PROSPECT HILL RADIOLOGY GROUP, PC
PROFIT SHARING AND RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS

NOTE A-DESCRIPTION OF PLAN

The following description of the Prospect Hill Radiology Group, PC ("Company") Profit Sharing and Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company. Effective July 1, 2011, all full-time employees are immediately eligible for the plan as of their hire date. However, they are not eligible for the employer match or profit sharing contribution until they have completed at least one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement accounts (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. Matching contributions are discretionary. If a matching contribution is made, elective deferrals in excess of 6% of compensation will not be matched. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers from eligible retirement plans, and Company matching contributions, as well as allocations of the Company's profit sharing contribution, and Plan earnings. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants entering the Plan prior to January 1, 2003 are fully vested. Participants hired after December 31, 2002 are 100% vested after five years of service.

Payments of Benefits

On termination of service due to death, disability, or retirement a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or a direct transfer to a qualified retirement plan. Beginning July 1, 2011, in-service distributions of rollovers, profit sharing and/or match accounts shall be allowed on or after the attainment of age 50 provided the participant is 100% vested in all accounts. When a participant attains age 59 1/2, a participant can take in-service withdrawals of their 401k contribution account.

Hardship Distributions

A hardship distribution may be made if it can be demonstrated there is an immediate and heavy financial need for funds resulting from:

1. The purchase of a principal residence, but not including mortgage payments, by the employee;
2. Payment of tuition costs, related educational fees, and room and board expenses for the next 12 months of post-secondary education for the participant or their spouse, children, or dependents;
3. Medical expenses not covered by insurance for the participant or their spouse or dependents;
4. The cost of preventing an eviction from or foreclosure on the participant's principal residence;
5. Payments for burial or funeral expenses for the participant's deceased parent, spouse, children or dependents; or
6. Expenses for the repair of damage to the participant's principal residence that would qualify for the casualty deduction under the Internal Revenue Code.

The amount of a hardship withdrawal (up to 100% of the Participant's Elective Account) must be no more than the amount necessary to satisfy the immediate and heavy financial need, plus any income taxes or penalties which are expected to result from the distribution.

Participant Loans

Participant loans are not permitted under the Plan.

Forfeited Accounts

If employment is terminated before becoming 100% vested in the account balance, the non-vested portion of the account balance will be forfeited.

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $4,694 and $7,553 respectively. The amounts forfeited reduce future company contributions. Also in 2012, employer contributions were reduced by $68,400 from forfeited non-vested accounts.

Excess Employer Match

Matching contributions in excess of amounts allowed by the Plan are recorded as a liability with a corresponding reduction to employer's contribution. The amount of $21,939 at December 31, 2013 plus any earnings will be forfeited and used to reduce future company contributions.

NOTE B-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. The custodian of the Plan has advised the Trustee that the breakdown of investment income between interest and dividends is not available.

Payment of Benefits

Benefits are recorded when paid.

Expenses

All administrative expenses of maintaining the plan are paid by Prospect Hill Radiology Group, PC, the plan sponsor for 2013 and 2012.

NOTE C-INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets:

NOTE D-FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Fair Value Measurements at December 31, 2013

	Level 1	Level 2	Level 3	Total
Mutual Funds	$28,354,837	-	-	$28,354,837

Fair Value Measurements at December 31, 2012

	Level 1	Level 2	Level 3	Total
Mutual Funds	$23,803,879	-	-	$23,803,879

NOTE E-PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE F-TAX STATUS

The IRS has determined and informed the Company by letter dated August 24, 2010, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the Unites States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE G-PLAN AMENDMENTS

Effective July 1, 2013, Prospect Hill Radiology Group, P.C. adopted an amendment to allow in-plan Roth conversions of any funds held in non-Roth accounts within the Plan.

NOTE H-RISKS AND UNCERTAINTIES

The Plan invests in various investments securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I-RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company ("VFTC"). Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

The employees of the affiliate were given the opportunity to make elective deferrals immediately but will need to fulfill the year of service requirement prior to being eligible for the employer contributions (match and profit sharing). The plan will not recognize the service that each employee had with St. Joseph's Hospital or any other prior employer. The plan's vesting schedule will apply to each employee.
