Notes to Financial Statements

December 31, 2013

Note 1. Plan Description

The Impact Products, LLC 401(k) Plan is a defined contribution plan covering employees of Impact Products, LLC (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, (ERISA). The provisions of the Plan are included in the official Plan document which legally governs the operations of the Plan and is available for more detailed information.

Eligibility

All employees are eligible to participate in the Plan on January 1, April 1, July 1 and October 1 following six months of service and having attained 18 years of age.

Contributions

Participants may elect to contribute between 1% and 90% of eligible pre-tax compensation up to the statutory dollar limit established by the Internal Revenue Code. Participants may also elect to make post-tax deferral contributions. The Company match contribution is discretionary (50% up to 5% of eligible compensation during 2013). The Company may also make a discretionary contribution as determined by the board of directors. There was no discretionary contribution in 2013.

Automatic Enrollment

Effective August 4, 2011, the Plan provided automatic enrollment with a contribution rate of 3%. An employee can elect not to participate in the Plan or select his or her own contribution percentage. Effective January 31, 2013, the automatic enrollment contribution rate was amended to be 5%.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants have the option of investing in a variety of mutual funds and money market funds offered through Fidelity Management Trust Company. All amounts in participant accounts are participant-directed, however, if a participant does not choose an investment allocation, the Plan provides for a default investment option.

Note 1. Plan Description (Continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

Benefit Payments

Benefits under the Plan are payable when a participant retires, dies, or otherwise ceases to be an employee and are payable in the form of annuities, installments, rollovers or as a lump sum. Benefits are recorded when paid.

Forfeitures

If a participant terminates employment before being fully vested, a portion of the Company contributions will be forfeited. Forfeitures are used to pay Plan expenses and reduce future Company contributions. At December 31, 2013, \$7 of forfeitures are available to pay Plan expenses or reduce future Company contributions. During the Plan year ended December 31, 2013, \$7,327 of forfeitures were used to reduce Company contributions and no forfeitures were used to pay Plan expenses.

Notes Receivable From Participants

The Plan allows participants to borrow from their accounts a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance and for a minimum amount of \$1,000. The loans are secured by the balance in the participant's account and bear interest at prime plus 1% (fixed at issuance). The term of the loan cannot exceed five years unless the loan is for a primary residence, in which case the term cannot exceed ten years. Loans outstanding at December 31, 2013, had interest rates at 4.25% and maturing through November 2018.

Note 2. Significant Accounting Policies

Basis of Financial Statements

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

IMPACT PRODUCTS, LLC 401(K) PLAN

Notes to Financial Statements (Continued)

December 31, 2013

Note 2. Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Plan Administrator has evaluated events and transactions for possible recognition or disclosure through July 29, 2014, the date the financial statements were available to be issued. See Note 9 for additional information regarding the termination of the Plan by October 31, 2014.

Note 3. Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Trustee and was not subjected to any auditing procedures performed by the independent public accountants.

- a. Total investments and notes receivable from participants as shown in the accompanying statements of net assets available for benefits.
- b. Net investment earnings and interest from notes receivable from participants, as shown in the accompanying statement of changes in net assets available for benefits, including dividends and interest income and net realized and unrealized appreciation in fair value of investments.

December 31, 2013

Note 4. Significant Investments

The market value of investments that represent 5% or more of the Plan's net assets are summarized below:

As of December 31, 2013:

Fidelity Diversified International Fund	\$	560,024
Fidelity Dividend Growth Fund		394,281
Fidelity Freedom 2030 Fund		531,321
Fidelity Low-Priced Stock Fund		617,578
Fidelity Short-term Bond Fund		565,880
Fidelity Value Fund		447,182

As of December 31, 2012:

Fidelity Diversified International Fund	\$	416,289
Fidelity Freedom 2030 Fund		478,054
Fidelity Low-Priced Stock Fund		483,833
Fidelity Short-term Bond Fund		512,422
Fidelity Value Fund		356,722

Note 5. Fair Value Measurements

Fair value measurements are based upon the exit price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants, and are determined by either the principal market or the most advantageous market.

Inputs used in the valuation techniques to derive fair values are classified based on a three-level hierarchy to prioritize the inputs used in the valuation techniques to derive fair values. The basis for fair value measurements for each level within the hierarchy is described below with Level 1 measurements having the highest priority and Level 3 measurements having the lowest.

- Level 1: Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.
- Level 2: Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3: Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liabilities' level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money market funds and mutual funds: Valued at quoted market prices, which represent the net asset values (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2013 and 2012.

Assets at Fair Value as of December 31, 2013

Note 6. Transactions with Parties-In-Interest

The Company provides certain accounting, recordkeeping, and administrative services for the Plan for which it receives no compensation. Administrative expenses for accounting and other services are rendered by parties-in-interest and are paid by the Company. The Plan invests in mutual funds affiliated with the trustee. Management fees paid by the Plan to parties in interest totaled approximately \$1,500.

Note 7. Income Tax Status

The Plan, which is a prototype plan of Fidelity Management and Research Company, obtained its latest opinion letter on March 31, 2008, stating that the Plan is a qualified plan under Section 401 of the Internal Revenue Code. The Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan sponsor and Plan administrator are not aware of any course of action or series of events that have occurred that would adversely affect the qualified status of the Plan.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

Note 9. Subsequent Event

On June 30, 2014, the Company was acquired by Genuine Parts Company. As a result of the Company acquisition, the Plan will terminate by October 31, 2014. Accordingly, all participants on June 30, 2014, became 100% vested. Participants will have the option to rollover funds into the Genuine Parts Company 401(k) Savings Plan or take lump-sum distributions, effective July 1, 2014.
