Report on the Financial Statements

We were engaged to audit the accompanying financial statements of West Coast Arborists, Inc. 401(k) Salary Savings and Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair representation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company ("Principal"), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the custodian is complete and accurate.

WEST COAST ARBORISTS, INC.
401(k) SALARY SAVINGS AND PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

Note 1: Description of the Plan

The following description of the West Coast Arborists, Inc. 401(k) Salary Savings and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which was adopted by West Coast Arborist, Inc., (the "Company") effective January 1, 1990, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA"), and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for eligible employees who have completed one year of service.

Contributions

Participants may elect to contribute pretax annual compensation not to exceed the maximum deferral limitation, as defined in the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make a discretionary match which is limited to 15 percent of an employee's compensation. For December 31, 2013, the Company matched 25 percent of the employee's contribution limited to 15 percent of the employee's compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's contribution, an allocation of the Plan's earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account plus actual earnings thereon is based on years of continuous service. A participant is vested at the rate of 20 percent each year after two years of service and is considered to be 100 percent vested after six years of credited service.

Note 1: Description of the Plan (Continued)

Notes Receivable from Participants

Participants may borrow against their Plan account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. The loan amount can be a minimum of $1,000, but cannot exceed the lesser of (a) one-half of the participant's non-forfeitable interest under the Plan, or (b) $50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest are paid ratably through bi-weekly payroll deductions. The loans are secured by the vested account balance in the participant account.

Benefit Payments

Upon termination of service due to death, disability, or retirement at age 55 (with six years of vesting service), a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or an annuity over the life of the participant or designated beneficiary, as defined in the Plan document. For termination of service for other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures

Forfeitures of the employee's non-vested portion of the Company's contributions are used to reduce future employer's contributions and administrative fees. During 2013, there was $407 of forfeitures of Company contributions that were applied against employer's contributions. At December 31, 2013, there were no forfeited non-vested accounts.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company, except for fees related to administration of participant loans, which are deducted from the applicable participants' accounts.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair values of investments.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value at December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 12 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net realized and unrealized gains (losses) on investments.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The process of preparing financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Note 3: Concentrations, Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan held substantially all of its assets with one institution. In the event of the institution's failure, the Plan is at risk of loss in any of its funds which could fail to the extent of the dollars invested in the funds.

Note 4: Information Prepared and Certified by Principal Life Insurance Company

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Principal Life Insurance Company.

	December 31, 2013	December 31, 2012

Notes Receivable from Participants	480,536	360,161

Note 6: Collective Investment Trust

The Morley Stable Value I Fund (the "Fund") is a collective investment trust maintained by Union Bond & Trust Company. The Fund primarily consists of a diversified portfolio of Stable Value Investments Contracts issued by life insurance companies, banks and other financial institutions, the performance of which may be predicated on underlying fixed income investments. The principal value of these assets is designed to remain stable regardless of stock and bond market fluctuations. The Fund provides low volatility, stable principal value and returns commensurate with a capital preservation objective. As such, the Fund invests in separate account contracts and synthetic investment contracts, collectively these are referred to as investment contracts.

Investments in investment trusts are stated at contract value which is equal to principal balance plus accrued interest. An investment trust is generally valued at contract value rather than fair value, to the extent it is fully benefit-responsive and held by a trust offered only to qualified employer-sponsored defined contribution-plans. Investment trusts that do not meet the criteria for valuation at contract value are valued at fair value as determined by the trustee, and such value may be more or less than contract value.

Note 6: Collective Investment Trust (Continued)

Investment transactions are accounted for on the trade date. Interest income is recorded on the accrual basis and reinvested daily. Distributions received from collective investment funds are recorded on the accrual basis and retain the character of income as earned by the underlying fund. Income from investment contracts is recorded at the contract rate, which in the case of synthetic investment contracts is referred to as the crediting rate. Crediting rates on synthetic contracts are net of fees to the issuer of the wrap contract ("wrap fees") and custody fees on underlying assets. For fully benefit-responsive synthetic investment contracts, earnings on the underlying assets are factored into the next computation of the crediting rate reset.

