KEMBA CREDIT UNION PROFIT SHARING 401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE A – DESCRIPTION

The following description of the Kemba Credit Union Profit Sharing 401(k) Plan and Trust (the "Plan") is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the Plan document.

General

The Plan is a defined contribution plan established by Kemba Credit Union, Inc. (the "Company") under the provision of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company. All employees who have completed 1,000 hours of service within a 12 month time period, as defined, are eligible to participate, provided they are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was originally adopted January 1, 1997 but has been amended since that time.

Plan Administration

The Plan is administered by Dynamic Pension Services, Inc. (the Plan Administrator) which is appointed by the Board of Directors of the Company. ING Life Insurance and Annuity Company (the Plan's Trustee), is responsible for the custody and management of the Plan's assets.

Contributions

Eligible employees can contribute in any amount up to the maximum percentage of compensation and dollar amount as defined by the Plan, subject to certain limitations under the IRC. The Company provides a mandatory safe harbor matching contribution equal to 100 percent of each participant's contribution up to a maximum of 4 percent of the participant's compensation and an additional profit sharing contribution, which may be made on a discretionary basis, which is dependent on the Company's operating results. The participant contributions and the Company safe harbor matching and profit sharing contributions may be allocated to the investment alternatives made available by the Company, as defined, as the participant directs.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching contributions, as well as the participant's share of the Plan's income and any related administrative expenses. Allocations of income and expenses are based on the proportion that each participant's account balance bears to the total of all participant account balances.

Vesting

Participants are immediately vested in their and the Company's safe harbor matching contributions and the earnings thereon. Vesting in the Company's profit sharing contributions and the earnings thereon is based on years of continuous service. A participant vests a percentage each year of service as follows: Year 1 – 0%; Year 2 – 20%; Year 3 – 40%; Year 4 – 60%; Year 5 – 100%.

Forfeited Accounts

Forfeitures of non-vested Company profit sharing contributions are used to decrease future Company profit sharing contributions, as defined by the Plan. At December 31, 2013 and 2012 there was $2,219 and $393, respectively, of forfeitures that had not yet been applied to reduce Company profit sharing contributions.

NOTE A – DESCRIPTION (CONTINUED)

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participant's vested account balance, installments payments, a life annuity, a term certain annuity with payments guaranteed for 20 years (not to exceed 20 years), or a joint and survivor annuity. If the total vested amount of a terminated participant's account balance is more than $1,000, but less than $5,000, the account balance will be automatically distributed to an individual retirement account unless the participant elects to receive the distributions directly or to have the distribution paid directly to another eligible retirement plan. If the participant's balance does not equal or exceed $1,000 upon termination, the balance will be paid in a single lump sum distribution. Benefits are recorded when paid.

Notes Receivable - Participant Loans

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms can range from one to five years for any participant loans, except for loans to purchase a home, which can range up to thirty years. The participant loans are secured by the balance in the participant's account and bear interest at a rate of prime, and mature between August 31, 2014 and July 15, 2032. Principal and interest are paid through payroll deductions. A $75 loan application fee is charged to the participant's pretax account.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value and contract value. Fair value is the price received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements. Guaranteed investments contracts are valued at contract value which represents contributions and reinvested income, less any withdrawals plus accrued interest, because these investments have fully benefit-responsive features.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying statement of changes in net assets available for benefits as administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Notes Receivable – Participant Loans

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through June 20, 2014, the date the financial statements were available to be issued.

NOTE C – INVESTMENTS

NOTE D – FAIR VALUE MEASUREMENTS

ASC topic *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to valuation methodology are unobservable and significant to the fair value measurement. Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions would reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Such valuation techniques include the use of option pricing models, discounted cash flow models and similar techniques.

The asset or liability's fair value measurement level within the hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 or 2012.

Bonds, Money Market Funds, and Mutual Funds: The fair value of bonds, money market funds and mutual funds is based on the quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock, corporate bonds, and U.S. Government securities are based on quoted market prices.

Fixed Income Fund: The fair value of the fixed income fund, ING Fixed Account Fund, is based on the net asset value (NAV) of units of the fixed income funds, exclusive of the adjustment to contract value. The use of NAV as fair value is deemed appropriate as the fixed income funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes it valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D – FAIR VALUE MEASUREMENTS (CONTINUED)

NOTE E – TAX STATUS

Although the Plan has received a favorable opinion letter dated March 31, 2008 from the Internal Revenue Service, it has not been updated for the latest plan amendments. However, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt for the years ended December 31, 2013 and 2012.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE F – RELATED PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by ING Insurance and Annuity Company (the Trustee of the Plan). As defined by the Plan, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, participants will become fully vested in their account balances.
