PRIMERA ENGINEERS 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Primera Engineers 401(k) Plan (the "Plan") is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Primera Engineers, Ltd. is the Plan sponsor. ING National Trust ("ING") serves as the Plan's trustee and has custody of all cash and investments of the Plan. ING is also the recordkeeper for the Plan and maintains the individual participant accounts.

Eligibility: All employees of Primera Engineers, Ltd. (the Company) are eligible to participate in the Plan when they attain age 21. There is a minimum amount of 1,000 of service hours required to become eligible to participate. Entry date is the first day of the Plan year quarter coinciding with or next following the date an employee satisfies the Plan's eligibility requirements.

Contributions: Employees may contribute up to 50% of their annual wages not to exceed the maximum amount allowable by law. Participants age 50 years and older are allowed to contribute an additional pre-tax catch-up contribution according to Internal Revenue Service (IRS) guidelines and the Economic Growth and Tax Relief Reconciliation Act of 2001 provisions.

The employee may become eligible to receive matching contributions after the employee performs one (1) year of service for the Company. One (1) year of service is considered 1,000 or more hours worked and have attained 21 years of age during the year. The Company will make matching contributions equal to a uniform percentage of the employee's salary deferrals, which percentage will be determined each year. Any salary deferrals that are considered to be "catch-up contributions" will not be matched, or employee's salary deferrals for each quarter that exceed 6% of the employee's compensation for such period will not be considered.

Participant Accounts: Each participant's account is credited with (a) participant's contribution and (b) allocation of Company's contributions, Plan's earnings and administrative expenses.

Vesting: Participants are fully vested in their own contribution account and their rollover account and actual earnings thereon at all times. Vesting in the Company's contribution portion of their accounts shall be computed by reference to the 12 consecutive month period beginning with the employee's employment commencement date and each successive 12 month period commencing on the anniversaries thereof. After one (1) year of service, employees are vested 20% and increase at 20% increments for every proceeding year until the employee is fully vested in the fifth (5^{th}) year of service.

Payment of Benefits: For termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or a life annuity. Distributions are made as soon as administratively possible.

For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Active participants are permitted in-service and hardship withdrawals under the Plan provisions.

Notes Receivable from Participants: The Plan provides that participants can borrow funds against their account balances limited to 50% of their vested interest in the Plan. Active participants are permitted to elect to take up to one loan from their accounts. Participants may borrow from their fund accounts from a minimum of $1,000 to a maximum of the lesser of (a) $50,000 less the highest outstanding loan balance for one year preceding such loan or, (b) one half of the value of the vested balance in their account as of the last day of the month preceding the loan application date. Loans may be for five years for non-residential loans or up to 15 years for residential loans. The loans are secured by balances in the participant's accounts and bear interest equal to the prime rate on the first day of the month in which the loan was applied for, plus 1 percentage point. The interest rate on participant loans was 4.25% as of December 31, 2012 and 2011. Principal and interest is paid ratably through payroll deductions.

Forfeitures: If an employee leaves the Plan and is not fully vested, the amount that is not vested is forfeited. The forfeited amount is first applied to the payment of Plan administration expenses and then towards any employer contributions. If any employee returns to the Company before incurring five (5) consecutive one (1) year breaks in service, the employee will recapture the forfeited benefits.

As of December 31, 2012 and 2011, forfeited nonvested accounts totaled $36,717 and $12,024, respectively. During the years ended December 31, 2012 and 2011, employer contributions were reduced by $72,508 and $61,111 of forfeited nonvested accounts, respectively.

Investment Options: Participants are allowed to direct their investments into 25 available mutual funds, common/collective trusts and a group annuity contract. The mutual funds, common/collective trusts and group annuity contract are managed by American Funds, Columbia, Dodge & Cox, ING, Lord Abbett, Oppenheimer, Pax and Vanguard.

Plan Amendment: Effective in 2009, the Plan has been amended for the purpose of complying with the Pension Protection Act and the Heroes Assistance and Relief Act ("HEART"). The Pension Protection Act liberalized rollover rules, for example, a non-spouse beneficiary is permitted to avoid current taxation through a rollover. The Heroes Assistance and Relief Act provides new rules applicable to employees who are absent on account of military service. These rules include a requirement to receive a distribution of his or her pre-tax contributions as if the employee had terminated employment.

The Plan has been amended to incorporate the HEART Act requirements regarding recognition of military differential pay and to also reflect the requirement that death benefits for a participant who dies during active military service to be calculated (subject to certain limitations) as if the participant had returned to active employment immediately prior to death.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basic of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Shares of mutual funds are valued at the market prices. The group annuity contract is valued at cost plus accrued interest. Contributions received by the Plan into each participant's account are invested the same day. Earnings are posted daily to each such account.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Contributions: Employee contributions become payable to the Plan on the pay date on which the contribution is deducted from the employee's pay.

Payment of Benefits: Benefits are recorded when paid.

Operating Expenses: The cost of recordkeeping, trustee, and investment management services are allocated to Plan participants based upon account balances. Such allocated costs are paid by participants through reduced investment earnings. Primera Engineers, Ltd. provides certain administrative and accounting services to the Plan at no cost and also pays the cost of services provided to the Plan by the independent auditors. Such costs borne by Primera Engineers, Ltd. have been excluded from the accompanying financial statements.

Subsequent Events: The plan has evaluated subsequent events through October 15, 2013, the date the financial statements were available to be issued.

Subsequent to the Plan year end, the Plan administrator determined that the Plan failed the Actual Deferral Percentage (ADP) nondiscrimination test as of December 31, 2012. The Plan intends to take corrective action by distributing excess contributions to highly compensated employees before October 31, 2013. Accordingly, we believe the Plan will retain its tax-qualified status.

NOTE 3 – FAIR VALUE MEASUREMENT

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The Plan adopted the guidance effective as of January 1, 2009. The three levels of the hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs or other quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measurable at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.
Group Annuity Contract: Valued at cost plus accrued interest.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

NOTE 5 – PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by ING. ING is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan are considered to represent the fair market value for the services performed and are comparable to fees paid to other investment managers. Participant loans are exempt party-in-interest transactions.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intentions to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event of such termination, the interest of all participants becomes fully vested and no part of any such participant's accounts shall be thereafter forfeited for any reason whatsoever.

NOTE 7 – TAX STATUS

The Internal Revenue Service has determined and informed the Company in a letter dated November 7, 2001 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator determined that the Plan failed the Actual Deferral Percentage (ADP) nondiscrimination test as of December 31, 2012. The Plan intends to take corrective action by distributing excess contributions to highly compensated employees before October 31, 2013. Accordingly, we believe the Plan will retain its tax-qualified status.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides for investments that are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

NOTE 9 – INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan as of December 31, 2012 and 2011 and for the years then ended, included in the Plan's financial statements that was prepared by or derived from information prepared by ING and furnished to the Plan administrator. The Plan administrator has obtained certification from ING that such information is complete and accurate.
