Benefits not Included in Valuation

We believe all significant Plan provisions are reflected in this valuation.

For the Athens participants, we have not valued the offsets for Workers Compensation that may apply to the plan's disability benefits. For the Reznor participants, we have not valued the public disability benefits that may offset the plan's disability benefits. Additionally, we have not reflected in our valuation an offset to the QPSA employer cost for the charge for the QPSA benefits that applies for Reznor participants. Each of these items was deemed to be insignificant for valuation purposes.

PBGC Premium Funding Target

The Alternative Premium Funding Target was determined using the assumptions described above prior to the application of MAP-21 interest rate corridors and was elected for the 2008 plan year and will remain in effect for five plan years.

(1) Plan Description and Benefits

The following summary discussion of the Thomas & Betts Corporation Pension Plan for Bargaining Unit Employees (Plan) is provided for informational purposes only. Participants should refer to the Plan document for information regarding eligibility, vesting and the determination of Plan benefits.

The Plan is a defined benefit pension plan sponsored by Thomas & Betts Corporation (the Corporation). The Corporation was acquired by ABB, Ltd. on May 16, 2012. Participants in this Plan include substantially all employees of the Corporation covered by a collective bargaining agreement at its Athens, Tennessee and Mercer, Pennsylvania locations. It is the responsibility of the Plan administrator to maintain records of Plan participants, authorize benefit payments and determine employee eligibility and benefit amounts. The Northern Trust Company (Trustee) holds the Plan's investment assets, executes investment transactions and makes benefit payments.

The Plan is divided into six parts (Parts A through F), each representing a previously merged plan. There are no active participants in Parts A, B, E or F. Part C of the Plan covers employees who are members of Local 175 of the International Brotherhood of Electrical Workers at the Corporation's Athens, Tennessee plant. Part D of the Plan covers employees who are members of Local 5306 of the United Steelworkers of America, AFL-CIO Technical Unit, Production and Maintenance Unit or Clerical Unit at the Corporation's Mercer, Pennsylvania plant.

During the second quarter of 2012, the Corporation and the union representing collectively bargained employees at the Mercer facility approved a plan to discontinue the future accrual of benefits for participants under Part D of the Plan after December 31, 2012. In connection with this plan to discontinue the accrual of future benefits, the Thomas & Betts Employees' Investment Plan, Part C for Mercer Bargaining Unit Employees, was amended to provide a nonelective employer contribution to all eligible employees, beginning January 1, 2013, and to provide certain employees an additional employer contribution (transition benefit), based on age and service, during 2013 and 2014.

During the second quarter of 2011, the Corporation and the union representing collectively bargained employees at the Athens facility approved a plan to discontinue the future accrual of benefits for participants under Part C of the Plan after December 31, 2011. In connection with this plan to discontinue the accrual of future benefits, the Thomas & Betts Employees' Investment Plan, Part B for Athens Bargaining Unit Employees, was amended to provide a nonelective employer contribution to all eligible employees, beginning January 1, 2012, and to provide certain employees an additional employer contribution (transition benefit), based on age and service, during 2012 and 2013.

(2) Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan. The Corporation is the Plan sponsor. The Board of Directors of the Corporation has delegated responsibility for the administration of the Plan to the Corporation's Retirement Plans Committee.

FOR BARGAINING UNIT EMPLOYEES**

Notes to Financial Statements – (Continued)

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles (U.S. GAAP). The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

(b) Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

The Master Trust, as defined below, invests in various types of investment securities and in various companies and/or funds within various markets. The Plan's interest in the Master Trust is exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments in the Master Trust, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for pension benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions including interest rates and employee demographics, which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(c) Trust Fund

The Trustee serves as custodial trustee of a trust fund on behalf of the Plan. The Plan's investments are held in the Thomas & Betts Corporation Master Retirement Trust (the Master Trust) for the Corporation's U.S. pension plans. At November 30, 2013 and 2012, the assets of the Master Trust consisted principally of investments in collective trust funds, fixed income investments, equity securities and a hedge fund.

Investment managers have been granted discretionary authority concerning all purchases and sales of investments in the Master Trust within the investment guidelines established by the Corporation's Retirement Plans Committee. The Plan's interest in the Master Trust and the interest in the net investment income of the Master Trust have been reported to the Plan administrator by The Northern Trust Company. Fair values of the underlying investments are determined by the Trustee and allocated to the participating plans based upon each plan's proportionate interest in the Master Trust.

