401 (k) PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2013

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Midland Optical 401 (k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions

The Plan maintains individual accounts for each participant in the Plan. Participants may elect to contribute to the Plan, through payroll deductions, up to a maximum amount determined by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make a matching contribution equal to a discretionary percentage of participant's contributions. This matching contribution does not take into consideration participant contributions that exceed 6% of salary. In addition, the Company may make profit sharing contributions to the Plan as well as certain qualified nonelective contributions (QNEC's). These Company contributions are discretionary in nature and are determined on an annual basis by the Board of Directors. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's contribution and plan earnings. These allocations are based on participant earnings or account balances, as defined.

NOTE 1 – DESCRIPTION OF PLAN - continued

Vesting

Participants are vested immediately in their contributions plus earnings thereon, rollover contributions and QNEC contributions. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant Loans

Participants may borrow from their vested account balance a minimum amount of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loan is secured by the balance in the participant's account and bears interest at a rate determined by the Plan Administrator which are commensurate with rates charged for similar type loans by other lenders.

Payment of Benefits

On termination of service due to death, disability, retirement or for other reasons, participants will receive a lump-sum amount equal to the value of the vested interest in his or her account.

Forfeited Accounts

Forfeited nonvested accounts are used to reduce future employer contributions. During 2012 and 2013, employer contributions were reduced by $383 and $1,325, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Management has evaluated subsequent events through August 21, 2014, the date which the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Quoted market prices are used to value investments. Participant loans are valued at their outstanding balances, which approximates fair value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 and Level 3 inputs were only used when Level 1 was not available.

Level 1 Fair Value Measurements

The fair value of pooled separate accounts is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

Interest-bearing deposits consists of an account maintained at John Hancock Life Insurance Company in a demand type account. The fair value is based on cost which approximates market value.

The stable value fund is an investment option within the group annuity contract. The investment objective is to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term. Contributions to the plan are invested in one or more benefit responsive contracts including a group annuity contract purchased from John Hancock Life Insurance Company. These funds are allocated by John Hancock to its Stable Value Separate Investment Account that is not chargeable with liabilities arising out of any business John Hancock may conduct other than the business of the separate account. The Plan includes the fair value estimates of these investments in Level 2.

NOTE 3 – FAIR VALUE MEASUREMENTS - continued

John Hancock Lifestyle Aggressive Fund	165,243	227,895
John Hancock Lifestyle Real Return Bond	164,453	160,786

NOTE 5 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 22, 2003, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator currently believes the Plan is designed as is currently being operated in compliance with the applicable requirements of the IRC and therefore believer that the Plan is qualified and the related trust is tax exempt.

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any desire to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

The plan holds units in various pooled separate accounts and stable value investments of John Hancock Life Insurance Company. These transactions qualify as allowable party-in-interest transactions under the provisions of ERISA.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in certain investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.
