Participants direct the investment of their contributions into various investment options offered by the Plan.

Safe harbor matching Company contribution
The Company is required to make a matching contribution on behalf of each employee participating in the Plan in the amount equal to 100% of the first 3% of the participant's compensation contributed as elective deferrals plus 50% of the next 1% of the participant's compensation contributed as elective deferrals. Safe harbor matching contributions are invested in the same options as participant contributions at the participant's discretion.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Contributions (Continued)

Discretionary Company contribution

The Company, at the discretion of the Board of Directors, has the option to make a discretionary Company contribution for each Plan year. To receive the contribution, employees who have met the eligibility requirement discussed previously must also be employed on the last day of the Plan year. If an otherwise eligible participant is not employed on the last day of the Plan year because of retirement, death or disability during the Plan year, the participant is eligible for a contribution.

The Board of Directors waived a discretionary Company contribution during Plan years ended December 31, 2013 and 2012. Discretionary Company contributions are invested in the same options as a participant's voluntary contributions, or at the participant's discretion for those participants not making voluntary contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's safe harbor matching and discretionary Company contributions, and an allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations of earnings are based on participant account balances. Additional administrative expenses are charged on a transactional basis, affecting only those employees engaging in such transactions (i.e., distribution fees). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary elective contributions plus actual earnings thereon. The participants' interest in their share of the discretionary Company contribution vest in accordance with the following schedule based on years of service (a plan year where the participant performs at least 1,000 hours of service):

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

The participants' interest in their share of the safe harbor matching Company contribution vest in accordance with the following schedule based on years of service (a plan year where the participant performs at least 1,000 hours of service):

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years or more	100%

If an active participant dies prior to attaining normal retirement age, the participant's vesting percentage shall be 100%. Full vesting occurs upon attainment of normal retirement age or termination of employment due to disability.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $10,718 and $2,814, respectively. These accounts can be used to offset future Company safe harbor matching contributions at the discretion of the administrator. $2,637 and $1,672 were used to offset Company safe harbor matching contributions for the years ended December 31, 2013 and 2012, respectively.

Payment of Benefits

Benefits are payable to the participant upon:

a) death or retirement from the service of Company on or after normal retirement date (age 59 1/2) or on account of disability;

b) upon reaching age 59 ½;

c) resignation or dismissal from the service of Company prior to normal retirement date; or

d) upon approved hardship event.

If the benefits are payable in the event of (a) above, the amount of benefits would be equal to the balance in the participants accounts. However, if (b), (c) or (d) is applicable, the benefits payable would be the total of the participant's own contributions, safe harbor matching contributions, and the discretionary contributions, up to the amount of the participant's vested interest in the safe harbor matching and discretionary contribution not to exceed the requested distribution amount.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits (Continued)

If the benefits are less than $5,000, the balance will be distributed as either a cash distribution to the participant or transferred to an eligible retirement plan, at the direction of the participant. If the participant does not elect a method of payment and the balance is greater than $1,000, it will automatically be rolled over into an Individual Retirement Account (IRA). Balances of less than $1,000 will be distributed in cash to the participant. If the balance is more than $5,000, an election to receive the benefit must be made. Benefits may be paid in either a lump-sum payment or substantially equal installments over a period of time not exceeding the participant's life expectancy or the joint life expectancy of the participant and the beneficiary.

In-service withdrawals are available to participants, but funds may only be withdrawn from fully vested account balances.

The Plan also allows for in-service withdrawals of all or part of the participant's contributions balance in the case of immediate and heavy financial need (as defined). The withdrawal cannot exceed the amount required to relieve the financial need.

Administrative Expenses

The expenses of administering the Plan, including investment fees, are paid by the Plan and Plan Sponsor.

Notes Receivable from Participants

A participant may borrow at least $1,000 but no more than $50,000 or 50% of his or her vested account balance. The loans are secured by the balance in the participant's account. Loans are repayable through payroll deductions over periods ranging up to 60 months or longer if utilized to acquire a principal residence. The interest rate is determined by the Plan Administrator based on prevailing market conditions and is fixed over the life of the note. At December 31, 2013 and 2012, interest rates on all participant loans ranged from 4.25% to 9.25%.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting (Continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in an investment contract, the Key Guaranteed Portfolio Fund. As required, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if any adjustment is needed. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plans valuation policies utilizing information provided by the custodians. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investment presented in the accompanying statement of changes in net assets available for benefits.

