Note 1 - DESCRIPTION OF PLAN

The following description of the Stafford Health Services, Inc. Retirement Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

GENERAL

The plan is a defined contribution plan covering all employees of Stafford Health Services, Inc. and affiliated companies, who are age twenty-one or older and have completed one year of service. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

Participants may contribute a percentage of eligible annual compensation not to exceed the annual dollar limitation defined by the Internal Revenue Code, as defined in the plan. Participants may also contribute amounts representing rollover distributions from other qualified plans.

The company will make a matching contribution annually. This matching contribution is based upon each participant's eligible contributions limited to 2% of the participant's compensation. The company may also make a discretionary profit sharing contribution. Participants must have completed one year of service and worked at least 1,000 hours to be eligible for profit sharing contributions.

PARTICIPANT ACCOUNTS

Each participant account is credited with the participant's contribution, the company's contribution, and the allocation of plan earnings and any related investment expenses. Allocations of income, forfeitures and expenses are based on the proportion of each participant's account to the total of all participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are immediately vested in their voluntary contributions plus actual earnings thereon.

Vesting in employer matching contribution plus actual earnings thereon is based on years of continuous service as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Vesting in the discretionary profit sharing contribution plus actual earnings thereon is based on years of continuous service as follows:

Years of Service	Percentage
1	0%
2	0%
3	20%
4	40%
5	60%
6	80%
7	100%

INVESTMENT OPTIONS

Upon enrollment in the plan, participants are able to direct their contributions, including matching and discretionary profit sharing contributions among any or all of the multiple investment account options. Investment options are pooled separate accounts and a guaranteed investment account held by John Hancock Life Insurance Company (U.S.A.) at December 31, 2013. Participants may change their investment options daily.

Contributions may be temporarily held as cash balances prior to the execution of the investment according to the participant's direction.

The plan provides for various investment fund options, which, in turn invest in a combination of stocks, bonds, and other investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

PAYMENT OF BENEFITS

On termination of service due to death, disability or retirement, a participant may elect to receive either a single lump-sum distribution equal to the value of the participant's vested interest in his or her account, or an annuity to be paid for the remainder of the participant's life. Benefits are recorded when paid. For termination of service due to reasons other than death, disability or retirement, a participant will receive an automatic benefit payment for the value of the vested interest in his or her account as a cash lump sum for balances under \$1,000.

HARDSHIP WITHDRAWALS

Participants are permitted to withdraw, in a single sum, the vested portion of their account balance under certain conditions. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of post-secondary education tuition, the payment of funeral expenses or casualty losses or to prevent eviction or foreclosure from the participant's principal residence. A participant's right to make deferrals to the plan will be suspended for six months after the receipt of a hardship withdrawal.

FORFEITURES

Forfeitures of non-vested contributions are first used to pay the plan's administrative expenses. The remaining forfeitures may be used to reduce plan sponsor contributions. Forfeitures of \$1,948 and \$3,526 were used to pay administrative expenses in 2013 and 2012, respectively.

ADMINISTRATION OF PLAN ASSETS

The plan assets are held by the custodian of the plan. Administrative expenses for the plan are paid by the plan and totaled \$16,979 and \$21,139 for the years ended December 31, 2013 and 2012, respectively.

Note 2 - SUMMARY OF ACCOUNTING POLICIES**BASIS OF ACCOUNTING**

The financial statements of the plan are prepared using the accrual method of accounting.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

VALUATION OF INVESTMENTS AND INCOME RECOGNITION

The plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Note 3 - FAIR VALUE MEASUREMENTS

The plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

FASB ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority and Level 3 inputs have the lowest priority. Level 2 inputs consist of inputs other than quoted market prices included within Level 1 that are observable for valuing the asset. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 inputs were available to the plan. Level 2 inputs were only used when there were observable inputs other than quoted market prices for the asset. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

Fair value of the pooled separate accounts is based on a net asset value equivalent classified as a Level 2 input under accounting principles generally accepted in the United States of America.

Fair value of the guaranteed investment account is based on the net assets of the underlying investments, minus its liabilities divided by the number of units outstanding. This is considered a Level 2 input under accounting principles generally accepted in the United States of America.

Level 3 Fair Value Measurements

The guaranteed interest funds with an insurance company was not actively traded and significant other observable inputs were not available. Thus, the fair value of the guaranteed interest funds was determined by using a proprietary model using assumptions regarding participant behavior, management action and current market conditions.

The following table provides further details of the Level 3 fair value measurements.

Note 6 - TAX STATUS

As of December 31, 2013, the plan's latest determination letter was dated January 15, 2010, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that as of December 31, 2013 the plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

The plan has adopted the provisions of FASB ASC 740-10, *Income Taxes*, relating to accounting for uncertain tax positions. ASC 740-10 defines a recognition threshold and measurement process for accounting for uncertain tax positions and also provides guidance on various related matters such as interest, penalties, derecognition and disclosures. The plan does not have any plan level uncertain tax positions. The plan files income tax returns in the U.S. federal jurisdiction. The plan is no longer subject to U.S. federal examinations by tax authorities for years before 2010.

Note 7 - PARTY-IN-INTEREST TRANSACTIONS
