Notes to Financial Statements
December 31, 2013

1. Description of Plan:

The following brief description of the City Cab Company of Orlando, Inc. 401(k) Savings Plan (the "Plan") provides only general information regarding the Plan's provisions in effect at December 31, 2013. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established by City Cab Company of Orlando, Inc. (the "Employer" and "Plan Sponsor") as a defined-contribution plan.

Substantially all employees who are at least age 21 and who have completed one year of service, as defined by the Plan agreement, are eligible to participate in the Plan. Employees are eligible to participate in the Plan as of January 1, April 1, July 1, and October 1 coincident with or immediately following the date that the employee satisfies the eligibility requirements. After the first 12-month eligibility service period, the Plan measures the eligibility service period on an anniversary basis.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Federal income taxes on amounts contributed by the participants are deferred in accordance with Section 401(k) of the Internal Revenue Code ('IRC").

Contributions

Participant:

Each year, participants may contribute up to 75% of their annual compensation, as defined by the Plan agreement. Participant deferral contributions are transferred to the Plan throughout the year.

Employer:

The Employer may, at its discretion, match participant deferral contributions. For the year ended December 31, 2013, the Employer elected to match 50% of the participant's deferral contributions up to 6% of the participant's compensation, as defined by the Plan agreement. Additionally, the Employer may make periodic nonelective contributions to the Plan at the discretion of the Employer's Board of Directors. Allocations of these Employer discretionary contributions are made to individual participants' accounts based on the ratio of each participant's eligible compensation to the total eligible compensation of all participants for that year. No discretionary contributions were made during the year ended December 31, 2013. Employer contributions are transferred to the Plan throughout the year.

All participant and Employer contributions are subject to the limitations specified by the Plan and the IRC and Regulations.

Participant Accounts

Participants' accounts are credited with their elective contributions and allocations of the Employer contributions and Plan earnings. Allocations are generally based on the direct investment options chosen by the participants, relative compensation of the participants, or on their relative account balances, as defined in the Plan.

1. Description of Plan – Continued:

Vesting

The benefits to which a participant is entitled are those that can be provided by the contributions and earnings thereon, including net unrealized gains and losses, which are credited to the participant's account.

Participants are fully vested in their elective contributions and earnings thereon at all times. Participants become fully vested in Employer contributions and earnings thereon upon retirement, at death, upon total and permanent disability, or after two years of service, as defined in the Plan.

Notes Receivable From Participants

Participants may obtain notes based upon their vested account balances, subject to certain conditions. The minimum note permitted is $1,000 and the maximum note amount is the lesser of 50% of the participant's vested account balance or $50,000. Interest rates on participant notes are determined based on a reasonable rate of interest. The rate of interest will be a fixed rate equal to the prime rate of interest plus 1%. Note payments consisting of principal and interest are made through payroll deductions over a term of one to five years or up to fifteen years for the purchase of a primary residence.

At December 31, 2013, the notes earned interest at rates ranging from 4.25% to 8.75%, and maturities ranged from 2014 to 2017. As of December 31, 2013, all loans are considered collectible. Notes receivable balances are collateralized by the borrower's vested account balances in the Plan.

Payment of Benefits

Upon termination of service due to retirement, death, disability, or attainment of age 59½, a participant or beneficiaries may elect to receive an amount equal to the value of the participant's vested interest in his or her account as a lump sum payment or in periodic payments, as defined in the Plan agreement.

Investment Options

Upon enrollment in the Plan, a participant may direct participant deferral contributions and Employer contributions to any of the Plan's investment options offered by SunTrust Bank (the "Trustee"). Participants may change their contribution allocations periodically and transfer amounts between funds daily.

Forfeited Accounts

The Plan allocates forfeited amounts to reduce Employer contributions in the year forfeitures occur. Forfeitures of Employer contributions during the Plan year ended December 31, 2013, totaled $2,415, and were used to reduce Employer contributions. At December 31, 2013, there were no forfeited non-vested account balances available to reduce future Employer contributions.

Plan Expenses

Certain administrative expenses are paid by the Plan. These expenses are primarily investment management fees paid to the Trustee. The Employer pays substantially all administrative expenses of the Plan, including legal and audit fees.

2. Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions at the time the participant's or beneficiary's benefits become distributable based upon the terms of the Plan agreement.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. The net change in the fair value of investments during the Plan year is included in the statement of changes in net assets available for benefits. Net appreciation or depreciation in the fair value of investments consist of the net realized gains or losses on investments sold and the net unrealized gains or losses on investments held.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Plan management has evaluated subsequent events through July 30, 2014, the date which the financial statements were available to be issued.

3. Investments:

The following presents investments at fair value, that represent five percent or more of the Plan's net assets, at December 31, 2013 and 2012:

	2013	2012
Federated Capital Preservation Fund	$ 898,309	$ 949,915
RidgeWorth International Equity Index Fund	324,901	276,774
RidgeWorth Large Cap Value Equity Fund	512,638	379,458
RidgeWorth Small Cap Value Equity Fund	703,847	515,280
T. Rowe Price Retirement 2010 Fund	308,983	319,659
T. Rowe Price Retirement 2040 Fund	328,461	223,883
Vanguard 500 Index Signal Fund	622,230	490,738

During the year ended December 31, 2013, the Plan's investments (including investments bought, sold, and held) appreciated in fair value as follows:

Mutual funds	$ 420,424

4. Fair Value Measurements:

Fair value is measured using a framework that provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability; and
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements – Continued:

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust: Valued at the NAV of units of bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common/collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2013 and 2012:

	2013		
	Level 1	Level 2	Total

Federated Capital Preservation Fund	$ 949,915	n/a	Daily

Redemptions by participants for eligible withdrawals can be made in accordance with the trust's declaration. Requests can be made and processed daily, but some requests may be subject to a 12-month notice period.

5. Related-Party Transactions:

The Plan's investments and notes receivable from participants are held by the Plan's Trustee, SunTrust Bank, and certain Plan investments are managed by the Trustee or an affiliate of the Trustee. Transactions with the Trustee are considered to be transactions with a party-in-interest. For the year ended December 31, 2013, fees paid to the Trustee totaled $2,673.

6. Plan Termination:

Although the Employer has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their accounts.

7. Tax Status:

Effective January 1, 2010, the Plan Sponsor adopted the SunTrust Bank Defined Contribution Prototype Plan and Trust which received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008. The Plan Sponsor relies on the opinion letter and the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Sponsor and Trustees believe the Plan is currently operated in compliance with applicable requirements of the IRC and, therefore, believe the Plan is qualified and the related trust is exempt from federal income taxes as of the financial statement date.

The Plan Sponsor has evaluated tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes the Plan is no longer subject to income tax examinations for years prior to 2010.

8. Excess Contributions:

To satisfy the relevant nondiscrimination provisions of the Plan, at December 31, 2013 and 2012, excess participant deferral contributions of $9,405 and $12,865, respectively, and Employer contributions of $6,579 and $7,337, respectively, were refunded to Plan participants and the Plan Sponsor, respectively, after year end. Participant deferral and Employer contributions are net of these excess contributions.

9. Summary of Information Certified by the Plan Trustee:

At December 31, 2013 and 2012, and for the year ended December 31, 2013, the Plan Trustee held the Plan's assets, including investments and notes receivable from participants, and executed investment transactions. Financial information relating to those assets is included in the accompanying financial statements, including Notes 3 and 4, and the supplemental schedule of assets (held at end of year), and such information has been derived from reports certified as complete and accurate by the Trustee. Information provided by the Trustee, which has not been audited by independent accountants, is summarized as follows:

	2013	2012
Assets:		
Investments	$ 4,659,903	$ 4,025,334
Notes receivable from participants	113,821	146,424
Total assets	$ 4,773,724	$ 4,171,758
Investment Income:		
Net appreciation in fair value of investments	$ 420,424	
Interest and dividend income on investments	395,391	
Interest income on notes receivable from participants	5,663	
Total investment income	$ 821,478	

10. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. Reconciliation of Financial Statements to Form 5500:

The Plan's Form 5500, Annual Return/Report of Employee Benefit Plan, for the years ended December 31, 2013 and 2012, was prepared by the Trustee, whose policy is to prepare such returns on the modified cash basis of accounting. The following is a summary of differences between the financial statements and the Form 5500:
