NOTE 1 - DESCRIPTION OF PLAN

The following description of the **United Grinding North America, Inc. 401(k) Plan** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - On January 1, 1995, **United Grinding Technologies, Inc.** (the "Company") adopted a money purchase pension plan, which permitted only employer contributions. On January 1, 1996, the Company adopted a 401(k) profit sharing plan (the "Plan"). Effective June 30, 2002, the Company ceased all benefit accruals under the money purchase plan. All assets of the money purchase plan were merged into the 401(k) profit sharing plan effective June 30, 2002. The Plan allowed all employees of the Company to participate. Effective May 1, 2012, the Plan was amended to exclude non-resident aliens, leased employees, and part-time, seasonal, or temporary employees whose regularly scheduled service is less than 500 hours. On August 23, 2013, the Plan's name changed from United Grinding Technologies, Inc. 401(k) Plan to United Grinding North America, Inc. 401(k) Plan to be consistent with the name change of the Company. The Plan allows all eligible employees of the Company who have six months of service to participate. Upon satisfaction of the eligibility requirements, employees may enter the Plan on the first day of the month coinciding with or following the service requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary deferrals within statutory limits, as defined in the Plan, each year as an elective deferral. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 by the end of the Plan year are eligible to make catch-up contributions. The Company will make a matching contribution equal to 25% of a participant's elective deferrals up to 5% of a participant's compensation. Effective January 1, 2014, the Company's matching contribution was amended to 35% of a participant's elective deferral up to 6% of a participant's compensation. The Company also may make a discretionary profit sharing contribution to the Plan. All participants will share in the discretionary profit sharing contribution regardless of service completed during the Plan year or employment status at the end of the Plan year. The discretionary profit sharing contribution will be allocated to the participants in the same ratio as each participant's compensation to the total of such compensation of all participants. The Company did not make a discretionary profit sharing contribution in 2013 or 2012. No contributions shall be made on behalf of a participant to the extent that, when added to the participant's salary deferral contributions, it would cause the amounts allocated to exceed the limitations allowed by the Internal Revenue Service.

Participant Accounts - State Street Bank and Trust Company is Trustee and Custodian of Plan investments. Each participant's account is credited with the participant's contributions, Company contributions, net earnings or losses, forfeitures, distributions, and withdrawals. Company contributions are allocated based on participants' compensation as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs both separately, and distinctly, into which investment the participant contribution, employer match, and discretionary contribution are to be invested.

Vesting - Participants are immediately vested in all contributions to the Plan and corresponding earnings.

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

Participant Loans - Participants may borrow from the Plan in any amount between $500 and $50,000, but not more than 50% of their vested account balance. Loans bear interest at an agreed-upon percentage based on prevailing market rates, subject to applicable usury limits. Loan terms are for a period not exceeding five years. A longer term may be approved by the Plan if proceeds are to be used for the purchase of a primary residence. Loans are secured by the balance in the participants' accounts. Principal and interest are paid ratably through payroll deductions. Plan provisions allow a participant to have a maximum of two loans outstanding at any one time.

Benefits Paid - Upon termination of service by reason of retirement, death, permanent disability, or otherwise, participants, or designated beneficiaries, may elect to receive their vested balance either in a lump-sum amount, or payments over a period of time in cash installments, or in a form agreeable to the Plan Administrator. If the participant's account balance is $5,000 or less, the Plan Administrator may elect to automatically distribute the balance to the participant in a single-sum payment. Balances in rollover accounts are not considered in determining whether a terminated participant's vested balance is $5,000 or less. In addition, participants may receive distributions from all vested amounts for qualified financial hardships.

Forfeitures - Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions and Plan expenses. There were no forfeitures used to reduce the employer matching contributions or to pay administrative expenses for 2013 and 2012. Unallocated forfeitures at December 31, 2013 and 2012 were $10.

