Note 1 - Description of Plan

The following description of the U.S. Retirement Partners 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of U.S. Retirement Partners, Inc. (the "Company") and its wholly-owned subsidiaries who have completed six months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions and any employer contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

In addition, the Plan provides for a discretionary employer profit sharing and safe harbor contribution equal to 3% of a participant's compensation for any plan year in which it is made on behalf of eligible participants at the discretion of the Company. There were no discretionary profit sharing contributions; however, safe harbor contributions of $368,082 were made in 2013.

Participant accounts

Each participant's account is credited with the participant's contributions and Company safe harbor contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are vested immediately in their contributions and any employer contributions, plus actual earnings thereon, except merged assets from the OMNI Financial Group, Inc. 401(k) Plan (see Note 5), which are subject to a 6 year graded vesting schedule as follows:

Years of Service	Vested Percentage
1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Notes receivable from participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates that range from 3.25% to 4.25%. Principal and interest is paid ratably through monthly payroll deductions.

Payment of benefits
On termination of service due to death, disability or retirement, or obtaining the age of 65, a participant or a participant's designated beneficiary may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a specified period that may not exceed the life expectancy of the participant or the joint life expectancy of the participant and the participant's designated beneficiary. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows hardship distributions.

Forfeited accounts
At December 31, 2013 and 2012, forfeited nonvested accounts totaled $8,165 and $28 (Compiled), respectively. There were no forfeitures used by the Plan in 2013.

Note 2 - Summary of accounting policies

Basis of accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

The common/collective trust contract is not fully benefit-responsive and is carried at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events
The Plan has evaluated subsequent events through September 3, 2014, the date the financial statements were available to be issued.

Note 3 - Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	2013	2012 (Compiled)
ING Stable Value Fund	$ 928,156	$ 196,825
ING Index Solution 2035 A Fund	543,092	*
ING Index Solution 2025 A Fund	419,089	202,327
BlackRock Liquidity TempFund CM	394,311	*
ING Index Solution 2015 A Fund	284,331	130,584
ING International Index A	*	156,678

* Investment did not represent greater than 5% of net assets available for benefits at December 31, 2013 or 2012.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $518,873 as follows:

Mutual funds	$516,622
Common/collective trust	2,251
Total	$518,873

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Fair value of investments in entities that use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013 and 2012 (Compiled), respectively:

December 31, 2013	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
ING Stable Value Fund (1)	$928,156	n/a	Daily	Within 10 business days

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
ING Stable Value Fund (1)	$196,825	n/a	Daily	Within 10 business days

(1) ING Stable Value Fund:

The objective of the ING Stable Value Fund (the "Fund") is to provide safety of principal, adequate liquidity and competitive yield with low return volatility. The Fund intends to

achieve this objective by investing in a variety of stable value investments such as Guaranteed Investment Contracts and security backed investment contracts issued by high quality financial institutions (AA rated or higher) as well as stable value collective funds and money market funds. Security backed contracts are backed by high quality, marketable fixed income securities which provide a credited rate of interest based on the yields of the underlying securities. The underlying fixed income security exposure is obtained by investing in collective funds managed by the sub-advisor for this purpose or may be purchased directly by the sub advisor. Securities backing investment contracts are all investment grade at time of purchase with a minimum average quality rating of AA.

Note 5 - Plan transfers

Effective December 14, 2012, the Plan was amended to provide for the recognition of service from OMNI Financial Group, Inc. for eligibility, vesting and contribution allocation. Accordingly, the Plan received transfers totaling $1,285,851 from the OMNI Financial Group, Inc. 401(k) Plan in January, September and December of 2013. The transfers comprised of $1,285,851 in investments.

In December of 2013, the Plan received transfers totaling $346,274 from the Titan Insurance & Employee Benefits Agency 401(k) Plan. The transfers comprised of $346,274 in investments. As of December 31, 2013, the transfer had not yet been allocated to participant accounts.

During May of 2013, the Plan received a transfer of participant loans from the Mutual, Inc. 401(k) Profit Sharing Plan totaling $8,430.

Note 6 - Related party transactions and party-in-interest transactions

Certain Plan investments are shares of mutual funds managed by ING National Trust which is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Note 7 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 - Tax status

The Plan is base on a prototype plan document. The IRS has determined and informed the prototype sponsor, that the Plan is qualified under section 401 of the Internal Revenue Code (the "IRC") only to the extent provided in Revenue procedure 2005-16. The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2013, and investment income for the year then ended that is disclosed in the accompanying financial statements and supplemental schedules, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee of the Plan.

Note 11 - Delinquent participant contributions

As reported on the supplemental Schedule of Delinquent Participant Contributions (Schedule H, Line 4a), certain Plan contributions were not remitted to the trust within the time frame specified by the Department of Labor's Regulation 29 (CFR 2510.3-102), thus constituting nonexempt transactions between the Plan and the Company for the year ended December 31, 2013. The delinquent participant contributions were fully corrected in 2014 outside the Voluntary Fiduciary Correction Program ("VFCP") in accordance with VFCP guidelines.

Note 12 - Reconciliation of financial statements to Form 5500
