1. DESCRIPTION OF PLAN

The following brief description of Build A Sign LLC 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General - The Plan is a defined contribution plan covering substantially all employees of Build A Sign LLC (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and qualifies under Section 401(a) of the Internal Revenue Code (the "IRC"). The trustee of the Plan is Fidelity Management Trust Company (the "Trustee"). Company management personnel act as the administrator of the Plan.

Eligibility - Employees are eligible to participate in the Plan on the first day of the month following the attainment of twenty-one years of age. Employees covered by a collective bargaining agreement, nonresident aliens who do not receive any earned income from the Company which constitutes United States source income and leased employees are not eligible to participate in the Plan unless certain additional requirements are met.

Contributions - A participant may authorize the Company to withhold pre-tax contributions up to 90% of his or her eligible compensation, not to exceed the annual limit established by the IRC. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute pre-tax amounts representing distributions from other qualified retirement plans.

The Company makes a safe harbor employer matching contribution each pay period in an amount equal to 100% of the first 3% of contributed compensation and 50% of the next 2% of contributed compensation.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts - Each participant's account is credited with the participant's contributions, the Company's contributions and an allocation of Plan earnings, and may be charged with Plan expenses if applicable. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes Receivable from Participants - Participants may borrow from their accounts a minimum of $1,000 and up to a maximum of $50,000 reduced by the highest oustanding note receivable balance over the prior twelve month period or 50% of their vested account balance, whichever is less. Participants may have one note receivable outstanding at a time. Participant notes receivable are secured by the vested balance in the participant's account and bear interest at a reasonable interest rate as determined by the Company. Notes receivable repayments are automatically deducted through after-tax payroll deductions over a period generally not to exceed five years.

Vesting - Participants are immediately vested in their voluntary and safe harbor contributions plus actual earnings thereon.

Payment of Benefits - Upon attainment of age 59.5, death, disability, retirement or termination of employment, a participant may elect to receive a lump sum or installment payments equal to the participant's vested account balance. The Plan administrator may distribute terminated participants' account balances that are less than $1,000 in a lump sum without the participants' consent. Distributions of rollover contributions may be made with no restrictions. In-service distributions for reasons of hardship will result in a six-month suspension during which no contributions may be made to the participant's account.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Plan's financial statements are reported on the accrual basis of accounting.

Accounting Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and Trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Notes Receivable from Participants - Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded at December 31, 2013 or 2012. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Benefits Paid to Participants - Benefits are recorded when paid.

Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from the financial statements. Fees related to the administration of notes receivable from participants and certain other fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Risks and Uncertainties - Financial instruments which potentially subject the Plan to concentrations of credit risk consist primarily of investment securities in which the Plan invests. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, distributions will be made as soon as administratively practicable after the Plan terminates.

Subsequent Events - The Company has evaluated subsequent events through August 27, 2014, the date the financial statements were available to be issued, and no events have occurred through that date that would impact the financial statements.

3. FAIR VALUE MEASUREMENTS

The Plan follows a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs. There are three general valuation techniques that may be used to measure fair value: i) market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities; ii) cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost); and iii) income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations.

Mutual funds are valued at the daily closing price as reported by the fund. The mutual funds are registered with the Securities and Exchange Commission and are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Fair Value

4. INFORMATION CERTIFIED BY THE TRUSTEE

All information disclosed in the accompanying financial statements, notes and supplemental schedules related to the Plan's investment assets and notes receivable from participants at December 31, 2013 and 2012, and the related net investment gain and interest income for the year then ended December 31, 2013, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

5. INVESTMENTS

Individual investment funds that represented 5% or more of the Plan's net assets at December 31, 2013 and 2012 are as follows:

	2013	2012
Fidelity Freedom 2045 Fund	$ 331,829	$ 140,635
Fidelity Freedom 2050 Fund	226,340	110,774
Fidelity Freedom 2040 Fund	215,675	111,385

Fidelity Freedom 2035 Fund	190,511	115,719
Fidelity Leveraged Company Stock Fund	*	124,376
Fidelity Growth Strategies Fund	*	105,575

* This investment represented less than 5% of the Plan's net assets at December 31, 2013.

The net appreciation in fair value of mutual funds (including gains and losses on investments bought, sold and held during the year) was $424,316 for the year ended December 31, 2013.

6. TAX STATUS

The Company has not applied for a determination letter from the Internal Revenue Service ("IRS") to determine if the Plan is designed in accordance with applicable sections of the IRC. The Plan document is based upon a volume submitter plan instrument from Fidelity Management & Research Company which received an IRS advisory letter dated March 31, 2008. The volume submitter plan instrument has been updated for legislative and regulatory changes. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. RECONCILIATION TO THE FORM 5500