Investment Options - Upon enrollment in the Plan, a participant may currently direct contributions in any of 16 investment options in increments of one percent. Participants may change their investment options and deferral percentages at any time via telephone or the Internet.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits are to present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis. The common collective trust fund (Federated Capital Preservation Fund) is a fully benefit-responsive investment contract. Because the difference between the fair value and the contract value of the fund was immaterial at December 31, 2013 and 2012, the investment has been shown in the financial statements at contract value.

Financial Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's Administrator to make estimates and assumptions that affect the reported amounts of net assets, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investment Valuation and Income Recognition - Investments, with the exception of the common collective trust fund, are reported at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The common collective trust fund is valued at contract value, which approximates fair value. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Participant Loans Receivable - Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Company pays certain administrative expenses of the Plan, and the Plan participants will bear the responsibility of the remaining expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events - In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 3, 2014, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The following table presents investments that represent five percent or more of the Plan's net assets as of December 31, 2013 and 2012:

NOTE 3 - INVESTMENTS - CONTINUED

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2013	2012
Common collective trust fund	**$ -**	$ 4,139
Equity security funds	**1,039,543**	565,125
Bond funds	**(32,427)**	39,202
	$ 1,007,116	$ 608,466

NOTE 4 - SUMMARY OF INFORMATION CERTIFIED BY PLAN TRUSTEE/CUSTODIAN

The fair value of investments held by the Trustee at December 31, 2013 and 2012, was $8,872,829 and $6,909,538. The Trustee of the Plan has supplied the Plan Administrator with a certification as to the completeness and accuracy of the following information at December 31, 2013 and 2012:

- Investments
- Interest and dividend income
- Net appreciation (depreciation) in fair value of investments

NOTE 5 - FAIR VALUE MEASUREMENTS

Accounting standards provide a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under the accounting standards are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 5 - FAIR VALUE MEASUREMENTS - CONTINUED

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Common collective trust fund: Valued at the contract value of investments held by the Plan, which approximates fair value at year end.

Equity security and bond funds: Valued at the quoted market price of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Fair Value
Common collective trust fund	**$ -**	**$ 1,177,966**	**$ -**	**$ 1,177,966**

NOTE 5 - FAIR VALUE MEASUREMENTS - CONTINUED

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	$ 6,018,663	$ 890,875	$ -	$ 6,909,538

NOTE 6 - FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT

The Federated Capital Preservation Fund (the "Fund") is a common collective trust fund. Federated Investors Trust Company, a wholly owned subsidiary of Federated Investors, Inc., serves as trustee, custodian, and administrator of the fund. The Fund holds guaranteed investment contracts, separate account guaranteed investment contracts, and synthetic guaranteed investment contracts. The investment objective of the Fund is stability of principal and high current income. The crediting interest rates were approximately 1.46% and 1.95% for 2013 and 2012.

Certain events, such as premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Federated Investors Trust Company. The Plan Administrator believes the occurrence of such events, which would also limit the Plan's ability to transact at contract value with Plan participants, is not probable.

NOTE 7 - RELATED PARTY TRANSACTIONS

Certain Plan assets are held in trust with State Street Bank and Trust Company. Thus, State Street Bank and Trust Company, as Trustee defined by the Plan, qualifies as a party-in-interest.

The Plan Sponsor provides certain accounting, record keeping, and administrative services to the Plan, for which it receives no compensation.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA and its related regulations.

NOTE 9 - TAX STATUS

The Plan adopted a Prototype Non-Standardized Profit Sharing and 401(k) Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 11 - BENEFITS ALLOCATED TO WITHDRAWN PARTICIPANTS

At December 31, 2013 and 2012, there were no amounts due to participants who have withdrawn from the Plan and requested benefit payment prior to year-end.

NOTE 12 - NON-EXEMPT TRANSACTIONS

During 2012, the Plan discovered that a loan made in 2004 was not paid off within the allowable five year loan period. As a result of this failure, a non-exempt transaction was reported. The balance outstanding on this loan at December 31, 2012, was $662 and was paid in full by the participant during 2013. The Plan sponsor was liable for excise tax, which was paid during 2013.

NOTE 13 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

For the years 2013 and 2012, there were no differences between the financial statements and the Form 5500.
