As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year), which is the responsibility of Plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A - Description of Plan

The following description of the Centennial Contractors 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1981 for the benefit of employees of the Plan Sponsor. Effective March 1, 2012, the Plan name was changed from Fru-Con Companies Retirement Thrift Plan to Centennial Contractors 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a defined contribution plan covering employees of FCC Corporation and its affiliated companies (collectively, the "Company" or "Sponsor"), except for certain employees covered under collective bargaining agreements, leased employees and nonresident aliens. Employees are eligible to participate in the Plan as well as the employer match, on the date on which they begin employment.

Contributions

Participants may contribute an amount equal to the lesser of 60% of eligible compensation, or certain limits established by Internal Revenue Code. All contributions are directed by the participants and allocated to the investments that the participants have selected. Participants may also contribute qualifying distributions received from a former employer's qualified plan. During 2013 and 2012, the Sponsor provided a match on employee contributions of 50 percent of the first 6 percent of the employee's compensation.

Effective March 1, 2012, the Plan was amended so that employees were automatically enrolled in the Plan at a 6% deferral rate 30 days after meeting eligibility requirements.

The Plan also has an employer discretionary profit sharing provision applicable to employees who have completed at least 1,000 hours of service during the Plan year and are employed by the Plan Sponsor on the last day of the Plan year. There were no discretionary contributions during 2013 or 2012.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings on account balances, as defined by the Plan agreement. A participant is entitled to the amount of benefit that can be provided from the participant's vested account.

Note A - Description of Plan (Continued)

Vesting

Participants shall at all times be one hundred percent (100%) vested in their salary deferred contributions plus actual earnings thereon. The Plan provides that a participant's share of the Company's contributions becomes 33 1/3 percent vested after the participant has completed one year of service, 66 2/3 percent vested after two years of service, and 100 percent vested after three years of service. Years of service are determined based on elapsed time. Participants are fully vested at their normal retirement date, death or disability, regardless of the number of years of participation.

Forfeitures

At December 31, 2013 and 2012, unallocated forfeiture balances totaled $19,461 and $54,555, respectively. These accounts will be used to reduce future employer contributions. For the years ended December 31, 2013 and 2012, employer contributions were reduced by $60,000 and $78,750, respectively, from forfeited non-vested accounts.

Participants who forfeit their account and later resume employment under the Plan before a five year consecutive break in service has occurred will have the amount of their previously forfeited employer contribution restored.

Payment of Benefits

At the end of the year in which a participant terminates his or her employment, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, if the value is less than $5,000. If the value of the participant's vested interest is $5,000 or greater, he or she is permitted to hold it in his or her account before rolling it over into a new plan.

The Plan allows for hardship withdrawals, as defined in the Plan, which are limited to the amount of financial need. These withdrawals may not be reconstituted to the Plan and may be subject to income tax and penalties.

Notes Receivable from Participants

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. Participants may borrow no less than $1,000 and no greater than the lesser of $50,000 or 50% of the participant's vested account balance. Loans are amortized over a maximum of 60 months unless used to purchase the participant's principal residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate.

Note A - Description of Plan (Continued)

Administrative Expenses

The Plan Sponsor absorbs a majority of the cost of the Plan's administrative expenses.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment in the collective investment fund, as well as the adjustment of the investment in the collective investment fund from fair value to contract value relating to the investment contract. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates in Financial Statement Preparation

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for a discussion of fair value measurements.

Interest income is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note B - Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document. Loan balances are secured by participant accounts.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Subsequent Events

The Plan has evaluated all subsequent events through September 2, 2014, the date the financial statements were available to be issued.

Note C - Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained a certification from Fidelity Management Trust Company ("Fidelity") that all of the information provided by Fidelity and included in the accompanying financial statements and supplemental schedule is complete and accurate. Information as to the investments in the accounts of Fidelity, investment income, and all investment information appearing in the accompanying financial statements and supplemental schedule is presented in reliance solely upon this certification.

The following table presents the fair value of investments that represent five percent or more of the Plan's net assets:

	2013	2012
Fidelity Mid-Cap Stock Fund	**$ 1,877,223**	$ 1,451,203
Fidelity Blue Chip Growth Fund	**1,795,451**	1,327,350
ContraFund	**1,611,008**	*
Spartan US Equity Index	**1,512,805**	*
Fidelity Intermediate Bond Fund	*	1,380,258
Fidelity Retirement Money Market Portfolio	*	1,897,347

*- Balance represents less than 5% of the Plan's net assets

Note C - Investments (Continued)

The Plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $3,980,764 and $2,112,235 during 2013 and 2012.

Note D - Investment Contract

The Plan has a fully benefit-responsive investment contract with Fidelity. Fidelity maintains the contributions in a collective trust. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Fidelity. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Contract value represents contributions made by participants, plus interest at a specified rate, less withdrawals or transfers by participants.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting rate is based on a formula agreed upon with the issuer.

The average yield rate of the contract at December 31, 2013 and 2012 was .89% and 1.05%, respectively.

Note E - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note E - Fair Value Measurements (Continued)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. There were no level 3 investments for the years ended December 31, 2013 and 2012

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust/stable funds: Valued at NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note E - Fair Value Measurements (Continued)

The methods used may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, present the Plan's investments at fair value as of December 31, 2013 and 2012:

Note F - Income Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Note F - Income Tax Status (Continued)

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note G - Party-in-Interest Transactions

Plan investments consist of shares of mutual funds and a collective trust managed by the trustee. Fidelity is the trustee, as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions.

Note H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note I - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Participants should refer to the Plan Agreement for a description of the priorities or distribution of Plan benefits in the event of termination. Generally, any distribution would be made in proportion to the participant's interest, after deduction of allowable expenses. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

Note J - Reconciliation of Financial Statements to Form 5500
