Report on the Financial Statements

We have audited the accompanying financial statements of Fidelity National Information Services, Inc. 401(k) Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013, and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(i)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013, and 2012, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

FIDELITY NATIONAL INFORMATION SERVICES, INC.
401(k) PROFIT SHARING PLAN
Notes to Financial Statements
December 31, 2013 and 2012

(1) Description of the Plan

The following description of the Fidelity National Information Services, Inc. 401(k) Profit Sharing Plan (the FIS Plan) provides only general information. The FIS Plan and its related Trust are intended to qualify as a profit-sharing plan and trust under Sections 401(a) and 501(a) of the Internal Revenue Code (the Code), with a cash or deferred arrangement within the meaning of Section 401(k) of the Code. In addition, the FIS Plan is intended to qualify as a stock bonus plan that satisfies the requirements of an employee stock ownership plan (ESOP) within the meaning of Section 4975(e)(7) of the Code; provided, however, that effective July 31, 2011, no further contributions may be invested in shares of Company stock and effective November 30, 2011, the ESOP portion of the Plan was removed. That portion of the FIS Plan was designed to invest primarily in shares of Fidelity National Information Services, Inc. (FIS or the Company or the Employer or the Plan Sponsor).

The purpose of the FIS Plan is to provide retirement benefits to participants and their beneficiaries in a manner consistent and in compliance with the Code and the Employee Retirement Income Security Act of 1974 (ERISA). The Company shall maintain and administer the FIS Plan for the exclusive benefit of participants and their beneficiaries. Participants should refer to the FIS plan document for more complete information of the FIS Plan's provisions.

(a) General

The FIS Plan is a defined contribution retirement plan covering all employees of the Company who have attained age 18 and have completed 90 days of service. Temporary, part-time or seasonal employees are eligible to participate in the FIS Plan if 18 years of age or older and upon completion of 1,000 hours of service during the plan year. Union, nonresident aliens and leased employees are not eligible to participate in the FIS Plan. Employees are automatically enrolled in the FIS Plan if they do not decline enrollment within 30 days of becoming eligible.

(b) Contributions

During 2013 and 2012, participants could contribute up to 40% of pretax annual compensation through payroll deductions, as defined in the FIS Plan. Participants who have attained age 50 before the end of the FIS Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans, as well as direct rollovers from individual retirement accounts or annuities. Contributions are subject to certain limitations. During 2013 and 2012, the Company made matching contributions equal to 50% of participant deferrals up to 6% of eligible compensation. Discretionary employer contributions may be made at the option of the Company's board of directors. The Company match for 2013 and 2012 of \$25.4 million and \$23.7 million, respectively, was funded throughout the year. No discretionary employer contributions were made during the years ended December 31, 2013 and 2012. All employer contributions are invested according to the participants' investment elections.

(c) Rollovers From Metavante Retirement Plan

On December 31, 2012 the Metavante Retirement Plan (the Metavante Plan) merged into the FIS Plan. This resulted in a transfer of approximately \$0.3 million in plan net assets from the Metavante Plan to the FIS Plan. Additionally, participants of the Metavante Plan had the option to rollover their balances to the FIS Plan resulting in rollovers of \$82.1 million during 2012.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's contribution, and an allocation of FIS Plan earnings, and charged with an allocation of FIS Plan losses and expenses, if any.

Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of service as follows:

	Vested Percentage
Number of years of service:	
Less than 1 year	0%
1 year	34%
2 years	67%
3 years or more	100%

(f) Forfeitures

Upon termination of employment, the nonvested portion of a participant's interest in their account attributable to employer contributions will be forfeited. These forfeitures can be used to restore the accounts of former FIS Plan participants, pay administrative expenses of the FIS Plan, if not paid by the Company, or reduce future Company matching contributions. During 2013 and 2012, \$0.4 million and \$0.5 million, respectively, of forfeitures were used to offset employer contributions in accordance with the FIS plan document. As of December 31, 2013 and 2012, there were \$0.1 million of unused forfeitures.

