INDEPENDENT AUDITOR'S REPORT

To the Buckeye Investment Committee
Buckeye Retirement Plan
Memphis, Tennessee

We have audited the accompanying financial statements of the Buckeye Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 (final plan period ended) and June 30, 2013, and the related statement of changes in net assets available for benefits for the six months ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Buckeye Retirement Plan as of December 31, 2013 (final plan period ended) and June 30, 2013, and the changes in its net assets available for benefits for the six months ended December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

BUCKEYE RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2013 (Final Plan Period Ended) and June 30, 2013

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Buckeye Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan Merger

The Plan was a defined contribution plan that covered substantially all employees of Buckeye Technologies Inc. and its wholly owned subsidiaries (the Company), with certain eligibility requirements defined by the Plan. It was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). However, on August 23, 2013, the Company was acquired by Georgia-Pacific LLC as a wholly-owned subsidiary; and on December 31, 2013, the Plan's assets were transferred into plans sponsored by Georgia-Pacific LLC.

Contributions

The Plan provided for participant and employer contributions. An employee was eligible to make employee deferral contributions to the Plan upon employment. Participants could contribute 1% to 100% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code limitations. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company's contributions to the Plan were discretionary and were determined by the Company's management. A participant was eligible to share in the allocation of Company matching contributions upon employment. Effective July 1, 2013, the Company's matching contribution to the Plan was amended. The new matching contribution was 50% of each eligible participant's applicable contributions, with a maximum matching contribution not to exceed either \$5,000 or 3% of the participant's annual compensation, as defined by the Plan. A participant was eligible to receive Company foundation contributions if he or she completed 12 months of service. Company foundation contributions were calculated based on a participant's annual compensation and total number of service years, as defined by the Plan. For the six months ended December 31, 2013, the minimum annual Company foundation contribution for each participant was 1.5% of eligible compensation, with a maximum foundation contribution not to exceed 11% of eligible compensation.

Participant Accounts

Each participant's account was credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations were based on a participant's earnings or account balances, as defined. Participant accounts were also assessed certain plan expenses.

The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account. Participants directed the allocation of their investments among the options provided by the Plan through Fidelity Management Trust Company.

Vesting

Due to the merger that occurred with Georgia-Pacific LLC on August 23, 2013, all participants became 100% vested in Company contributions, regardless of years of service, as of December 31, 2013.

Notes Receivable from Participants

Participants could borrow from their fund accounts a minimum of \$1,000 or their deferral account balance, if less, up to a maximum equal to the lesser of statutory loan limits or their deferral account balance. Loans were available to participants for hardship reasons only. The loans were secured by the balance in the participant's account and bore interest rates ranging from 4.25% to 9.75%, which were commensurate with local prevailing rates as determined by the plan administrator. Principal and interest were paid ratably through payroll deductions. Notes receivable from participants were recorded at their unpaid principal balances plus accrued but unpaid interest.

If a participant failed to make payments when they were due under the terms of the loan, that participant was "in default." Loans were in default if any scheduled loan repayment was not made by the end of the calendar quarter following the quarter in which the missed payment was due. The Plan then could take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could have been considered a distribution from the Plan and taxable income to the participant. In any event, failure to repay a loan reduced the benefit a participant was otherwise entitled to from the Plan.

Forfeitures

If an employee terminated before his or her matching and non-elective contribution accounts were fully vested, such portions were forfeited. Participant forfeitures were first used to pay Plan expenses for the Plan year in which the forfeitures were to be allocated. The remaining forfeitures were used to reduce future employer contributions. Forfeitures used to reduce employer contributions for the six months ended December 31, 2013 totaled \$67,785. As of June 30, 2013, forfeitures available to reduce future Plan expenses or employer contributions totaled \$33,022. On December 31, 2013, the forfeitures available of \$3,163 were transferred to Georgia-Pacific LLC.

Payment of Benefits

On termination of service or retirement, the participant could elect to receive one lump-sum cash payment equal to the vested interest in his or her account, equal installment payments over a period of less than ten years, or some combination thereof. However, if the total vested benefit for all accounts was less than \$1,000, the participant received one lump-sum cash payment equal to the vested interest in his or her account. Normal retirement age is 65.

Death and Disability Benefits

Upon death or total and permanent disability prior to termination or retirement, the participant account became 100 percent vested, regardless of service years. Depending on the recipient of the distribution and the source of the funds being distributed, as defined by the Plan, the participant (or beneficiary) received a single lump-sum distribution or annuity payments of 100 percent of the account balance.

Administrative Expenses

Certain expenses of maintaining the Plan were paid directly by the plan sponsor and were excluded from these financial statements. Recordkeeping and other administrative expenses could have been charged directly to the participants' accounts and included in administrative expenses. Investment related expenses were included in net appreciation of fair value of investments. Additional fees were charged to participants based on their use of certain plan features.

Date of Management's Review

The Plan sponsor has evaluated its December 31, 2013 financial statements for subsequent events through June 27, 2014, the date the financial statements were available to be issued. The Plan sponsor is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Plan are prepared using the accrual basis of accounting.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of investment income, realized gains and (losses), and the unrealized appreciation (depreciation) on those investments.

The Plan's investments are stated at fair market value, as defined by generally accepted accounting principles. See Note 4 for disclosure regarding fair value measurement.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Benefits are recorded when paid.

NOTE 3 – INVESTMENTS

The Plan's investments were held by Fidelity Management Trust Company. The following table presents the fair values of investments at December 31, 2013 (final plan period ended) and June 30, 2013. Investments that represented 5 percent or more of the Plan's net assets as of December 31, 2013 and June 30, 2013 are separately identified.

	December 31, 2013	June 30, 2013
Buckeye Technologies Inc. Common Stock	\$ -	\$ 48,102,410
Fidelity Retirement Money Market Portfolio	-	41,548,549

Others (below 5% threshold)	-	86,188,903
	<u>\$ -</u>	<u>\$ 247,295,881</u>

During the six months ended December 31, 2013, the Plan's investments (including investments bought, sold, and held during the six months) appreciated in value as follows:

Mutual funds	\$ 19,672,757
Buckeye Technologies Inc. common stock	587,670
	<u>\$ 20,260,427</u>

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under generally accepted accounting principles are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Money market funds: Valued based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2013. Categories within each type of investment representing 5 percent or more of the Plan's assets at fair value are separately identified.

	Assets at Fair Value as of June 30, 2013			
	Level 1	Level 2	Level 3	Total
Money market funds	\$ -	\$ 41,548,549	\$ -	\$ 41,548,549

Total assets at fair value	\$ 205,747,332	\$ 41,548,549	\$ -	\$ 247,295,881

NOTE 5 – TAX STATUS

The Internal Revenue Service issued a determination letter dated May 22, 2014 stating that the Plan qualifies under Section 401(a) of the Internal Revenue Code (IRC) and is, therefore, exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes that the Plan has not generated any taxable income and no federal or state income tax returns have been filed. Federal and state taxing authorities could request an examination of the financial records of the Plan to ascertain if any such taxable income exists but no such examination has occurred or is pending.

The Plan files an annual information return (Form 5500) with the Department of Labor and returns filed for years 2010 and later are subject to examination.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were shares of mutual funds managed by Fidelity Investments Institutional Operations Company, Inc. Fidelity Management Trust Company, an affiliate of Fidelity Investments Institutional Operations Company, Inc., was the trustee as defined by the Plan and, therefore, those investment transactions qualified as party-in-interest transactions. The Plan also invested in the common stock of the Company. Plan expenses that were paid directly by the Company also qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction provision of ERISA and the Internal Revenue Code.
