Fiskars Brands 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Fiskars Brands 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan is a defined contribution plan covering non-collective bargaining employees of Fiskars Brands, Inc. (the Company) who have at least 1 hour of service and are age 18 or older and will enter the Plan the first day after completing the requirements. Employees are eligible for the discretionary profit sharing contribution after completing six months of service and are employed on the last day of the plan year and enter the following January 1 or July 1 upon completing the eligibility requirements. Effective June 1, 2014, the employees of Royal Copenhagen, Inc. on May 31, 2014 and of the Company on June 1, 2014 who had six months of credited service under the Royal Copenhagen Porcelain Profit Sharing and Savings Plan as of January 1, 2014 will be eligible for the profit sharing contribution on June 1, 2014. For all other employees of Royal Copenhagen, Inc. on May 31, 2014 and of the Company on June 1, 2014 will be eligible for the profit sharing contribution as defined above. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to make before tax contributions to the Plan up to the maximum allowed by the Internal Revenue Service. Participants are subject to an automatic deferral amount which will require 3 percent of compensation to be withheld unless the participant elects a contrary election. Notwithstanding any of the foregoing, a participant may elect to defer zero percent. As of January 1, 2014, the automatic deferral amount was increased to 6 percent of compensation to be withheld unless the participant elects a contrary election. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Each year, the Company contributes employer matching contributions of 100 percent of the first three percent of employee deferrals and 50 percent of the next three percent of employee deferrals. Total employer matching contributions for 2013 were approximately \$1,293,100. Additional amounts may be contributed at the option of the Company's board of directors. For 2013, the Company declared a 2.5 percent profit sharing contribution which amounted to approximately \$685,600. In addition, there was approximately \$19,700 contributed as profit sharing contribution to correct prior year's profit sharing contributions. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and company matching contributions plus actual earnings thereon. A participant is 100 percent vested in the company discretionary contributions after five years of credited service, with the exception of funds transferred in from the Brunton Company 401(k) Savings Plan. The employer contributions received from the Brunton Company 401(k) Savings Plan will continue to vest based on that plan's vesting schedule which allows for 20 percent vesting per year beginning after two years of service.

Investment Options: Upon enrollment in the Plan, participants may direct the investment of their account balances into a variety of investment options as more fully described in the Plan's literature. Participants may change their investment options daily.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes Receivable From Participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.75 percent, which are commensurate with a commercially reasonable rate of return, which the Plan's Trustee or its affiliate has determined to be the prime rate plus one percent. Note terms shall not exceed five years, except for the purchase of a primary residence. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: On termination of service due to death, disability, retirement or termination, a participant may elect to receive an amount equal to the participant's vested account balance as a lump-sum distribution or installment payments, or roll it over to another qualified retirement plan. Participants may elect to receive their benefits in the form of an annuity for funds merged into the Plan from the Fiskars Brands, Inc. Employee Retirement plan.

Forfeited Accounts: At December 31, 2013 and 2012, forfeited non-vested accounts totaled approximately \$29,200 and \$64,700, respectively. These accounts are used to reduce future employer contributions or pay plan expenses. In 2013, approximately \$72,500 of forfeited non-vested account was used to pay plan expenses. At December 31, 2013 and 2012, the balance in the revenue sharing account totaled approximately \$38,377 and \$27,286, respectively. This account is used to pay plan expenses. In 2013, approximately \$145,200 of revenue sharing income was used to pay plan expenses.

Note 2. Significant Accounting Policies

Basis of Accounting: The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles of the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Total Rewards Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Significant Accounting Policies (Continued)

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes Receivable From Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

Recent Accounting Pronouncement: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounts Standards Updated (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update are effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent Events: The Plan's management has evaluated subsequent events through August 21, 2014, the date the financial statements were available to be issued.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Fiskars Brands 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Shares of Registered Investment Companies: Shares of registered investment companies are valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Interest in Collective Investment Trusts: Interest in collective investments trusts are valued based on the NAV units of the interest in collective investment trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

- (a) The fund has invested all of its assets in Wells Fargo Stable Return Fund G, a collective trust fund sponsored by the Wells Fargo Bank, N.A. The value of this investment is based on the underlying unit value reported by Wells Fargo Stable Return Fund G. As of December 31, 2013, the Wells Fargo Stable Return Fund N35 held a 6.38 percent ownership interest in the Wells Fargo Stable Return Fund G. As of December 31, 2012, the Wells Fargo Stable Return Fund N35 held an 6.91 percent ownership interest in the Wells Fargo Stable Return Fund G.