(g) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000, and are permitted to have two loans outstanding at a time. Loans may generally be taken up to 50% of a participant's vested account balance, but cannot exceed \$50,000. Loans are generally repaid through payroll deductions with a 5-year maximum limit, except for loans for home purchases which may have terms up to 10 years. Interest rates are set at the date of the loan at the prime rate as determined by the Plan's Trustee or its affiliate plus 1%. Loan related fees for set-up and maintenance are paid by the participant. Interest rates range from 3.25% to 10.5% on loans outstanding as of December 31, 2013. Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest.

(h) Payment of Benefits

Withdrawals from participant accounts may be made only for the following reasons: retirement at the FIS Plan's normal retirement age (65), when a participant reaches age 59½, disability, death, or termination of employment. On termination of employment, a participant may receive the value of the participant's vested interest in his or her account as a lump-sum distribution. If a participant's account balance is less than \$1,000 upon retirement or termination, a distribution of the participant's account will be made automatically. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

(i) Administration

During 2013 and 2012, the trustee of the FIS Plan was Wells Fargo Bank, NA (Wells Fargo). Wells Fargo also performs participant recordkeeping and other administrative duties for the FIS Plan. Fidelity National Information Services, Inc. Group Plans Committee (the Committee) oversees the FIS Plan's operations.

(j) Administrative Expenses

Under the terms of the FIS plan document, administrative expenses of the FIS Plan are paid by the FIS Plan or FIS.

(k) Investment Options

Notes to Financial Statements
December 31, 2013 and 2012

Participants may direct their elective deferrals in and among various investment options. Participants may change their investment elections and transfer funds between investment options on a daily basis. At December 31, 2013, the investment options consist of three common/collective trust funds, three corporate bond funds, twelve balanced funds and three small cap, three mid cap, two large cap and two international equity funds.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The financial statements of the FIS Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the FIS Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the FIS Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Risk and Uncertainties

The FIS Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(d) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the FIS Plan's gains and losses on investments bought and sold as well as held during the year.

The FIS Plan provides participants with the option of directing their elective deferrals into three Wells Fargo common/collective trust funds which include the Wells Fargo Stable Return Fund N, Wells Fargo S&P 500 Index Fund N and Wells Fargo International Equity Index Fund N. The Wells Fargo Stable Return Fund N invests in guaranteed investment contracts and synthetic investment contracts with the objective of principal preservation through ownership of a broadly diversified portfolio of high quality assets. The Wells Fargo S&P 500 Index Fund N invests in common stocks in substantially the same percentages as the S&P 500 Index with the objective of approximating, before fees and expenses, the total return of the S&P 500 Index. The Wells Fargo International Equity Index Fund N generally intends to replicate the Morgan Stanley Capital International Europe Australia and Far East Index and seeks to approximate the total return, before deduction of fees and expenses, as measured by the index.

Notes to Financial Statements
December 31, 2013 and 2012

Investment options in common/collective trusts are valued using the audited financial statements of the collective trust at year-end using net asset value (NAV) as a practical expedient. Notwithstanding a twelve month replacement notification requirement on the Wells Fargo Stable Return Fund N, the common/collective trust funds do not have limiting terms, or restrictions on redemption. Additionally, the common collective trust funds are not subject to future unfunded commitments, and it is not probable that they will be sold at a value other than NAV.

(e) Payment of Benefits

Benefits are recorded when paid.

(3) Fair Value Measurements

(a) Fair Value of Financial Instruments

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments are measured at fair value in the accompanying Statements of Net Assets Available for Benefits. Participant and employer contributions receivable, receivables due from Wells Fargo, and amounts due to and from brokers approximate fair value based on their short-term nature.

(b) Fair Value Hierarchy

The authoritative accounting literature defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy based on the quality of inputs used to measure fair value.

The fair value hierarchy includes three levels which are based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the investment. The three levels of the fair value hierarchy are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the FIS Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2013 as compared with 2012.

Mutual funds and corporate bond funds: Valued based on quoted market prices of shares held by the FIS Plan at year end.

