PROFIT-SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE 1: DESCRIPTION OF PLAN

The following description of the Grand Island Express, Inc. Profit-Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored and administered by the company for its employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Grand Island Express, Inc. and GIX Logistics, Inc. (the Company) act as the plan sponsors, but remain a brother-sister controlled group as defined in Internal Revenue Code (IRC) Section 1563(a), and under Code Section 414(b), a single employer. The plan was amended at that time to include the two related companies as sponsors of the plan.

Eligibility

Employees become eligible to participate and may enter the plan on a semiannual basis after they have reached twenty-one years of age and have completed one year of service. One year of service shall mean 1,000 hours of service during the initial twelve months of employment or during the plan year.

Contributions

Each year, participants are permitted to make contributions in any amount up to the maximum limits as provided by section 401(k) of the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. During the years ended December 31, 2013 and 2012, the Company's board of directors approved matching contributions of 10% of the first 20% of base compensation that a participant contributes to the Plan. This matching contribution is invested as directed by the participant. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested in the portfolio of investments offered to participants by the Plan. During the years ended December 31, 2013 and 2012, the Company made a profit sharing contribution in the amount of $215,991 and $158,084 of which $8,465 and $8,143 was paid by forfeitures, respectively. Contributions are subject to certain IRS limitations.

(Continued on next page)

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching and profit sharing contributions, as well as allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary deferral, catch-up, and rollover contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. A participant is 20% vested after two years of service. An additional 20% is vested each subsequent year until the participant is 100% vested upon completion of six years of credited service.

Notes Receivable From Participants

Participants currently employed may borrow from their fund accounts a minimum amount of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid through monthly payments directly by participants. At December 31, 2013, interest rates range from 4.25% to 4.5%. At December 31, 2012, interest rates ranged from 4.25% to 8.75%.

Payment of Benefits

On termination of service, a participant may elect to receive the vested interest in his or her account as a lump sum, in substantially equal installments over a period of years, or partial withdrawals. Accounts less than $1,000 are subject to automatic cash-out provisions. In-service distributions are permitted for participants who are at least 59 ½ years of age.

(Continued on next page)

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

Forfeitures are used to reduce the company's matching contribution or added to the profit sharing contribution, depending on the original source of amounts forfeited. At December 31, 2013 and 2012, remaining forfeited nonvested accounts totaled $543 and $250, respectively. These accounts will be allocated to participant accounts in the following year as part of the company's contributions. In 2013 and 2012, employer contributions were reduced by $8,465 and $8,143, respectively, from forfeited nonvested accounts.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investments contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Board of Directors determines the Plan's valuation policies utilizing information provided by investment advisers, the trustee and insurance company. See Note 5 for discussion of fair value measurements.

(Continued on next page)

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distribution to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through August 6, 2014, the date the financial statements were available to be issued.

NOTE 3: CERTIFIED INVESTMENTS (Unaudited)

Guaranteed return account	0	8,081
TOTAL	520,434	8,081

NOTE 4: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

(Continued on next page)

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Valued at the daily closing price as reported by the mutual fund held in the pooled separate account by the insurance company. Each pooled separate account holds one mutual fund that is an open-end mutual fund similar to those registered with the Securities and Exchange Commission. These funds publish their daily net asset value (NAV) and transact at that price. The mutual funds held in the pooled separate accounts are deemed to be actively traded. The pooled separate accounts are considered to be fully benefit-responsive. Fair value is estimated to be contract value, as participants may withdraw from these accounts at contract value without restriction, the account assets are marked-to-market on a daily basis, and a liquidation charge would only apply upon contract termination, which management has not deemed probable.