The average yield earned by the Collective Investment Trust for the year ended December 31, 2013 was 0.77 percent, and the crediting interest rate paid to participants was 1.17 percent.

There are certain employer initiated events which could limit that ability of the Plan to transact at contract value with the issuer. These events include plant closings, layoffs, Plan termination, bankruptcy or reorganization, merger, early retirement incentive programs, tax disqualification of a trust of other events. While it is possible that some of the plans participating in the Trust may experience plan terminations or other events that would trigger fair value payouts under the Trust's wrapper agreements, based on prior experience, the Trust's management believes it is not probable that such events would be of sufficient magnitude to limit the ability of the Trust to transact at contract value with the participants in the Trust. Given that such events are beyond the control of the Trust, however, there can be no guarantee that this will be the case.

Issuers may terminate the investment contract if the Fund is in default and is not cured. The following (among other events) may cause the Fund to be in default; a breach of material obligation under the contract, a material misrepresentation, a material amendment to the trust agreement, in the administration of the trust or in the investment of Fund assets without consent from the issuer, and an uncured violation of the Fund's investment guidelines.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

Note 8: Withdrawn Participants

At December 31, 2013 and 2012, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

Note 9: Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 22, 2003, that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter, however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 10: Fidelity Bond

ERISA requires that the Plan be covered by a fidelity bond. The amount of the bond must be equal to the lesser of 10 percent of the funds handled or $500,000. For the year ended December 31, 2013, the Plan met the minimum bonding requirement.

Note 11: Parties-In-Interest

The Plan has investments that are offered through Principal Life Insurance Company. Principal Life Insurance Company is the custodian, as defined by the Plan and therefore, these investments qualify as party-in-interest transactions. Notes receivable from participants represent loans to employees, and therefore, also qualify as party-in-interest transactions.

Note 12: Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *"Fair Value Measurements and Disclosures",* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 12: Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Interest Accounts: Value is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

Collective Investment Trust: Value is based on the fair value of the underlying investments as based on information reported by the investment advisor using the audited financial statements of the investment trust at year end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 12: Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value on a recurring basis as of December 31, 2013.

Note 13: Net Asset Value Per Share (NAV)

The following table for December 31, 2013 and 2012 sets forth a summary of the Plan's investments whose fair value is estimated using NAV (or its equivalent):

	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Large U.S. Equity (a)	None	30 Days	None	None
Small/Mid U.S. Equity (b)	None	Daily	None	None
International Equity (c)	None	30 Days	None	None
Balanced/Asset Allocation (d)	None	30 Days	None	None
Fixed Income (e)	None	30 Days	None	None
Collective Investment Trust (f)	None	Daily	None	None

Note 13: Net Asset Value Per Share (NAV) (Continued)

(a) Large U.S Equity is generally comprised of investment options that invest in stocks, or shares of ownership in large, well established, U.S companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(b) Small/Mid U.S. Equity is generally comprised of investment options that invest in stocks, or shares of ownership in small to medium-sized U.S companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(c) International Equity is generally comprised of investment options that invest in stocks or shares of ownership in companies with their principal place of business or office outside the United States. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(d) Balanced/Asset Allocation is generally comprised of a combination of fixed income and equity investment options. These investment options may include balanced, asset allocation, target-date, and target-risk investment options. Although typically lower risk than investment options that invest solely in equities, all investment options in this category have the potential to lose value.

(e) Fixed Income is generally comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities. All investment options in this category have the potential to lose value.

(f) Collective Investment Trust - The Fund's investment objective is to preserve invested principal while providing a competitive current rate of return. The Fund will be invested and reinvested primarily in GICs, money market funds, money market instruments, repurchase agreements, private placements, bank investment contracts and synthetic GICs. The Fund will operate within a weighted average maturity range selected by the trustee from time to time.
