guaranteed Return Account is presented on the face of the statement of net assets available for benefits at fair value which approximates contract value. Contract value, as reported to the Plan by Minnesota Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. No adjustment from fair value to contract value is presented for the Guaranteed Return Account as fair value approximates contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a periodic basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The average yields earned by the contracts are as follows:

	December 31,	
Average yields:	**2013**	**2012**
Based on annualized earnings (1)	2.28%	2.64%
Based on interest rate credited to participants (2)	2.28%	2.64%

(1) Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the contract investments on the same date.

(2) Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the contract investments on the same date.

NOTE 4: INVESTMENTS - UNAUDITED

Minnesota Life Insurance Company, the Custodian of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to investments which is included in the financial statements has been certified by them. This information has not been audited by independent public accountants. The following presents investments that represent five percent or more of the Plan's net assets:

	December 31,	
	2013	**2012**
MN Life Guaranteed Return Account	$ 2,358,173	$ 2,139,101
Vanguard Intermediate Bond Index Adm	504,180	542,542
Vanguard LifeStrategy Moderate Growth	442,630	343,599
T. Rowe Price Large Cap Growth	390,396	*

* Less than five percent of net assets

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $852,498. Included in the investment appreciation was earned interest of $52,526.

NOTE 5: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

The availability of inputs relevant to the asset or liability and the relative reliability of the inputs might affect the selection of appropriate valuation techniques.

Level 1 Inputs
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs
Inputs to the valuation methodology include:

(a) quoted market prices for similar assets or liabilities in active markets;

(b) quoted market prices for identical or similar assets or liabilities in inactive markets;

(c) inputs other than quoted market prices that are observable for the asset or liability;

(d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Pooled Separate Accounts (PSA) : PSAs are made up of wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The NAV of a PSA is based on market value of its underlying investments but the PSA NAV is not a publicly quoted price in an active market.

General Account : Contract value approximates fair value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Pooled Separate Account	$ -	$ 5,115,284	$ -	$ 5,115,284

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012. Due to Regulatory requirement updates during 2012, as well as review of the contract, the Guaranteed Return Account was transferred from a level 2 tier to a level 3 tier.

Pooled Separate Accounts	$ 5,115,284	$ -	Daily	Daily

Pooled Separate Accounts	$ 4,284,283	$ -	Daily	Daily

NOTE 6: TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain plan investments are shares and mutual funds managed by Minnesota Life Insurance Company. Minnesota Life Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Expenses of $7,480 were paid from the Plan for the year ended December 31, 2013.

NOTE 7: TAX STATUS

The Internal Revenue Service has determined and informed the Credit Union by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan management believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to audits by taxing authorities. However, currently no audits for any tax periods are in progress. The plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to December 31, 2010.

NOTE 8: PLAN TERMINATION

Although it has not expressed any intent to do so, Power Financial Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investments which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
