Notes to Financial Statements
December 31, 2013

1. Description of Plan

General

The following description of the KCMA Corporation Retirement Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan established for the benefit of substantially all salaried and hourly employees of KCMA Corporation (the Company or Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Eligible employees may participate in the Plan on the first day of each calendar quarter following the completion of 6 consecutive months of service, as defined. Employees who do not make a participation election upon their eligibility are automatically enrolled in the Plan with a 4% deferral of their compensation, as defined. Participants are allowed to make tax-deferred contributions up to 75% of their compensation, as defined, up to the maximum amount allowed by the Internal Revenue Code (the Code).

The Plan Sponsor provided a safe harbor matching contribution equal to 100% of each participant's contribution up to a maximum of 4% of each participant's compensation, as defined, for the year ended December 31, 2013. The safe harbor matching contribution was \$197,795 for the 2013 Plan year.

The Company made a true-up safe harbor matching contribution on behalf of eligible employees during the contribution period in an amount which, when aggregated with the regular safe harbor matching contribution with respect to the contribution period within the Plan year, will provide the maximum contribution. The true-up matching contribution was \$4,311 for the 2013 Plan year.

The Company may also make a discretionary matching contribution to the Plan. For the year ended December 31, 2013, the Company did not make a discretionary matching contribution to the Plan.

**KCMA Corporation Retirement Plan
Notes to Financial Statements (continued)**

1. Description of Plan (continued)

Contributions (continued)

The Plan Sponsor also made a discretionary contribution, which equaled a certain percentage of a participant's compensation, as defined. In order to receive such a contribution, the participant must be employed on the last day of the Plan year. The discretionary contribution percentage is determined by the Plan Sponsor in the following year after the Plan year end and was 2% of each participant's compensation for the year ended December 31, 2013. The Company's discretionary contribution totaled \$100,593 for the year ended December 31, 2013.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company contributions and allocations of the Plan's investment results. Allocations of the Plan's investment results are based on relative account balances, as defined.

Vesting

Participants are vested immediately in their contributions and the Company's safe harbor matching contributions plus earnings thereon.

Participants vest in the Company's additional discretionary matching contribution as follows:

<u>Years of service</u>	<u>Vesting percentage</u>
0-2	0%
2-3	50%
3-4	75%
4 or more	100%

Participants vest in the Company's discretionary non-elective contribution as follows:

<u>Years of service</u>	<u>Vesting percentage</u>
0-2	0%
2-3	20%
3-4	40%
4-5	60%
5-6	80%
6 or more	100%

KCMA Corporation Retirement Plan
Notes to Financial Statements (continued)

1. Description of Plan (continued)

Distributions

Upon death, disability, termination of service, or attainment of retirement age, a participant or his/her beneficiary is paid the value of the participant's vested interest in his/her account in a lump sum. An active participant is not entitled to make a withdrawal from his/her tax-deferred contribution account until the earlier of attainment of age 59½ or separation from service, unless the participant qualifies for a hardship withdrawal.

Forfeitures

Forfeited non-vested amounts are used to reduce Plan Sponsor's contributions to the Plan. At December 31, 2013 and 2012, forfeited non-vested accounts totaled approximately \$0 and \$2,600, respectively. For the year ended December 31, 2013, approximately \$2,600 in forfeitures were used to reduce Plan Sponsor contributions.

Notes Receivable from Participants

Participants may borrow up to the lesser of \$50,000 or 50% of the vested portion of their account balances, subject to certain restrictions, in accordance with interest rates and collateral requirements established by the Plan document. The loans are secured by the balances in the participants' accounts and bear interest at a rate commensurate with market rates for similar loans. Loan terms generally do not exceed 5 years. Participants may select a repayment term up to 30 years for loans used to purchase his/her principal residence.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared using the accrual basis of accounting.

**KCMA Corporation Retirement Plan
Notes to Financial Statements (continued)**

2. Summary of Significant Accounting Policies (continued)

Basis of Presentation (continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent loans to participants made against their vested balances as permitted by the Plan. Notes receivable from participants are valued at the principal amount outstanding plus any accrued but unpaid interest.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

None applicable

Administrative Expenses

Pursuant to provisions of the Plan, expenses incurred in the administration of the Plan may, but need not, be paid by the Plan Sponsor. If the Plan Sponsor elects not to pay such expenses, these expenses are paid by the Plan. During 2013, the Plan Sponsor paid all expenses on behalf of the Plan, except participant loan fees which were paid from participant accounts with outstanding loan balances. Investment-related expenses are paid from the Plan from participant accounts.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by SunTrust Bank (the Trustee).

The fair values of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2013 and 2012 are as follows:

	2013	2012
Federated Capital Preservation Fund	\$ 1,864,475 ^(a)	\$1,724,021 ^(a)

3. Investments (continued)

During 2013 the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

	Year ended December 31, 2013
Mutual funds	\$ 850,996
Common/Collective trust funds	113,537
	<u>\$ 964,533</u>

4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2—Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

Mutual Funds—These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Collective Investment Trust—This investment is a public investment vehicle valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Sponsor believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Party-in-Interest Transactions

The Plan engaged in transactions involving the Trustee, which is a party-in-interest with respect to the Plan. Additionally, certain Plan investments are shares of RidgeWorth mutual funds, a service mark of the Trustee; therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions. These transactions are not considered "prohibited transactions" under the Code and are not prohibited by ERISA.

Notes to Financial Statements (continued)

6. Plan Termination

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become fully vested and receive distributions of their account balances in accordance with the terms of the Plan.

7. Income Tax Status

On March 31, 2008, the Internal Revenue Service (IRS) stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Code. The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan was designed and was being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no such audits in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

9. Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

10. Subsequent Events

The Plan has evaluated subsequent events through July 24, 2014, the date the financial statements were available to be issued.
