INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants of the
McCann Industries, Inc.
Employees' Retirement Plan
Addison, Illinois

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of McCann Industries, Inc. Employees' Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by United of Omaha Life Insurance Company, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator United of Omaha Life Insurance Company holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from United of Omaha Life Insurance Company as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by United of Omaha Life Insurance Company is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the McCann Industries, Inc. Employees' Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan which covers eligible employees of the Company meeting certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA) of 1974, as amended.

Eligibility: Employees of the Company who have completed one month of credited service and attained the age of 21 are eligible for participation.

Contributions: Participant contributions to the Plan are at the sole discretion of the employees. The Company contributes a matching amount based on the level of employee contributions, which the matching percentage is at the discretion of management. Contributions are subject to certain limitations. The Company did make matching contributions of $61,751 in 2013.

Additionally, the Company makes profit sharing contributions at the discretion of management. Participants must earn at least 1,000 hours of credited service and be employed on the last day of the plan year to be eligible for any profit sharing contributions made for that plan year. The Company's profit sharing contribution is allocated among participants based on the proportion of their eligible compensation to the total eligible compensation of all participants. The Company did not make any profit sharing contributions in 2013.

Participant Accounts: The Plan maintains a separate account for each participant. This account consists of the participant's contributions, the participant's share of employer contribution, and their share of the Plan's net earnings and losses.

Notes Receivable from Participants: The Plan allows participants to borrow from their individual accounts. Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance reduced by the participant's highest outstanding note balances in the previous 12 months. Participants may have no more than two outstanding notes at any given time and the notes bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Repayments of principal and interest are received through payroll deductions.

Vesting: Participants are immediately vested in their deferral and rollover contributions plus actual earnings thereon.

Participants vest in their employer contributions in accordance with the following table:

Years of Vesting Service	Vested Equity
Less than 1 year	0%
1	10
2	20
3	40
4	60
5	80
6	100

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

(Continued)

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Forfeited Accounts: Forfeitures of employer contributions and the earnings on those contributions resulting from participants who leave the Company prior to vesting are retained in an unallocated forfeiture account. The Company may first use forfeitures to pay any administrative expenses and then used to offset any employer contributions. There was no forfeiture balance at December 31, 2013. At December 31, 2012, forfeited accounts totaled $8,595, respectively.

Investments: The Plan offers the following investment alternatives from United of Omaha Life Insurance Company into which participants may direct their account balances:

- Guaranteed Account – The objective of the fund is to provide safety of principal and guaranteed daily compound rates of interest. Deposits are held as part of United of Omaha Life Insurance Company's total assets under the terms of a group annuity policy issued for the Plan. The total assets, which support the Guaranteed Account and the other guaranteed policy obligations, are well diversified and primarily invested in high grade government and corporate bonds and commercial mortgages. Principal and interest are guaranteed if the plan holds the policy until applicable maturity. Investors who redeem, transfer or exchange any amount out of the Guaranteed Account must wait 60 calendar days before transferring or exchanging any amount back into the Guaranteed Account.

- Lifetime Guaranteed Income Account – The Lifetime Guaranteed Income Account seeks to provide safety of principal and guaranteed rates of interest. Deposits are held as part of United of Omaha Life Insurance Company's general asset account under the terms of a group annuity policy issued for the Plan. The total asset, which supports the Lifetime Guaranteed Income Account and the other guaranteed policy obligations, is well diversified and primarily invested in high grade government and corporate bonds and commercial mortgages. Principal and interest are guaranteed if the Plan holds the policy until applicable maturity. In addition to an account value, participants receive a promise of guaranteed retirement income based on deposits into the fund. At age 65 or later, participants can exchange the fund value for their accumulated lifetime guaranteed income. Investors who redeem, transfer or exchange any amount out of the Lifetime Guaranteed Income Account must wait 60 calendar days before transferring or exchanging any amount back into the Lifetime Guaranteed Income Account. A participant-directed transfer cannot be made from the Lifetime Guaranteed Income Account(s) of this contract directly to a competing fund. If the participant-directed transfer is to be made to a competing fund, then the transfer amount must be held by United of Omaha Life Insurance Company for a period of at least 90 days in an investment option of the Plan other than a competing fund.

- Pooled Separate Accounts – These investments are nonregistered pooled funds managed by an insurance company, whereby a plan's interest is determined on a participation unit basis. The participation unit value is adjusted daily to reflect the net asset value of the fund, which is determined by the fair value of the fund's underlying investments. The underlying investments of the separate accounts vary based upon their investment objectives and policies. Funds can be invested in these accounts on a daily basis.

- Self-directed Brokerage Account – These are investments in corporate stocks, corporate bonds, and municipal bonds. These funds are managed by an investment manager. Participants can invest in the managed account monthly.

