NOTE 1 - Description of the Plan

The following description of the WellMed Medical Management, Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by WellMed Medical Management, Inc. ("the Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). All employees who have completed at least six months of service with the Company, as defined in the Plan, and are age 21 or older are eligible to participate. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of available investment options.

Effective December 31, 2011, the Plan was amended to freeze participation in and contributions to the Plan. Participants in the Plan continue to be eligible to request loans and in-service withdrawals, subject to provisions defined in the Plan document.

Contributions

Prior to the Plan freeze, participants were allowed to contribute an amount up to the maximum dollar amount permissible under the Internal Revenue Code ("the Code"). Elective deferrals include pre-tax deferrals and Roth deferrals.

The Company matched 100% of employee contributions up to 3% of eligible compensation and 50% of employee contributions, up to an additional 2% of eligible compensation. The Company could, in its discretion, contribute an additional amount to the Plan, to be distributed among participants pro rata based upon compensation within limitations as determined by the Code. No discretionary contributions were made for the year ended December 31, 2013.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the Company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments Classification

All investments are participant directed. Participants have the right to individually select the percentage of their accounts to be invested among different classifications of investments.

NOTE 1 - Description of the Plan (cont.)

Vesting

Participants are immediately vested in their salary reduction, safe harbor match contributions, rollover contributions, and earnings thereon. Participants who leave the Plan because of death, early or normal retirement, or disability retirement, as defined in the Plan document, are considered 100% vested. Company discretionary contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

Less than 1 year	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Forfeited Accounts

As of December 31, 2013 and 2012, forfeited nonvested accounts totaled $2,156 and $2,784, respectively. These accounts will be used to pay certain future administrative expenses.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan agreement. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment if the participant is eligible for a required minimum distribution. The Plan allows for automatic lump-sum distributions of participant vested account balances which do not exceed $1,000 and automatic rollover distributions to an IRA account for vested account balances between $1,000-$5,000. If the lump-sum distributions of participant vested account balances exceed $5,000, then the participant must consent to the lump-sum distribution. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan document and subject to the IRS safe harbor rules.

There are no amounts owed to the participants who had elected to withdraw from the Plan, but had not been paid as of December 31, 2013 and 2012.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 1 - Description of the Plan (cont.)

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates which are commensurate with local prevailing rates at the inception of the loan, as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Administrative Expenses

The Company pays a portion of the Plan's administrative expenses.

Reclassification

For comparability, certain 2012 amounts have been reclassified to conform with classifications adopted in 2013.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Risks and Uncertainties

The Plan has investment securities, which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 5 Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded and applied based on the loan amortization schedule. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Recent Accounting Pronouncements

There have been no recent accounting pronouncements.

Payment of Benefits

Benefits are recorded when paid.

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Pooled Separate Accounts	$ 3,969,941

NOTE 5 - Fair Value of Financial Instruments

The Plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Unadjusted quoted prices for identical assets in active markets that the Plan can access.

Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly.

Level 3 - Unobservable inputs for the asset.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 - Fair Value of Financial Instruments (cont.)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts: Primarily valued at the net asset value (NAV) of shares based on quoted market prices of underlying investments.

Guaranteed Investment Contract: Valued at fair value by discounting the related cash flows based on the current yield of similar instruments with comparable durations, considering the creditworthiness of the issuer.

The Company is responsible for the determination of fair value. Accordingly, the Company performs periodic analysis on the prices received from the Custodian used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Company has not historically adjusted the prices obtained from the Custodian. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy.

NOTE 6 – Guaranteed Investment Contract

The Plan has entered into a benefit-responsive guaranteed investment contract (GIC) with the Custodian. The Custodian maintains the contributions in a general account. The account is credited with interest, based on rates set monthly, and charged for participant withdrawals and administrative expenses. The GIC is included in the financial statements at contract value as reported to the plan by the Custodian. Contract value represents contributions made under the GIC, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were approximately 1.45 and 1.75 percent for 2013 and 2012, respectively. The average earnings credited to participants in the plan were 1.45 and 1.75 percent for 2013 and 2012, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1 percent. Such interest rates are reviewed on a quarterly basis for resetting.

(1) The fair values of the investments are based on the fair values of the underlying investments in the funds.

(2) Certain events may cause funds held in the pooled separate account to be deferred, including, but not limited to, the following:

(i) If the total amount of withdrawals and transfers from any one separate account exceeds $20,000,000 or 20% of the market value of the separate account any withdrawals or transfers may be delayed up to 30 calendar days.

(3) The underlying investments in the pooled separate account have various income strategies including total return, growth, income, liquidity, etc.

NOTE 8 – Party-in-interest Transactions

Fees paid by the Plan for the investment management services are with the Custodian and are party-in-interest transactions. These fees are netted against investment income.

NOTE 9 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 3, 2009, that the Plan is designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter; however, the Company believes that the Plan is currently designed and operating in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2010.

In 2012, the Plan filed an application with the IRS's Voluntary Correction Program (VCP) for missing plan documents from the Citrus Health Care, Inc. Profit Sharing Plan, which was merged into the Plan on February 17, 2011. A compliance letter dated July 30, 2013 was received from the IRS that officially approved the VCP.

NOTE 10 - Subsequent Events

The Plan has evaluated subsequent events through August 27, 2014, which is the date the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.