(d) Cash and Cash Equivalents

Cash equivalents held in the Master Trust consist of high-quality money market investments and other investments with maturities at the date of purchase of less than 90 days that have a low risk of change in value.

(e) *Interest in Master Trust*

The Plan's interest in the Master Trust is stated at fair value as described in note 5. Purchases and sales of securities by the Master Trust are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date.

(f) *Investment Income*

Investment income of the Master Trust is retained by the Trustee for reinvestment purposes. Investment income is recorded when earned.

(g) *Funding Policy*

The Corporation generally contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the minimum funding requirements of ERISA.

(h) *Payment of Pension Benefits*

Benefit payments to participants are recorded upon distribution.

(i) *Adoption of New Accounting Standard*

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2011-04, which is an amendment to the guidelines on the measurement and disclosure of the fair value of financial instruments. The Plan adopted ASU 2011-04 in the plan year beginning December 1, 2012 and the disclosures required by ASU 2011-04 are included in note 5, Fair Value of Measurements.

(3) *Financial Information Certified by Trustee*

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained a certification from the Trustee of the Plan, The Northern Trust Company, that all information relating to the Plan's investment and related investment income (loss) is complete and accurate. Information as to the value of the interest in the Master Trust, the Plan's interest in the net investment income (loss) of the Master Trust, and all information in the supplemental schedule is presented in reliance solely upon this certification. The fair value hierarchy discussed in note 5 has not been certified by the trustee of the Plan.

(4) Interest in the Master Trust

The Plan's assets are held in the Master Trust established for the investment of assets of the Corporation's U.S. pension plans. Each participating plan has an undivided interest in the Master Trust. At November 30, 2013 and 2012, the Plan's interest in the net assets of the Master Trust was approximately 9.4% for both years, respectively. Investments, investment income (loss) and certain related accounts are allocated to the participating plans based upon each plan's proportionate interest in the Master Trust.

The following information presents the net assets of the Master Trust:

(5) Fair Value Measurements

The Master Trust values its investments at fair value. Fair value is the price received to transfer an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Measuring fair value involves a hierarchy of valuation inputs used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly; and, Level 3 inputs are unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own valuation assumptions.

The following is a description of the valuation methodologies used for investments measured at fair value.

Collective trust funds: Collective trust funds are comprised of units in commingled funds that are not publicly traded. The underlying assets in these funds (58% domestic equity securities, 21% foreign equity securities and 21% fixed income securities) are publicly traded on national securities exchanges and price quotes for the assets held by these funds are readily available. The investment strategies of these funds are to invest in specific sectors or securities consistent with the overall investment policy of the Master Trust. A significant portion of the underlying assets in these funds are invested in domestic large-cap, mid-cap and small-cap equity securities. The collective trust funds are valued at the net asset value per unit as determined by the collective trusts as of the valuation date. The Plan has elected as a practical expedient to reflect the collective trust fund balances on the basis of net asset value. Collective trust funds have been classified as a Level 2 investment.

Fixed income securities: Fixed income securities include an open-ended bond mutual fund comprised principally of U.S. government bonds. Fixed income securities also reflect directly held domestic and foreign government bonds and corporate bonds. Such investments are measured using quoted market prices which are readily available. These fixed income securities have been classified as a Level 1 investment. Fixed income securities also include asset and mortgage backed securities. The fair value of these investments is estimated using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. These fixed income securities have been classified as a Level 2 investment.

FOR BARGAINING UNIT EMPLOYEES**

Notes to Financial Statements – (Continued)

Equity securities: Equity securities represent directly held domestic and foreign common stocks. Such securities are publicly traded on national securities exchanges and price quotes for these assets are readily available. Equity securities have been classified as a Level 1 investment.

Hedge fund: The Northern Trust Alpha Strategies Fund (Fund) operates as a “fund of funds” investing in a group of funds or other pooled investment vehicles (sub-funds) and the Fund’s investment objective is to seek attractive risk-adjusted rates of return through investment in a diversified portfolio of assets. The Fund is valued based on net asset values (NAV) determined by the subfund managers, as well as other considerations of the Fund manager. This information is generally not publicly available. The fund allows redemption at the net asset value as of the last business day of each calendar quarter. Due to the Fund having a redemption period of 90 days or less, the Plan has elected as a practical expedient to reflect the Fund fair value on the basis of NAV and has classified it as a Level 2 investment.