NOTE 3 - SUMMARY OF INFORMATION CERTIFIED BY CUSTODIANS

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodians have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a) Total participants' directed investments as certified and shown in the investments in the accompanying statements of net assets available for benefits of $1,895,603 and $1,584,391 as of December 31, 2013 and 2012, respectively.

b) Notes receivable from participants as shown in the accompanying statements of net assets available for benefits of $81,847 and $72,920 as of December 31, 2013 and 2012, respectively.

c) Net investment income as shown in the accompanying statements of changes in net assets available for benefits of $277,885 and $159,708 for the years ended December 31, 2013 and 2012, respectively.

d) Interest income from notes receivable from participants as shown in the accompanying statements of changes in net assets available for benefits of $3,068 and $3,018 for the years ended December 31, 2013 and 2012, respectively.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5 - FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Plan has the ability to access;

- Level 2 - Inputs to the valuation methodology include:
  - Quoted prices for similar assets and liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability; and
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2013 and 2012:

Mutual funds: Valued at the net asset value (NAV) of the shares held by the Plan at year end.

Guaranteed investment contract: The fund value equals the deposits made to the fund plus credited interest which approximates fair value. At December 31, 2013 and 2012, there were no unfunded commitments or contingencies related to this fund.

NOTE 5 - FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Growth funds	$ 835,929	$ -	$ -	$ 835,929
Fixed-income funds	356,552	-	-	356,552
Index funds	119,285	-	-	119,285
Balanced funds	280,624	-	-	280,624
Guaranteed investment contract (a)	-	303,213	-	303,213
Total assets at fair value	$ 1,592,390	$ 303,213	$ -	$ 1,895,603

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total

Fixed-income funds	209,057	-	-	209,057
Index funds	188,749	-	-	188,749
Balanced funds	57,093	-	-	57,093

Total assets at fair value	$ 1,192,194	$ 392,197	$ -	$ 1,584,391

(a) The guaranteed investment contract represents the Key Guaranteed Portfolio Fund. The Fund is fully guaranteed by the entire general account assets of Great-West Life & Annuity Insurance Company. The fund's objective is maximum yield consistent with guarantee of principal.

NOTE 6 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

Key Guaranteed Portfolio Fund

The Plan has a benefit-responsive investment contract with Great-West Life & Annuity Insurance Company (Great-West), the Key Guaranteed Portfolio Fund. Great-West maintains the contributions in its general account. The investment is credited with Plan contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but could not be less than 0%. Such interest rates are reset quarterly.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) bankruptcy of the Plan sponsor or other Plan sponsor events (for example divestitures, layoffs, or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (3) early retirement incentive programs. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Participants may transfer their account balance to any other investment option offer under the Plan at any time with no restrictions or penalties.

Average Yields	2013	2012
Based on actual earnings	1.26%	1.45%
Based on interest rate credited to participants	1.26%	1.45%

NOTE 7 - RELATED-PARTY TRANSACTIONS

Certain Plan investments are funds managed by the custodians of the Plan and therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and administrative services amounted to $15,104 and $12,453 for the years ended December 31, 2013 and 2012, respectively. Other expenses of the Plan are paid directly by the Company.

Certain administrative functions are performed by officers and employees of the Company, for which no compensation is received.

NOTE 8 - PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all of the Company's participants will be entitled to a distribution equal to their account balance.

NOTE 9 - INCOME TAX STATUS

The Plan has adopted the Orchard Trust Company Defined Contribution Prototype Plan that received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the prototype Plan is acceptable for use by employees under Section 401 of the IRC. The Plan itself has not requested a determination letter. However, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants; account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 11 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to Form 5500 for the years ended December 2013 and 2012:

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to Form 5500 for the years ended December 31, 2013 and 2012:

	2013	2012
Net increase in net assets available for benefits per the financial statements	$ 314,121	$ 250,493

Plus prior year receivables	6,018	
Unknown difference	-	1
Net increase in net assets available for benefits per Form 5500	$ 320,139	$ 244,476

NOTE 12 - SUBSEQUENT EVENTS

Management evaluated subsequent events through September 4, 2014 the date the financial statements were available to be issued. Events or transactions occurring after December 31, 2013, but prior to September 4, 2014 that provided additional evidence about conditions that existed at December 31, 2013, have been recognized in the financial statements for the year ended December 31, 2013. Events or transactions that provided evidence about conditions that did not exist at December 31, 2013 but arose before the financial statements were available to be issued have not been recognized in the financial statements for the year ended December 31, 2013.