The Wells Fargo Stable Return Fund G invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor credit rate, and return of fully accrued contract value at maturity.

- (b) The fund is an index fund that invests in debt securities to approximate the return, before fees and expenses, of the Index. The Index is a broad index that is designated to capture the aggregate performance of the U.S. market for high quality government and corporate bonds.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Level 3.

The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	<u>Level 3 Assets</u> <u>Stable Value</u>
Balance, beginning of year	\$ 6,533,145
Realized gains	14,014
Unrealized losses relating to investments still held at reporting date	(67,510)
Purchases	2,007,841
Sales	<u>(2,511,419)</u>
Balance, end of year	<u>\$ 5,976,071</u>
The amount of total losses for the period attributable to the change in unrealized gains or losses still held at the reporting date	<u>\$ (67,510)</u>

Note 6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

Note 7. Related-Party Transactions

The Plan invests in certain shares of collective investment trusts managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Wells Fargo Bank, NA also provides certain recordkeeping and administrative services for which they received approximately \$150,900 in fees for the year ended December 31, 2013.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. In addition, the Company pays outside administrative expenses of the Plan.

Note 8. Income Tax Status

The Internal Revenue Service has determined and informed the sponsor, by a letter dated December 13, 2011, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. We believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan was most recently amended on June 1, 2014.

Management evaluated the Plan's uncertain tax positions and concluded that the Plan had maintained its exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statement. With few exceptions, the Plan is no longer subject to income tax examinations by U.S. federal, state or local tax authorities for the years before 2010.

Note 1. Description of Plan

The following description of the Fiskars Brands 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan is a defined contribution plan covering non-collective bargaining employees of Fiskars Brands, Inc. (the Company) who have at least 1 hour of service and are age 18 or older and will enter the Plan the first day after completing the requirements. Employees are eligible for the discretionary profit sharing contribution after completing six months of service and are employed on the last day of the plan year and enter the following January 1 or July 1 upon completing the eligibility requirements. Effective June 1, 2014, the employees of Royal Copenhagen, Inc. on May 31, 2014 and of the Company on June 1, 2014 who had six months of credited service under the Royal Copenhagen Porcelain Profit Sharing and Savings Plan as of January 1, 2014 will be eligible for the profit sharing contribution on June 1, 2014. For all other employees of Royal Copenhagen, Inc. on May 31, 2014 and of the Company on June 1, 2014 will be eligible for the profit sharing contribution as defined above. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to make before tax contributions to the Plan up to the maximum allowed by the Internal Revenue Service. Participants are subject to an automatic deferral amount which will require 3 percent of compensation to be withheld unless the participant elects a contrary election. Notwithstanding any of the foregoing, a participant may elect to defer zero percent. As of January 1, 2014, the automatic deferral amount was increased to 6 percent of compensation to be withheld unless the participant elects a contrary election. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Each year, the Company contributes employer matching contributions of 100 percent of the first three percent of employee deferrals and 50 percent of the next three percent of employee deferrals. Total employer matching contributions for 2013 were approximately \$1,293,100. Additional amounts may be contributed at the option of the Company's board of directors. For 2013, the Company declared a 2.5 percent profit sharing contribution which amounted to approximately \$685,600. In addition, there was approximately \$19,700 contributed as profit sharing contribution to correct prior year's profit sharing contributions. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and company matching contributions plus actual earnings thereon. A participant is 100 percent vested in the company discretionary contributions after five years of credited service, with the exception of funds transferred in from the Brunton Company 401(k) Savings Plan. The employer contributions received from the Brunton Company 401(k) Savings Plan will continue to vest based on that plan's vesting schedule which allows for 20 percent vesting per year beginning after two years of service.

Investment Options: Upon enrollment in the Plan, participants may direct the investment of their account balances into a variety of investment options as more fully described in the Plan's literature. Participants may change their investment options daily.

Note 1. Description of Plan (Continued)

Notes Receivable From Participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.75 percent, which are commensurate with a commercially reasonable rate of return, which the Plan's Trustee or its affiliate has determined to be the prime rate plus one percent. Note terms shall not exceed five years, except for the purchase of a primary residence. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: On termination of service due to death, disability, retirement or termination, a participant may elect to receive an amount equal to the participant's vested account balance as a lump-sum distribution or installment payments, or roll it over to another qualified retirement plan. Participants may elect to receive their benefits in the form of an annuity for funds merged into the Plan from the Fiskars Brands, Inc. Employee Retirement plan.