Common collective trust funds: Valued at NAV as a practical expedient to measuring fair value, primarily based on the fair value of the underlying investments at quoted market prices, as determined by the Trustee of the fund of shares held by the FIS Plan at year end.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

Net appreciation in fair value of investments		

As stated in notes 2(a) and 2(d), the Wells Fargo Stable Return Fund N (the Fund), which is deemed to be fully benefit-responsive, is stated at fair value in the Statements of Net Assets Available for Benefits, with a corresponding adjustment to reflect contract value. The fair value of the Fund as of December 31, 2013 and 2012 was \$180.9 million and \$184.9 million, respectively. The contract value of the Fund as of December 31, 2013 and 2012 was \$179.5 million and \$179.7 million, respectively. There are no reserves against the contract value for credit risk of the contract issuer or otherwise. During 2013 and 2012, the average yield of the Fund was approximately 1.36% and 0.94%, respectively. This represents the annualized earnings of all investments in the Fund, divided by the fair value of all investments in the Fund. During 2013 and 2012, the crediting interest rate of the Fund was approximately 1.52% and 1.95%, respectively. This represents the annualized earnings credited to participants in the Fund, divided by the fair value of all investments in the Fund. The credit rating assigned to Wells Fargo by Standard & Poor's at December 31, 2013 is AA-.

Certain events limit the liability of the FIS Plan to transact at contract value with the issuer. Such events include the following: (1) the Plan's failure to qualify under Section 401(a) or Section 401(k) of the IRC, (2) the establishment of a defined contribution plan that competes with the FIS Plan for employee contributions, (3) any substantive modification of the fund or the administration of the fund that is not consented to by the issuer, (4) any change in law, regulation or administrative ruling applicable to the FIS Plan that could have a material adverse effect on the fund's cash flow, (5) any communication given to participants by the FIS Plan's sponsor or fiduciary or Wells Fargo that is designed to induce or influence participants to avoid investing in the fund or to transfer assets out of the fund, and (6) any transfer of assets from the fund directly to a competing investment option. The plan administrator does not believe that the occurrence of any of these events which would limit the FIS Plan's ability to transact at contract value with participants is probable of occurring.

(5) Related Party Transactions

Certain FIS Plan investments are shares of common/collective trust funds and mutual funds managed by Wells Fargo. Wells Fargo is the Trustee as defined by the FIS Plan and, therefore, these transactions qualify as party-in-interest transactions.

FIDELITY NATIONAL INFORMATION SERVICES, INC.
401(k) PROFIT SHARING PLAN
Notes to Financial Statements
December 31, 2013 and 2012

Fees paid by the FIS Plan for investment management services were \$0.1 million for each of the years ended December 31, 2013 and 2012.

(6) Income Tax Status

The FIS Plan is a defined contribution retirement plan that is intended to be qualified under Section 401(a) of the Code. Once qualified, the FIS Plan is required to operate in conformity with the Code to maintain its qualification as tax exempt. The FIS Plan received a favorable determination letter from the Internal Revenue Service on November 9, 2011.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the FIS Plan to discontinue its contributions at any time and to terminate the FIS Plan subject to the provisions of ERISA. In the event of the FIS Plan's termination, participants will become 100% vested in their employer contributions.

(8) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2013	2012
Net assets available for benefits, per the financial statements	\$ 1,158,942,872	\$ 939,106,366

Net assets available for benefits, per the Form 5500	<u><u>\$ 1,160,378,707</u></u>	<u><u>\$ 944,316,767</u></u>

The following is a reconciliation of investment income per the financial statements to the 2013 Form 5500:

Total investment income per the financial statements	\$ 177,738,051
Less prior year adjustment to contract value for fully benefit-responsive investment contracts	(5,210,401)
Plus current year adjustment to contract value for fully benefit-responsive investment contracts	<u>1,435,835</u>
Total investment income per the Form 5500	<u><u>\$ 173,963,485</u></u>

(9) Subsequent Events

During 2014, the Plan Sponsor identified an operational compliance issue with the FIS Plan in which participant contribution rates were applied incorrectly for certain employees. The Statement of Net Assets Available for Benefits at December 31, 2013 includes an employer contribution receivable of \$51,311 relating to this compliance issue. During 2014, the Plan Sponsor made a contribution of \$65,503 to correct the contributions of those participants affected. The Plan Sponsor is correcting this matter in accordance with the Internal Revenue Service Employee Plans Compliance Resolution System (EPCRS) program and has established additional procedures to ensure that the FIS Plan's operations are in compliance with the provisions of the Code.
