Note A – Description of Plan

The following description of the Freedom Scientific, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Freedom Scientific, Inc., (the Company or Employer) established the Plan effective as of January 1, 1997. The Plan has since been amended, the last amendment being March 15, 2010. The Plan operates as a defined contribution plan. It is subject to the applicable provisions of the Employer Retirement Income Security Act of 1974, (ERISA), as amended. Employees of the Company are eligible to participate in the Plan after attainment of age 18.

The custodian of the Plan is Fidelity Management Trust Company (the Custodian or Trustee). As of December 31, 2013, the assets of the Plan are held by the custodian, which have been given the authority and power to, among other things, make investment decisions, borrow funds and take any other action it believes to be beneficial to the Plan.

Contributions

Participants may contribute up to 60% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code (IRC) limitations. The maximum employee deferral for both December 31, 2013 and December 31, 2012 is $17,500 and $17,000, respectively. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of $5,500, for December 31, 2013 and 2012.

The Company may contribute a discretionary matching contribution equal to a percentage of each participant's deferred compensation (the exact percentage to be determined each year by the Employer), only on salary reductions, up to $1,000 of compensation. Participants are eligible for matching contributions if they are currently employed at year end, retired in the current year, or had deceased in the current year. The Company may also contribute a discretionary profit sharing contribution equal to a percentage of each eligible individual's compensation (the exact percentage to be determined each year by the Employer). In fiscal year 2013 the Company made a discretionary matching contribution of 100%, up to $1,000, for each plan participant eligible to receive the match as of December 31, 2013. The Company elected to make a discretionary profit sharing contribution to the Plan for the 2013 Plan year in the amount of $114,000.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution and performance sharing amounts, if applicable. Each participant's account shall be allocated earnings, gains, expenses, and losses with respect to the investments of the participant's account. Allocations of plan earnings or losses are based on each participant's investment fund balance in proportion to the total investment fund balance.

All new employees are automatically enrolled at a 4% salary deferral when they become eligible and each new participant would have an automatic annual 1% salary deferral increase until the new participant's salary deferral reaches 10%. New participants may elect to opt out of the Plan or change the salary deferral. Existing participants in the Plan will be treated as having elected not to have the automatic annual 1% salary deferral increase.

Note A – Description of Plan (Continued)

Vesting

Participants are immediately vested in their voluntary and qualified non-elective contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after four years of credit service as follows.

Years of Services	Vesting Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4	100%

A participant who reaches normal retirement age 59.5, becomes totally disabled, or dies, whichever comes first while under the Company's employment, shall be 100% vested on such date.

Forfeitures

Non-vested benefits of terminated participants are forfeited on the date the participant receives a complete distribution of vested benefits. Forfeitures are used to reduce the Company's benefit plan administration costs and employer contributions. During the year ended December 31, 2013 the Plan utilized $3,728 of forfeitures from participant accounts. For the years ended December 31, 2013 and 2012, forfeited non-vested accounts totaled $0 and $2,514, respectively.

Investment Options

Upon enrollment in the Plan, a participant may direct his or her contributions, in multiples of 1%, into various types of investment options. Participants are allowed to select from 36 different investment options with varying investment styles.

Participants may change their investment options during election periods established by the Plan Administrator.

Distribution of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments paid over various periods, as defined in the Plan agreement. If a participant's vested balance is $1,000 or less, the Company may distribute the entire vested account balance to the participant without their consent.

For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution less 20% withheld for taxes.

Benefits may be received when a participant demonstrates a situation of extreme financial hardship as defined by the Internal Revenue Code and the distribution is approved by the Plan's trustees.

Note A – Description of Plan (Continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participants may only have one loan outstanding at any given time. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes receivable. Loan terms can range from one to five years. These loans are collateralized by the balance in the participant's account and bear interest at prevailing rates as determined by the Plan administrator. Principal and interest are paid by payroll deduction in substantially equal payments over the life of the loan, with payments not less frequently than weekly.

The Plan administrator shall consider a loan in default if any scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due. In the event of a default, death, disability, or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable. However, if the termination of employment results from a corporate action on the part of the employer and the participant remains performing the same job after that corporate action, within 60 days of the termination of employment the participant may request that the Plan administrator roll over the loan to the new employer's retirement plan. Unless the participant rolls over the loan, any default in repayment to the Plan will result in the treating of the balance due as a taxable distribution from the Plan.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

As described in the Code *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the Code), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the Code, the Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Plan had no fully benefit-responsive investments as of December 31, 2013 and 2012.

Fair Value Measurements

The Code has established a framework for measuring fair value, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note B – Summary of Significant Accounting Policies (continued)

Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts: Valued at the net asset value of shares held by the Plan at year-end. Pooled separate accounts can be redeemed at the net asset values as of the measurement date on a daily basis.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Description	Assets Measured at Fair Value at 12/31/2013	Quoted Prices in Active Markets (Level 1)
Interest bearing cash	$ 1,112,714	$ 1,112,714
Pooled separate accounts	9,410,133	9,410,133
	$ 10,522,847	$ 10,522,847

Note B – Summary of Significant Accounting Policies (continued)

Description	Assets Measured at Fair Value at 12/31/2012	Quoted Prices in Active Markets (Level 1)
Interest bearing cash	$ 1,076,585	$ 1,076,585
Pooled separate accounts	8,130,705	8,130,705
	$ 9,207,290	$ 9,207,290

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Contributions

Contributions from participants are accrued and credited to participants' accounts as of each pay period.

Benefits

Benefit payments to participants are recorded when paid.

Party-In-Interest

The Plan invests in shares of certain mutual funds managed and held by Fidelity, the Plan Trustee. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Certain Plan investments are held and managed by the Trustee. Fees paid by the Plan to the Trustee totaled approximately $8,500 for the year ended December 31, 2013.

Note C – Information Certified by the Custodian of the Plan

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained a certification from the Trustee that the information provided to the Plan administrator by the Trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income and, and the information in the supplemental schedule of assets (held at end of year).

Note D – Financial Instruments

Certain financial instruments potentially subject the Plan to concentrations of credit risk. These financial instruments consist of mutual funds and pooled separate accounts. The Plan limits its credit risk by monitoring its accounts with what management believes to be high quality financial institutions.

Note E – Investments

Each of these investments represents 5 percent or more of the Plan's net assets available for benefits as of December 31:

Investment Descriptions	2013	2012
FID Retire Money Market	$1,112,714	$1,076,585
FID Freedom 2030	862,823	677,717
FID Low Priced Stock	737,411	*
FID Diversified Intl	733,980	726,971
FID Freedom 2020	699,914	542,706
FID Freedom 2040	699,024	532,526
FID Mid Cap Stock	545,376	*
SPTN 500 INDEX INV	*	528,826

* This fund did not represent 5% or more of the Plan's net assets available for benefits at the respective Plan yearend.

The net depreciation in market value of investments for the year ended December 31, 2013 consists of the unrealized gains on assets during the fiscal year plus any realized gains on the sale of investments and is reconciled as follows:

Investment Type	December 31, 2013
Pooled separate accounts	$ 1,537,612

Note F – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 31, 2008, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from taxation under Section 401 of the Internal Revenue Code. The Plan Administrator and its qualified tax counsel do not anticipate that changes in the Plan after the date of the amendments covered by the Internal Revenue Service determination letter will affect the qualified and tax-exempt status of the Plan.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2010.

Note G – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants would become 100 percent vested in their accounts.

Note H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note I – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:
