M & M MANUFACTURING COMPANY PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 1 Description of the Plan

The following brief description of the M & M Manufacturing Company Profit Sharing Plan (Plan) is provided for general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined contribution retirement plan providing for participation in the employer's profits based on the employer's contribution. The Plan is designed to cover all full-time employees of the Company who meet the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective July 1, 2011, the Plan adopted the Sanford, Baumeister and Frazier, PLLC, Defined Contribution Prototype Plan and Trust, which complies with the provisions of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA). Included with this adoption was the exclusion of hardship distributions from the Plan and a provision for a \$5 administrative fee to be assessed against each participant account (per policy) for processing of the life insurance premium payment applicable to the participant's life insurance policy or policies. Effective January 1, 2013, the Plan was amended to provide for combining of employer contribution and plan forfeitures into one amount and calculation of the allocation of the combined amount using the Social Security Integration method.

Administration

The M & M Manufacturing Company Profit Sharing Plan Advisory Committee has responsibility for administering the Plan. Plan assets are held in a discretionary trust where the trustee has authority and control over investments and is authorized by the Plan to make investment decisions within the framework of the trust instrument.

Contributions

The Plan does not permit employee contributions. The employer's contribution is discretionary and is determined annually by the board of directors.

Eligibility and Employees Vesting

Employees become participants on January 1 immediately following the later of, the date six months after the first day of employment, or the date they attain age twenty and one-half.

Participants are 100% vested in the Company contributions upon retirement, death or permanent disability. Participants not specifically mentioned above are vested according to the schedules presented below:

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 1 Description of the Plan, continued

Contribution, Forfeiture and Earnings Allocation

Contributions are allocated to participants' accounts using a two-tiered integrated method. First tier allocation is based on 5.7% of total compensation plus the excess of \$113,700 and \$110,100 for 2013 and 2012, respectively. Second tier allocation is the remainder of unallocated contributions and forfeitures, which are allocated based on participant compensation to total compensation. Considered compensation is limited to \$255,000 and \$250,000 for 2013 and 2012, respectively.

Prior to July 1, 2011, forfeitures were allocated to participant's accounts according to the method described in the previous paragraph. Effective July 1, 2011, the Company elected to allocate forfeitures based on participant compensation to total compensation. Effective January 1, 2013, forfeitures were allocated to participant's accounts according to the method described in the previous paragraph.

Earnings are allocated to participants' accounts annually. The formula to allocate earnings is the participant's beginning account balance, less withdrawals, distributions and expenses, divided by the total of all participants' accounts.

Allocated Insurance Contracts

Effective January 1, 2009, the Plan no longer permits the purchase of new life insurance policies. Premiums of \$50,945 and \$55,727 were paid to fund 186 and 201 pre-existing insurance policies for 2013 and 2012, respectively. The Plan benefits are fully guaranteed by the insurance company, which has a legal obligation to make the benefit payments to the participants covered by the allocated contracts.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Retirement Age

A participant becomes 100% vested upon attaining age 65.

M & M MANUFACTURING COMPANY PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 2 Summary of Significant Accounting Policies, continued

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment or rollover. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or rollover.

Investment Valuation and Investment Income

Investments are stated at fair value using quoted market prices. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Substantially all expenses of administering the Plan are paid by the Plan.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events are events or transactions that occur after the balance sheet date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the balance sheet date and before the financial statements are available to be issued. The Plan has evaluated subsequent events from December 31, 2013 through August 22, 2014 the date the financial statements were available to be issued. No subsequent events were noted.

Benefit Withdrawals

The full value of a participant's account becomes available upon retirement, permanent disability or death. Termination of employment for any other reason entitles the participant to only the vested portion of the account. Distributions are paid in lump sums or rollovers to a qualified account. At the end of 2013 and 2012, there were \$608,783 and \$-0-, respectively, of participant funds that had elected to withdraw from the Plan but had not been paid.

Note 3 Information Certified by the Trustee

The Plan administrator elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the Plan administrator limited auditing procedures with respect to the information certified by the trustee.