Forfeited Accounts: At December 31, 2013 and 2012, forfeited non-vested accounts totaled approximately \$29,200 and \$64,700, respectively. These accounts are used to reduce future employer contributions or pay plan expenses. In 2013, approximately \$72,500 of forfeited non-vested account was used to pay plan expenses. At December 31, 2013 and 2012, the balance in the revenue sharing account totaled approximately \$38,377 and \$27,286, respectively. This account is used to pay plan expenses. In 2013, approximately \$145,200 of revenue sharing income was used to pay plan expenses.

Note 2. Significant Accounting Policies

Basis of Accounting: The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles of the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Total Rewards Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes Receivable From Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

Recent Accounting Pronouncement: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounts Standards Updated (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update are effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent Events: The Plan's management has evaluated subsequent events through August 21, 2014, the date the financial statements were available to be issued.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Fiskars Brands 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Shares of Registered Investment Companies: Shares of registered investment companies are valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Interest in Collective Investment Trusts: Interest in collective investments trusts are valued based on the NAV units of the interest in collective investment trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The value of this investment is based on the underlying unit value reported by Wells Fargo Stable Return Fund G. As of December 31, 2013, the Wells Fargo Stable Return Fund N35 held a 6.38 percent ownership interest in the Wells Fargo Stable Return Fund G. As of December 31, 2012, the Wells Fargo Stable Return Fund N35 held an 6.91 percent ownership interest in the Wells Fargo Stable Return Fund G.

The Wells Fargo Stable Return Fund G invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor credit rate, and return of fully accrued contract value at maturity.

- (b) The fund is an index fund that invests in debt securities to approximate the return, before fees and expenses, of the Index. The Index is a broad index that is designated to capture the aggregate performance of the U.S. market for high quality government and corporate bonds.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Level 3.

The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	<u>Level 3 Assets</u> <u>Stable Value</u>
Balance, beginning of year	\$ 6,533,145
Realized gains	14,014
Unrealized losses relating to investments still held at reporting date	(67,510)
Purchases	2,007,841
Sales	<u>(2,511,419)</u>
Balance, end of year	<u>\$ 5,976,071</u>
The amount of total losses for the period attributable to the change in unrealized gains or losses still held at the reporting date	<u>\$ (67,510)</u>

Note 6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

Note 7. Related-Party Transactions

The Plan invests in certain shares of collective investment trusts managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Wells Fargo Bank, NA also provides certain recordkeeping and administrative services for which they received approximately \$150,900 in fees for the year ended December 31, 2013.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. In addition, the Company pays outside administrative expenses of the Plan.

Note 8. Income Tax Status

The Internal Revenue Service has determined and informed the sponsor, by a letter dated December 13, 2011, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. We believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan was most recently amended on June 1, 2014.

Management evaluated the Plan's uncertain tax positions and concluded that the Plan had maintained its exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statement. With few exceptions, the Plan is no longer subject to income tax examinations by U.S. federal, state or local tax authorities for the years before 2010.

Fiskars Brands 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Fiskars Brands 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan is a defined contribution plan covering non-collective bargaining employees of Fiskars Brands, Inc. (the Company) who have at least 1 hour of service and are age 18 or older and will enter the Plan the first day after completing the requirements. Employees are eligible for the discretionary profit sharing contribution after completing six months of service and are employed on the last day of the plan year and enter the following January 1 or July 1 upon completing the eligibility requirements. Effective June 1, 2014, the employees of Royal Copenhagen, Inc. on May 31, 2014 and of the Company on June 1, 2014 who had six months of credited service under the Royal Copenhagen Porcelain Profit Sharing and Savings Plan as of January 1, 2014 will be eligible for the profit sharing contribution on June 1, 2014. For all other employees of Royal Copenhagen, Inc. on May 31, 2014 and of the Company on June 1, 2014 will be eligible for the profit sharing contribution as defined above. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to make before tax contributions to the Plan up to the maximum allowed by the Internal Revenue Service. Participants are subject to an automatic deferral amount which will require 3 percent of compensation to be withheld unless the participant elects a contrary election. Notwithstanding any of the foregoing, a participant may elect to defer zero percent. As of January 1, 2014, the automatic deferral amount was increased to 6 percent of compensation to be withheld unless the participant elects a contrary election. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Each year, the Company contributes employer matching contributions of 100 percent of the first three percent of employee deferrals and 50 percent of the next three percent of employee deferrals. Total employer matching contributions for 2013 were approximately \$1,293,100. Additional amounts may be contributed at the option of the Company's board of directors. For 2013, the Company declared a 2.5 percent profit sharing contribution which amounted to approximately \$685,600. In addition, there was approximately \$19,700 contributed as profit sharing contribution to correct prior year's profit sharing contributions. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and company matching contributions plus actual earnings thereon. A participant is 100 percent vested in the company discretionary contributions after five years of credited service, with the exception of funds transferred in from the Brunton Company 401(k) Savings Plan. The employer contributions received from the Brunton Company 401(k) Savings Plan will continue to vest based on that plan's vesting schedule which allows for 20 percent vesting per year beginning after two years of service.