(Continued)

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The accounting principles and procedures followed by the Plan conform to accounting principles generally accepted in the United States of America. The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in fully benefit-responsive contracts as of December 31, 2013 and 2012. No adjustment from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and the actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the investment valuation.

Subsequent Events: Plan management has evaluated all events or transactions that occurred from December 31, 2013 to August 21, 2014, the date the financial statements were available to be issued.

(Continued)

NOTE 3 - **UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS**

Substantially all of the Plan's pooled separate accounts, guaranteed accounts, and the notes receivable from participants are/were held by United of Omaha Life Insurance Company and all information pertaining to these investments and notes receivable from participants included in the financial statements, including investment income and interest income on notes receivable from participants, has been certified by them. This information has not been audited by independent accountants.

The following table presents the fair value of the Plan's investment in United of Omaha Life Insurance Company Separate Account K, as well as underlying sub-accounts of the pooled separate account, and other plan investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2013 and 2012:

	2013	2012
Investments at fair value:		
United of Omaha Separate Account K	$ 5,710,378	$ 5,569,312
Sub-Account of United of Omaha Separate Account K		
Stadion Moderate Growth Portfolio	1,458,557	1,564,661
Guaranteed account	569,092	656,469

During 2013, the Plan's pooled separate accounts, certified by United of Omaha Life Insurance Company, (including gains and losses on investments bought and sold, as well as held, during the year) appreciated in value by $906,311.

United of Omaha Life Insurance Company has also certified that this Plan earned interest income of $3,598 during 2013.

NOTE 4 - INVESTMENTS

Investments held in the self-directed brokerage account, which consist of corporate bonds, corporate stocks and municipal bonds, are not held by United of Omaha Life Insurance Company and have not been certified by them.

There were no investments in the self-directed brokerage account that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012 that have been audited by independent accountants.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year), other than pooled separate accounts held by United of Omaha Life Insurance Company, appreciated (depreciated) in value as follows:

Corporate bonds	$ (71,747)
Corporate stocks	730,931
Municipal bonds	9,211
	$ 668,395

The Plan earned interest and dividend income of $73,077 during 2013 on investments that were not held by United of Omaha Life Insurance Company and which were audited by independent accountants.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Corporate stock: The fair values of corporate stock investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Corporate and municipal bonds: Corporate and municipal bonds are valued at the closing price reported in the active market in which the bond is traded (Level 2 inputs).

Pooled separate accounts: The fair values of participation units held by the Plan in sub-accounts of Separate Account K, are based on the net asset values of the separate accounts, as reported by the insurance company that manages the separate accounts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (Level 2 inputs). Some of the pooled separate accounts are actively managed funds consisting of various underlying securities, based upon specific fund objectives and policies, which could include common stocks, preferred stocks, government bonds and money market funds as well as other investment securities. Other pooled separate accounts hold a single mutual fund as their underlying investment security. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the fund's net asset value per unit.

(Continued)

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Guaranteed accounts: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (Level 3 inputs). Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations. In the event of the Plan's termination, participants will become 100% vested in their accounts.

NOTE 7 - TAX STATUS

The Plan is stated on a prototype document that has received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008 Since the Plan is using a prototype document that has received a favorable opinion letter, the Plan is not required to file for an individual determination letter. The Plan has been amended since the adoption of the prototype plan; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. The Plan invests in pooled separate accounts and guaranteed interest accounts managed by the service provider. Accordingly, these investments qualify as party-in-interest transactions. The Plan holds note receivables with participants in the amount of $75,444 and $114,381 at December 31, 2013 and 2012, which qualify as party-in-interest transactions. Investment and administrative fees in the amount of $55,001 were paid to the service provider for the year ended December 31, 2013. Professional fees for the audit of the Plan are paid by the Plan. These fees and expenses qualify as party-in-interest transactions.

(Continued)

NOTE 9 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds a fully benefit-responsive investment contract with United of Omaha Life Insurance Company (Issuer) as of December 31, 2013 and 2012. United of Omaha Life Insurance Company maintains the contributions in its general account. The account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include plan termination, plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances which would allow the Issuer to terminate the contract include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

The crediting interest rate of the contract is based on an agreed-upon formula with the Issuer, as defined in the contract agreement. Such interest rates are reviewed on a monthly basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract. The resulting gain or loss in the fair value of the investment contract relative to its contract value, if any, is reflected in the Statements of Net Assets Available for Benefits as "adjustment from fair value to contract value for fully benefit-responsive investment contracts." As December 31, 2013 and 2012, the fair value of the investment contract approximated the contract value.

	2013	2012
Average yields:		
Based on annualized earnings [1]	0.81%	0.84%
Based on interest rate credited to participants [2]	0.81%	0.84%

[1] Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the contract investments on the same date.

[2] Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the contract investments on the same date.
