Independent Auditor's Report

We have audited the accompanying financial statements of Mills James Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MILLS JAMES EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Plan Description

The following brief description of Mills James Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

Mills James, Inc. (the Company) established an Employee Stock Ownership Plan effective January 1, 2006. The Plan is designed as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan purchased Company shares using borrowings from the Company and holds the stock in a trust established under the Plan. The borrowings are to be repaid over a 10-year period by Company contributions to the trust. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowings are collateralized by the unallocated shares of stock. As the lender, the Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan for the years ended December 31, 2013 and 2012 present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of employees with vested rights in allocated stock (Allocated), and
- (b) stock not yet allocated to employees (Unallocated)

General

The ESOP is a non-contributory plan covering substantially all employees of the Company. Employees become eligible after six months of service, after reaching age 21, after completing 1,000 hours or more of service in the plan year and being employed on the last day of the plan year.

The Company pays the majority of the administrative expenses and professional fees related to the Plan.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reasons, distributions of the balance in a participant's Company stock account will be distributed either in whole shares of Company stock, in cash or in any combination thereof, as decided by the Trustee after the loan agreement with the Company has been fulfilled.

Plan Description (continued)

Voting Rights

Shares of Company stock held in the Trust shall be voted by the Trustee in most instances. In certain extraordinary situations, such as a corporate merger, Treasury Regulations may require pass-through of voting rights in Company stock which has been fully paid for to Plan participants and beneficiaries.

Participant Accounts and Forfeitures

Each participant's account is credited with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Allocations are based on a participant's eligible compensation and years of service, relative to total eligible compensation and years of service, as defined in the plan agreement. Forfeitures of terminated participants' non-vested accounts of \$12,235 and \$23,029 were credited to participant's accounts during 2013 and 2012, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in a participant's account balance is based on years of continuous service and is subject to the following vesting percentage provisions:

Years of Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Put Option

Under the terms of the Plan and federal income tax regulations, any Company stock that is distributed and held by participants will include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants. The put price is representative of the fair value of the stock. The Company can, at its discretion, pay for the purchase of the Company stock in a single sum or in installments with interest over a period not to exceed five years.

December 31, 2013 and 2012

Plan Description (continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common stock of the Company is valued at its estimated fair value.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

MILLS JAMES EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Investment in Common Stock of Plan Sponsor

At December 31, 2013 and 2012, the Plan was allocated shares of the Company's no par value common stock with a fair value of \$515.00 and \$465.00 per share, respectively.

The investment in the Company's common stock, at December 31, is presented in the following table:

	2013		2012	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	7,258.208	361.792	6,513.685	1,106.315
Common stock - fair value	\$ 3,737,977	\$ 186,323	\$ 3,028,863	\$ 514,437
Common stock - cost	\$ 3,783,107	\$ 216,893	\$ 3,392,792	\$ 607,208

Loan Payable – Related Party

In 2007, the Plan entered into a loan agreement with the Company and used the proceeds along with \$400,000 contributed by the Company to purchase 7,620 shares of the Company's common stock. The original amount of the loan was for \$3,600,000 and was borrowed from the Company. The agreement provides for the loan to be repaid over 10 years. Annual payments of \$509,985, including interest at 7%, are due on December 31. Unallocated shares are collateral for the loan. The remaining balance of the loan will be repaid during 2014.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides the fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

MILLS JAMES EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Fair Value Measurements (continued)

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mills James, Inc.

Common

Stock:

Valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities.

MILLS JAMES EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements December 31, 2013 and 2012

Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

	Level 3	
	2013	2012
Common stock	\$ 3,924,300	\$ 3,543,300

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2013 and 2012:

	Common Stock	
	2013	2012
Balance, beginning of year	\$ 3,543,300	\$ 3,962,400
Unrealized (losses) gains relating to instruments still held at the reporting date	<u>381,000</u>	<u>(419,100)</u>
Balance, end of year	<u>\$ 3,924,300</u>	<u>\$ 3,543,300</u>

Plan Termination

Under the Plan, the Company has the right to terminate the Plan at any time. The Company has expressed no present intention to terminate the Plan. In the event of plan termination, participants would become 100% vested in their accounts. Upon termination of the Plan, the Trustee should pay all liabilities and expenses of the trust fund and may sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay any loan used to acquire Company stock.

Notes to Financial Statements

December 31, 2013 and 2012

Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated May 25, 2011, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its loan.

Risks and Uncertainties

The Plan investments consist of the Company's common stock, which is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the 2013 statement of net assets available for benefits.

Party-in-Interest Transactions

Apple Growth Partners (Apple) performs valuation services on behalf of the Plan. During 2013, the Plan paid fees of \$10,084 to Apple.
