NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Robert James Sales, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code and is sponsored by Robert James Sales, Inc. (the Company). The Plan covers substantially all employees of the Company who have completed six months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Directors (the Board) is responsible for oversight of the Plan. The Board determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions: Participants are permitted to make salary deferrals to the plan in 1 percent increments of their eligible compensation up to a maximum, in any Plan year, of 100 percent. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. The Company will make matching contributions of 50 percent of the first 4 percent of the employee's compensation. Additionally, profit sharing amounts may be contributed at the discretion of the Company's Board of Directors. No profit sharing contributions were made for the years ended December 31, 2013 and 2012.

Participants' Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution, (b) the Company's profit sharing contribution, (c) Plan earnings, and (d) charged with an allocation of administrative expenses. Plan earnings and administrative expense allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts is based on years of continuous service. Participants vest in Company matching and profit sharing contributions in accordance with the following schedule:

Years of service	Vested Percentage
1	0 percent
2	20 percent
3	40 percent
4	60 percent
5	100 percent

Forfeitures: Nonvested benefits of terminated participants are forfeited and used to reduce employer matching or elective profit sharing contributions. No forfeitures were used to reduce employer contributions during the year ended December 31, 2013 or 2012. At December 31, 2013 and 2012 there were $58,528 and $49,230, respectively, of unapplied forfeitures.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent of their account balance. The loans are secured by the balance in the participants' account and bear interest at prevailing commercial rates as determined by the plan administrator. Principal and interest is paid ratably through weekly payroll deductions.

Withdrawal of Benefits: Participants may receive distributions upon termination of employment, reaching age 59 1/2, death, disability and in the event of financial hardship, as defined.

Participants with account balances prior to January 1, 1999 that include employer contributions may elect to have the plan make periodic payments over a specified period of time. All other distributions are to be made by lump-sum payments.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information that is provided by the investment advisors and custodian. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payments of Benefits: Benefit payments are recorded when paid.

Administrative Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in unrealized gain (loss) on investments.

Subsequent Event: These financial statements have not been updated for subsequent events occurring after July 25, 2014 which is the date these financial statements were available to be issued.

NOTE 4. CERTIFICATION

The following financial information relating to the Plan's assets at December 31, 2013 and 2012, as well as income and transactions for the years then ended, have been derived from information provided by Ascensus, the recordkeeper of the Plan as an agent for Frontier Trust Company, the trustee of the Plan, and has been certified by the trustee as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent accountants.

Realized gains on investment transactions	**$ 47,495**	$ 35,557

NOTE 5. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 5. FAIR VALUE MEASUREMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The NAV is the closing price reported on the active market on which the securities are traded. Shares of registered investment companies are classified as level 1 investments.

Money market fund: A Money Market Fund is a public investment vehicle valued using $1 for the NAV and are classified as level 2 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Assets at Fair Value as of December 31, 2013

NOTE 6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 19, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan has been amended since receipt of the determination letter. The Plan Administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of registered investment companies managed by American Funds Service Company. American Funds Service Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Frontier Trust, the trustee, also qualify as party-in-interest transactions. Investment income from investments sponsored by American Funds Service Company and interest from participant loans amounted to $1,047,609 and $7,694, respectively, for the Plan year ended December 31, 2013. Investment income from investments sponsored by American Funds Service Company and interest from participant loans amounted to $506,760 and $5,790, respectively, for the Plan year ended December 31, 2012.

Fees incurred by the Plan for the investment management services are included in the unrealized gain (loss) on investment(s), as they are paid through revenue sharing, rather than a direct payment. Fees paid by the Plan for the loan processing fees amounted to $1,337 for the year ended December 31, 2013 ($1,041 – 2012). The Plan Sponsor pays directly any other fees related to the Plan's operations.

NOTE 8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account.