Other alternative investments: Other alternative investments include a private equity partnership fund and a real estate partnership fund. The valuation of the private equity and real estate partnership funds require significant judgment due to the absence of quoted market prices, the inherent lack of liquidity and the long-term nature of such assets. These assets are initially valued by Plan management at cost, which approximates fair value, and the carrying values of these assets are reviewed and adjusted as needed periodically utilizing available and relevant market data. These investments are classified as a Level 3 investment. The valuation of Level 3 investments requires significant judgment due to the absence of quoted market prices, the inherent lack of liquidity, and the long-term nature of such assets. Certain Level 3 investments are valued based upon recommendations of the Company’s investment managers incorporating factors such as contributions and distributions, market transactions, market comparables, and performance multiples. As the Company relies on fair values as determined by its investment managers for these Level 3 investments, significant unobservable inputs, including valuation techniques and other key inputs, for these items may not be reasonably available. The Company has not provided quantitative information about the significant unobservable inputs as these inputs are not developed by the Company when measuring fair value.

The table below sets forth a summary of changes in the fair value of the Master Trust’s Level 3 assets for the year ended November 30, 2013.

(6) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those periodic payments, including lump sum distributions, that are expected to be made in the future pursuant to the Plan's provisions for the years of service employees have rendered through the valuation date.

Towers Watson & Company is responsible for the administrative, consulting and actuarial functions for the Plan. The actuarial present value of the accumulated plan benefits as determined by Towers Watson & Company is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations for the plan years beginning December 1, 2012 and December 1, 2011 were: (a) mortality rate based on the RP-2000 Combined Healthy Participant Mortality Table projected 20 years for 2013 and 2012; (b) moderate rate of employee withdrawal; (c) assumed rate of return on investments (funding interest rate) of 7.0% in 2013 and 7.75% in 2012; and (d) a weighted average assumed retirement age at 63 in 2013 and 2012. Assumption changes totaling \$2.5 million, which were primarily the result of changes in the discount rate used to determine the present value of accumulated benefits, increased the actuarial value of accumulated plan benefits as of December 1, 2012.

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. If the Plan is terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Pension benefits paid	(2,603)
Actuarial value of accumulated plan benefits as of end of year	\$ 36,042

(7) Plan Termination

Although the Corporation has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions set forth in ERISA. Upon termination of the Plan, each affected participant's accrued benefit as of the date of termination becomes fully vested to the extent funded. Under provisions of ERISA, if the Plan is terminated, the Corporation may be obligated to make termination payments to the Plan, and participants may be eligible for continuation of benefits under insurance provided by the Pension Benefit Guaranty Corporation (PBGC).

Refer to the Plan document for a detailed description of the order of allocation of Plan net assets among participants and beneficiaries of the Plan in the event of the termination of the Plan.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and

**THOMAS & BETTS CORPORATION PENSION PLAN
FOR BARGAINING UNIT EMPLOYEES**

Notes to Financial Statements – (Continued)

survivor pensions. However, the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees which is adjusted periodically. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

(8) Federal Income Taxes

The Internal Revenue Service has issued a determination letter dated December 21, 2012, stating that the Plan is a qualified plan in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receipt of the determination letter. The Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC. The Plan administrator and the Plan's outside tax counsel believe that the Plan is properly designed to be in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. As of November 30, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan believes it is no longer subject to income tax examinations for plan years prior to and including the year ended November 30, 2010.

(9) Related-Party Transactions

The Trustee of the Plan, The Northern Trust Company, manages certain Plan investments. Therefore, transactions involving Northern Trust funds qualify as party-in-interest transactions. Fees paid by the Plan for administrative services to Northern Trust amounted to \$0.1 million for both years ended November 30, 2013 and 2012, respectively.

(10) Subsequent Events

In April 2014, the Corporation divested its HVAC business which included the Mercer, Pennsylvania business whose eligible bargained employees participated in Part D of the Plan. A Section 4062(e) event notice was submitted to the PBGC on June 26, 2014.

In February 2014, Bank of New York Mellon was appointed Trustee and assumed responsibility for holding the Plan's investment assets and executing investment transactions. Northern Trust continues to make benefit payments.

Notes to Financial Statements – (Continued)

During January 2014, the Corporation made a voluntary contribution of \$5 million to the Plan. This contribution will be recognized in the plan year ending November 30, 2014 financial statements, but will be reflected in the 2013 Form 5500.

The Plan evaluated subsequent events through September 9, 2014, which is the date the financial statements were available to be issued, and has concluded that other than the items discussed above, there are no significant subsequent events requiring recognition or disclosure in these financial statements.
