DECEMBER 31, 2013 AND 2012**

Note 1 - Description of the Plan

The following description of the CUNA Mutual Group Trustee 401(k) Multiple Employer Plan as adopted by Community Financial Credit Union (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Community Financial Credit Union who have attained age 18 and completed 90 days of service. An employee can become a participant in the Plan on the first day of the calendar quarter following eligibility. Certain union employees, non-resident aliens and part-time employees who work less than 1,000 hours per year are excluded from eligibility.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

The Plan Sponsor is Community Financial Credit Union (the Credit Union) and the Plan Administrator is CPI Qualified Plan Consultants, Inc. The Plan Administrator is responsible for oversight of the Plan. The Plan maintains 8 individuals collectively known as the Trustee of the Plan. The Investment Custodian is MG Trust Company, LLC. The Investment Custodian holds all of the Plan's assets and executes all of the Plan's transactions. The Plan Administrator has retained CUNA Mutual Group to provide participant recordkeeping and administration services.

Contributions to the Plan

Each year, participants may contribute up to 100% of their eligible compensation, as defined in the plan document, through payroll withholdings. Participants who have attained age 50 before the end of the period are eligible to make additional 'catch-up' contributions. Participants may also contribute amounts representing distributions from other defined benefit or defined contribution plans (rollovers).

COMMUNITY FINANCIAL CREDIT UNION**

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

Note 1 - Description of the Plan - Continued

Contributions to the Plan - Continued

The Plan also provides for employer matching contributions equal to 100% of the participant's deferrals not to exceed 10% of the participant's compensation. Prior to June 1, 2011, the maximum match formula was 100% of the first 5% of the participant's compensation. The total employer match contributions amounted to \$507,217 for the year ended December 31, 2013.

Participants direct the investment of both their individual contributions plus their share of employer matching contributions into the various investment options offered by the plan. The Company's contributions are allocated in the same manner as that of the participant's elective contributions.

Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Credit Union's matching contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are pro rata based on participant account balances, except for certain loan and distribution expenses that are charged directly to the specific participant account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Funds contributed by participants are invested at percentages as directed by participants in any one or more of several investment alternatives.

The income, gains or losses in each fund are allocated daily to the applicable participants' accounts in that fund based on the previously reported account balances, adjusted for current period contributions and withdrawals.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount, an annuity, a partial withdrawal or payment in substantially equal installments. The distributable amount is equal to the value of the participant's vested interest in his or her account. Employees who elect to have their benefit payments deferred continue to share in allocations of investment income and losses but do not share in subsequent allocations of discretionary contributions.

The Plan also allows for in-service distributions upon attainment of age 59 1/2 for any reason, and before age 59 1/2 due to financial hardship, as defined in the plan document.

Forfeitures

Forfeitures attributable to employer contributions may be used to offset plan administrative costs or may be used to fund future employer contributions. Forfeitures in the amount of \$21,525 were used to fund employer contributions for the year ended December 31, 2013. Total forfeitures available to fund employer contributions as of December 31, 2013 and 2012 and amounted to \$-0- and \$1,085, respectively.

Vesting

Participants are immediately vested in their deferral contributions plus actual earnings thereon. Employer matching contributions vest based on years of service at a rate of 25% per year following the first year of service. Participants are 100% vested after the completion of 5 years of service.

Participant Notes Receivable

Participants may borrow up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan transactions are treated as participant-directed investments. Loan terms range from one to five years. Loan terms may exceed five years only in the event the loan proceeds are used to purchase or construct the participant's principal residence. Loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing prime rates. The interest rate on loans outstanding as of December 31, 2012 ranged from 4.25% to 7.00%. Principal and interest is paid ratably through payroll deductions.

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Income from investments are recorded when they are earned. Expenses are recorded in the accounting period in which they are incurred. Employee contributions are recorded in the period to which they pertain. Expenses are reported in the accounting period in which they are incurred.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment custodian and investment advisors. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Realized gains and losses on investment transactions are recorded as the difference between proceeds received and carrying value. Net unrealized appreciation or depreciation in the fair market value of investments is recorded as the change in carrying value of the investment portfolio from the beginning of the year or date of purchase to the end of the year.

Participant Notes Receivable

Participant notes receivable are valued at their unpaid principal plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent participant notes receivable are classified as distributions based upon the terms of the plan document.