Investment Options: Upon enrollment in the Plan, participants may direct the investment of their account balances into a variety of investment options as more fully described in the Plan's literature. Participants may change their investment options daily.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes Receivable From Participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.75 percent, which are commensurate with a commercially reasonable rate of return, which the Plan's Trustee or its affiliate has determined to be the prime rate plus one percent. Note terms shall not exceed five years, except for the purchase of a primary residence. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: On termination of service due to death, disability, retirement or termination, a participant may elect to receive an amount equal to the participant's vested account balance as a lump-sum distribution or installment payments, or roll it over to another qualified retirement plan. Participants may elect to receive their benefits in the form of an annuity for funds merged into the Plan from the Fiskars Brands, Inc. Employee Retirement plan.

Forfeited Accounts: At December 31, 2013 and 2012, forfeited non-vested accounts totaled approximately \$29,200 and \$64,700, respectively. These accounts are used to reduce future employer contributions or pay plan expenses. In 2013, approximately \$72,500 of forfeited non-vested account was used to pay plan expenses. At December 31, 2013 and 2012, the balance in the revenue sharing account totaled approximately \$38,377 and \$27,286, respectively. This account is used to pay plan expenses. In 2013, approximately \$145,200 of revenue sharing income was used to pay plan expenses.

Note 2. Significant Accounting Policies

Basis of Accounting: The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles of the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Total Rewards Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fiskars Brands 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes Receivable From Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

Recent Accounting Pronouncement: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounts Standards Updated (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update are effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent Events: The Plan's management has evaluated subsequent events through August 21, 2014, the date the financial statements were available to be issued.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Fiskars Brands 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Shares of Registered Investment Companies: Shares of registered investment companies are valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Interest in Collective Investment Trusts: Interest in collective investments trusts are valued based on the NAV units of the interest in collective investment trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The value of this investment is based on the underlying unit value reported by Wells Fargo Stable Return Fund G. As of December 31, 2013, the Wells Fargo Stable Return Fund N35 held a 6.38 percent ownership interest in the Wells Fargo Stable Return Fund G. As of December 31, 2012, the Wells Fargo Stable Return Fund N35 held an 6.91 percent ownership interest in the Wells Fargo Stable Return Fund G.

The Wells Fargo Stable Return Fund G invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor credit rate, and return of fully accrued contract value at maturity.

- (b) The fund is an index fund that invests in debt securities to approximate the return, before fees and expenses, of the Index. The Index is a broad index that is designated to capture the aggregate performance of the U.S. market for high quality government and corporate bonds.

Note 5. Fair Value Measurements (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Level 3.

The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Level 3 Assets Stable Value
Balance, beginning of year	\$ 6,533,145
Realized gains	14,014
Unrealized losses relating to investments still held at reporting date	(67,510)
Purchases	2,007,841
Sales	<u>(2,511,419)</u>
Balance, end of year	<u>\$ 5,976,071</u>
The amount of total losses for the period attributable to the change in unrealized gains or losses still held at the reporting date	<u>\$ (67,510)</u>

Note 6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

Note 7. Related-Party Transactions

The Plan invests in certain shares of collective investment trusts managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Wells Fargo Bank, NA also provides certain recordkeeping and administrative services for which they received approximately \$150,900 in fees for the year ended December 31, 2013.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. In addition, the Company pays outside administrative expenses of the Plan.

Note 8. Income Tax Status

The Internal Revenue Service has determined and informed the sponsor, by a letter dated December 13, 2011, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. We believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan was most recently amended on June 1, 2014.

Management evaluated the Plan's uncertain tax positions and concluded that the Plan had maintained its exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statement. With few exceptions, the Plan is no longer subject to income tax examinations by U.S. federal, state or local tax authorities for the years before 2010.