A summary of the information certified by the trustee as complete and accurate for the years ended December 31, 2013 and 2012 includes the supplemental schedules and other information as follows:

The cost basis of the stock was reduced by \$96,811 in 2012 by a return of capital.

The investment in the Company's common stock is recognized at a fair value of \$14.15 and \$12.12 per share as of December 31, 2013 and 2012, respectively. Fair value is determined by an independent appraisal.

The following presents the fair value of investments that represent 5% or more of the Plan's net assets:

Plan investments (including gains and losses on investments bought and sold as well as held during the year) appreciated (depreciated) in value as detailed below.

	<u>2013</u>	<u>2012</u>
Mutual funds	\$ 1,455,740	\$ 884,867

Common stock	<u>243,518</u>	<u>(58,201)</u>
Net appreciation	<u>\$ 1,460,992</u>	<u>\$ 622,420</u>

Note 5 Related Party Transactions (Parties-In-Interest)

Certain Plan investments were shares of common/collective trust funds and mutual funds managed by Frost Bank. Frost Bank is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for services provided by Frost Bank amounted to \$43,802 and \$35,631 for the years ended December 31, 2013 and 2012, respectively.

The Plan is responsible for paying audit expenses. Audit fees paid to Stovall, Grandey and Allen, LLP qualify as party-in-interest. Fees paid by the Plan for audit services rendered amounted to \$14,500 for each of the years ended December 31, 2013 and 2012.

The Plan contracts for a valuation of the 40,800 shares of M&M Tradition Holdings Corporation Common Stock that is carried as an investment in the Plan. Fees paid by the Plan for professional services rendered amounted to \$7,700 and \$7,300 for the years ended December 31, 2013 and 2012, respectively.

The Plan contracts with a record keeper to perform accounting and bookkeeping services for the Plan. The fees paid Sanford, Baumeister & Frazier, PC for professional services rendered amounted to \$17,410 and \$15,915 for years ended December 31, 2013 and 2012, respectively.

Note 6 Risks and Uncertainties

Investment securities in which the Plan invests are subject to various risks, such as market, credit and interest rate risks. Due to the level of risk associated with such securities, it is at least reasonably possible that changes in the near term could materially affect participants' unit values and the amounts reported in the statement of net assets available for Plan benefits.

Note 7 Forfeitures

Total forfeitures credited for the years ended December 31, 2013 and 2012 were \$19,544 and \$13,675, respectively. Forfeitures are allocated as described in Note 1.

M & M MANUFACTURING COMPANY PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 8 Tax Status

The Plan obtained its latest opinion letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service and Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9 Termination of Plan

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

Note 10 Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- *Level 1 Inputs* – Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- *Level 2 Inputs* – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, volatilities, prepayment speeds, credit risks, etc.) or inputs that are derived principally from or corroborated by market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

M & M MANUFACTURING COMPANY PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 10 Fair Value Measurements, continued

- *Level 3 Inputs* – Unobservable inputs for determining the fair values of assets or liabilities that reflect an entity's own assumptions about the assumptions that market participants would use in pricing the assets or liabilities.

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. These valuation methodologies were applied to all of the Plan's financial assets and financial liabilities carried at fair value effective January 1, 2008.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. These adjustments may include amounts to reflect counterparty credit quality and the Plan's creditworthiness, among other things, as well as unobservable parameters. Any such valuation adjustments are applied consistently over time. The Plan's valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While management believes the Plan's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Money market funds – Valued using \$1 for the net asset value (NAV).

Mutual funds – Valued at the NAV of shares held by the Plan at year end.

Corporate obligations, foreign bonds and US Government securities – Valued at the closing price reported in the active market in which the individual securities are traded.

State and municipal bonds – Valued at quoted prices for similar assets in active markets.

M & M Tradition Holdings Corporation common stock – Valued at the estimated fair value based upon an independent appraisal. The appraiser took into account the nature of the business, economic outlook, book value of the stock, earning capacity of the company, dividend paying capacity, goodwill and other intangibles, and prior sale of stock and market price of similar investments.