Accounting principles generally accepted in the United States of America require the Plan to show participant loans as notes receivable rather than investments. This excludes participant notes receivable from the required fair value disclosures discussed in Note 3.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies - Continued

Fees and Expenses

Professional fees incurred to operate the Plan, such as attorney and audit fees, as well as other fees and expenses relating to the day-to-day plan operations are paid partly by the Plan Sponsor and partly by the participants. Fees that are paid directly by the Plan Sponsor are excluded from these financial statements. Fees related to the administration of loans and benefit payments are charged directly to the participant's accounts and are included in administration expenses. Direct fees for custodian and recordkeeping services are paid by the Plan and are also included in administration expenses. Investment related expenses are included in the net appreciation of fair value of investments.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including August 12, 2014, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Generally accepted accounting principles (GAAP) establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurements

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the assets or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Fully Benefit-Responsive Investments

As described in GAAP, investment contracts held by an investment entity are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets of an investment entity attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by GAAP, the statements of net assets available for benefits represents the fair value of the investment contracts as well as the adjustment of fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

Note 3 - Fair Value Measurements - Continued

Fully Benefit-Responsive Investments - Continued

The Plan has entered into a fully benefit-responsive investment contract administered by CUNA Mutual Group.

Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by CUNA Mutual Group, represents contributions made under the contract, plus earnings, less participant withdrawals, and administration expenses. The Stable Value Fund's contract value is equal to its market value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The approximate fair value of this Fund was \$-0- and \$886,000 at December 31, 2013 and 2012, respectively.

Certain events may limit the ability of the Plan to transact at contract value with CUNA Mutual Group. Such events include: 1) amendments to the Plan document including complete or partial termination or merger of the Plan, 2) activity such as bankruptcy that causes significant withdrawals from the Plan or contract, 3) the failure of the Plan to continue to qualify for tax-exempt status.

The investment contract was being credited with interest at an annual rate of 2.16% and 2.53% at December 31, 2013 and 2012, respectively, and earned an average yield of 2.58% and 2.85% for the years ended December 31, 2013 and 2012, respectively.

Due to the transaction described in Note 4 leaving no assets in the Plan, the table below segregates all financial assets only as of December 31, 2012 that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date:

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Level 1 Fair Value Measurements

Mutual funds are valued at daily closing prices as reported by the Fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

MULTIPLE EMPLOYER PLAN AS ADOPTED BY
COMMUNITY FINANCIAL CREDIT UNION**

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 3 - Fair Value Measurements - Continued

Level 2 Fair Value Measurements

The Common/Collective Trust is comprised of various Mutual Funds and money market securities. Fair value is determined by reference to quoted market prices and other relevant information generated by market transactions.

Level 3 Fair Value Measurements

The Stable Value Fund is valued at the Plan's proportionate share of the total calculated fair value of the underlying assets held in the CUNA Mutual Stable Value Fund as of the valuation date. The value is determined by adjusting contract value by a set formula which takes into account the interest rate actually earned by the fund in the most recent time period and the market rate of the interest on new money.

The stable value account is valued at Level 3 using unobservable inputs for valuing the asset or liability. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Plan Termination/Merger

The Credit Union has the right under the Plan to discontinue its contributions to and to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contribution accounts.

Effective December 31, 2013, the Plan merged into the Credit Union Retirement Plan Association 401(k) Plan. Assets in the amount of \$12,047,631 are included in the statement of changes in net assets available for plan benefits as a transfer out.

Note 5 - Plan Amendment and Tax Status

The Plan is a non-standardized prototype plan, which has been filed with the Internal Revenue Service (IRS) and has received a favorable opinion letter dated April 9, 2008, from the Internal Revenue Service. The Plan Sponsor has not elected to apply for an individual IRS Determination Letter on the adoption of the Plan nor any subsequent amendments. However, the Plan Sponsor believes that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code and, therefore, that the Plan is qualified under Section 401(a) and that the related Trust is tax-exempt as of December 31, 2013.

The Plan was most recently amended and re-stated effective January 1, 2012. Additionally, effective January 1, 2013, the Plan was amended to change the plan sponsor name from Community Financial Members Credit Union To Community Financial Credit Union.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. As of December 31, 2013, the Plan Administrator believes that the Plan has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is currently not being examined. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for the years prior to 2010.

Accordingly, as of and for the years ended December 31, 2013 and 2012, the financial statements have been prepared based on information certified as complete and accurate by the Custodian. This includes the investment information reflected in the accompanying statements of net assets available for benefits, and the statement of changes in net assets available for benefits. Additionally, participant notes receivable balances as well as interest income on participant notes receivable have also been certified.

Transactions involving these investments are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

During the year ended December 31, 2013, the Plan paid fees to its Custodian and Trustees in the amount of \$68,714 related to recordkeeping and administration services.
