Berry Aviation, Inc. Profit Sharing 401(k) Plan
Notes to Financial Statements

1. Description of the Plan

The following description of the Berry Aviation, Inc. Profit Sharing 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established and effective on January 1, 1998. All employees who are age twenty-one or older are eligible to participate in the Plan. Eligible employees may become a participant in the Plan on the first day of the month following the satisfaction of the eligibility requirements. The Plan provides for a qualified cash or deferred arrangement described in Section 401(k) of the Internal Revenue Code (the "Code"). During 2013 and 2012, David K. Young Consulting, LLC administered the Plan. During 2012, Hartford Life Insurance Company was the custodian for the Plan. Effective January 1, 2013, Massachusetts Mutual Life Insurance Company acquired the Hartford's Retirement Plans Group business and became the custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts

Each participant's account is credited with the participant's contributions, discretionary Company contributions, and earnings on these contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's contributions to their account and earnings thereon, as well as any amounts of discretionary Company contributions and earnings thereon to which the participant is entitled under the vesting policy described below.

Contributions

Each year participants may elect to contribute up to 15% of pretax annual compensation (with a minimum of 1% compensation required), as defined in the Plan, subject to certain Internal Revenue Service limitations. Participants may also rollover amounts representing distributions from other qualified plans. Employer contributions are made at the discretion of the Company. If the Company elects to make a contribution, it may elect to make a pro-rata contribution to all participants based on compensation or it may elect to make a matching contribution based on some percentage of the contributions made by the participants. For the years ended December 31, 2013 and 2012, the Company made a discretionary qualified non-elective contribution of $31,640 and $34,138, respectively. All contributions are invested as directed by the participants into one or more of the funds offered by the Plan.

Vesting

Participants are immediately 100% vested in their deferral contributions. The Company's discretionary contributions become vested based on the participant's number of years of service with the Company according to the following schedule: Less than 2 years – 0%, 2 years – 20%, 3 years – 40%, 4 years – 60%, 5 years – 80% 6 years or more – 100%. One thousand hours of service must be completed to be credited with a year of vesting.

Benefit Payments
The Plan provides for distributions to participants upon termination of employment before the normal retirement age, disability, or upon reaching the normal retirement age but continue to work. Participants can request a distribution from the Plan of their vested interest in the Plan upon attainment of age 59 ½, even if they continue to work. Participants will receive their benefits as either a lump-sum amount, installment payments, or annuity contracts under various options equal to the value of the participant's vested interest.

Forfeitures
Forfeitures of terminated participants' non-vested portions of their accounts are used first to offset any administrative fees of the Plan and then to reduce the Company's contributions. At December 31, 2013 and 2012 there was a forfeiture balance of $0 and no forfeitures were used to offset employer contributions during the years ended December 31, 2013 and 2012.

Notes Receivable from Participants
Participants may borrow from their deferral contributions fund account from a minimum of $1,000 to a maximum equal to lesser of $50,000 or 50 percent of their vested account balance. Loans must be repaid within five years unless used for the purchase of a primary residence. Loans are secured by the vested balance of the participant's account and bear interest at U.S. Government Prime Rate plus 2%, unless otherwise determined by the Trustee, that is in effect as of the last day of the preceding calendar quarter and is set for the life of the loan. The interest rate for loans was at 5.25% as of December 31, 2013. Principal and interest are paid ratably through bi-weekly payroll deductions.

Income Tax Status
The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008 stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2005-6, the Company has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code, and, therefore, believes that the Plan is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Termination
The Company expects to continue the Plan indefinitely, but by resolution of its Board of Directors, reserves the right to terminate the Plan. If the Plan were terminated, the accrued benefit accounts for each participant would become fully vested and non-forfeitable. Such accrued benefit accounts will be held under the Plan to be distributed as provided in the Plan upon death, retirement or termination.

Administration
Administrative costs and expenses, including trustee, legal, loan administration, and accounting fees are paid out of the Plan unless paid directly by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and changes in those net assets.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible the changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Shares of pooled separate accounts are stated at fair value as determined by the issuer, which represent net asset value of shares held by the Plan at year end.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties
The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that chances in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Payment of Benefits
Benefits are recorded when paid.

5. Fair Value Measurements

The Plan follows the provisions of FASB ASC 820, *Fair Value Measurements*, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Fixed income account: Valued at the contract value, which approximates fair value.

Pooled separate accounts: Valued at the Net Asset Value (NAV) of shares held by the Plan at year end.

Notes receivable from plan participants: Valued at the unpaid principal and interest balance due at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012:

December 31, 2013	Level 1	Level 2	Level 3	Total

At December 31, 2013, a payable in the amount of $23,441 has been recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed per Section 401(a)(4) of the Internal Revenue Code.

7. Reconciliation of Financial Statements to Form 5500

There were no reconciling differences between the financial statements and the Form 5500 as of and for the years ended December 31, 2013 and 2012.

8. Related Party Transactions

Certain plan investments are shares of mutual funds managed by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the custodian of the Plan and therefore these transactions qualify as party-in-interest.

9. Subsequent Events

The Plan has evaluated subsequent events occurring after December 31, 2013, the date of the most recent statement of net assets available for benefits date, through September 4, 2014, the date the financial statements were available to be issued. The Plan does not believe any subsequent events have occurred that would require further disclosure or adjustment to the financial statements.