Guaranteed return account: The guaranteed return account is valued at fair value by the insurance company by discounting the related cash flows based on the value indicated by current market expectations about those future cash flow amounts. A crediting rate is determined based on average renewal market rates applied to new funds deposited as well as expected rollover rate and an average withdrawal factor. Fair value is estimated to be contract value, as the contract is not tradable or assignable; has no defined maturity so cannot be compared to similar investments with comparable durations; participant-initiated withdrawals are always made at contract value; and a liquidation charge would only apply upon contract termination, which management has not deemed probable.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
December 31, 2013:				
Pooled separate accounts:

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Guaranteed return account	0	0	367,010	367,010
Total	0	3,587,822	367,010	3,954,832

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the years ended December 31, 2013 and 2012.

Guaranteed Return Account:	2013	2012
Balance, beginning of year	367,010	326,123

Transfers out (to Pooled Separate Accounts)	(157,124)	(40,870)
Balance, end of year	293,673	367,010

No unrealized gains/(losses) are recorded for the guaranteed investment contract as the best estimate of fair value is contract value. Transfers between the Pooled Separate Accounts and the Guaranteed Return occur at the direction of the participant and are recorded on a trade-date basis.

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed Return Account	293,673	Discounted cash flow (Income Approach)	Crediting Rate	1.93% - 2.07%	2.04%

NOTE 5: GROUP ANNUITY CONTRACT

The Plan's investments are held in a group annuity contract with Minnesota Life Insurance Company. Investments are held within Pooled Separate Accounts investing in mutual funds and a Guaranteed Return Account which is invested in the general assets of Minnesota Life Insurance Company.

The group annuity contract in its entirety is fully benefit-responsive. Because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract. The group annuity contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Fair value has is best estimated at contract value, therefore the adjustment from fair value to contract value as of December 31, 2013 and 2012 is $0 and $0, respectively. See Note 4 for additional information related to the valuation of these investments.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the group annuity contract at December 31, 2013 and 2012 was $4,598,725 and $3,954,832, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

(Continued on next page)

NOTE 5: GROUP ANNUITY CONTRACT (CONTINUED)

Guaranteed Return Account

The Guaranteed Return Account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

The average yields earned by the Guaranteed Return Account are as follows:

Average yields:	2013	2012
Based on actual earnings	2.04%	2.20 - 2.58%
Based on interest rate credit to participants	2.04%	2.20 - 2.58%

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 7: TAX STATUS

The Company has adopted a prototype plan provided by its third-party administrator Securian Financial Group. The prototype plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service (IRS) stated that the prototype plan, as then designed, was in compliance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the third-party administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require

(Continued on next page)

NOTE 7: TAX STATUS (CONTINUED)

recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions. Currently, the DOL is reviewing the year ended December 31, 2011. At this time, there are no significant changes or corrections that have been indicated by this examination. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9: RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Minnesota Life Insurance Company (Minnesota Life) is the trustee of the Plan and its assets and serves as the transfer agent that performs processing and shareholder servicing functions for the Plan. Securian Financial Group (an affiliate of Minnesota Life) provides third party administration and recordkeeping services. Fees paid for these services qualify as exempt party-in-interest transactions. The Plan paid fees to Minnesota Life totaling $4,067 and $4,547 for the years ended December 31, 2013 and 2012.

Sagepoint Financial, Inc. provides investment advisor services to the Plan. Fees for these services qualify as exempt party-in-interest transactions and are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. Commissions for the years ended December 31, 2013 and 2012 totaled $10,720 and $10,068, respectively.

The Plan also incurs fees for the annual audit from Contryman Associates, P.C. These fees are paid by the plan sponsor on behalf of the Plan. These transactions qualify as exempt party-in-interest transactions.

NOTE 10: FAILED COMPLIANCE TEST

At December 31, 2012 the Plan failed one discrimination test. Highly compensated employees made excess contributions to the Plan. Excess contributions and their related earnings, which totaled $955, were refunded by the Plan on March 5, 2013 in order to satisfy the test.

(Continued on next page)

NOTE 11: FINANCIAL STATEMENT PRESENTATION

Certain amounts in the December 31, 2012 financial statements have been reclassified to conform to the December 31, 2013 presentation.

NOTE 12: RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
