IA 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – Description of the Plan:

The following description of the IA 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Interior Architects, Inc. (the "Company"). Employees who are age 21 or older are eligible to participate in the Plan on the first day of employment except for union members and residents of Puerto Rico. Participants can increase or decrease their payroll deduction and make changes to their investment allocation at any time. In addition, the Company has adopted automatic enrollment for all new hire employees. Effective July 5, 2011, the automatic enrollment percentage starts at 5% and increases each year thereafter by 1% to a maximum of 8%. Employees have 30 days to opt out of the automatic enrollment process. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Participants may annually contribute, on a pretax basis, up to 60% of their eligible compensation, as defined by the Plan. Contributions are subject to annual limits specified under the Internal Revenue Code. The annual limitation was $17,500 for 2013 and $23,000 for participants who are age 50 or older by the end of the year. Participants are also allowed to rollover contributions from other qualified employer-sponsored retirement plans and individual retirement accounts.

The Company may make a discretionary matching contribution as determined by the Company's Board of Directors that is equal to a percentage of the amount the participant deferred. To be eligible for the discretionary matching contributions, participants must be employed by the Company on the last day of the plan year. In 2013, the Company did not make a discretionary matching contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, and allocations of (a) Company discretionary matching, if any, and (b) Plan earnings and losses. Allocations are determined in accordance with the provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon and are immediately 100% vested in the Company's discretionary matching contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms may not exceed five years unless the loan is used to purchase a participant's principal residence, in which case repayment must be made within 10 years. Loans are secured by the participant's account and bear interest at 4.25%, which is commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service, or upon attainment of age 59½, death, disability, or retirement, participants may elect to receive a lump-sum amount or installment payments equal to the value of their vested account balance. Hardship distributions are permitted if certain criteria are met. Employees with an account balance below $5,000 are automatically paid out and the account closed upon termination.

NOTE 2 – Summary of Accounting Policies:

Basis of Accounting

The accompanying financial statements and supplemental schedule of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The accompanying Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The accompanying Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited accounts totaled $2,250 and $2,226, respectively. The balance consists of outstanding checks issued in previous years for distribution and were not cashed as of December 31, 2013 and 2012. These checks were deemed to be forfeited and returned to the Plan. The Plan still intends to reissue the checks to the appropriate former participants.

Expenses

The Company pays substantially all of the Plan's administrative expenses except for loan fees. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Fidelity Managed Income Portfolio

The Plan has a fully benefit-responsive investment contract with Fidelity Management Trust Company known as the Fidelity Managed Income Portfolio ("MIP"). The MIP is an open-ended commingled pool dedicated exclusively to the management of assets of defined contribution plans. The MIP invests in underlying assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into a "wrapper" contract issued by a third-party. The value of the MIP is stated in the accompanying financial statements and supplemental schedule at contract value (which represents contributions made under the contract, plus earnings, less withdrawals and expenses) because it is fully benefit-responsive. There are no reserves against contract value for

credit risk of the contract issuer or otherwise. The average yield for 2013 and 2012 was approximately 0.72% and 1.03%, respectively. The crediting interest rate at December 31, 2013 and 2012 was 0.89% and 1.05%, respectively.

NOTE 3 – Investments:

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, and net change in fair value of investments, interest and dividends for the year ended December 31, 2013, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company.

Investments that represent 5% or more of the fair value of the Plan's net assets are as follows:

	December 31,	
	2013	2012
Fidelity Blue Chip Growth Fund	$1,537,988	$1,100,206
Fidelity Diversified International Fund	1,315,183	1,140,732
Spartan 500 Index Fund	1,351,923	809,561
Fidelity Dividend Growth Fund	1,195,765	933,051
Wells Fargo Common Stock	990,042	782,266
Fidelity Freedom 2035 Fund	926,190	**
Spartan U.S. Bond Index Investor	*	888,703

* Fair value of investment is less than 5% of net assets at December 31, 2013
** Fair value of investment is less than 5% of net assets at December 31, 2012.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $2,086,714 as follows:

Mutual funds	$ 2,086,714
Net appreciation in fair value of investments	$ 2,086,714

NOTE 4 – Fair Value Measurements:

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be provable the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Investment Assets at Fair Value As of December 31, 2013

NOTE 5 – Related-Party Transactions and Party in Interest Transactions:

Certain Plan investments are shares of mutual funds and common/collective trusts managed by Fidelity Management Trust Company ("Fidelity"). Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

NOTE 6 – Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. The Company may direct that either (a) benefits be distributed to the participants in any manner permitted by the Plan as soon as practicable, or (b) the trust created by the Plan be continued and benefits be distributed to the participants or their beneficiaries as if the Plan had not terminated. Benefits under the Plan are not insured by the Pension Benefit Guaranty Corporation ("PBGC"), as that insurance does not apply to profit-sharing plans or salary deferral plans.

NOTE 7 – Tax Status:

The Company has adopted a prototype plan, which received an opinion letter from the Internal Revenue Service dated December 5, 2001. Although the Plan has been amended since receiving the opinion letter, the Company believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The Plan Administrative Committee has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 – Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net assets Available for Benefits.

NOTE 9 – Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31,	
	2013	2012
Net assets available for benefits per the financial statements	$ 16,271,863	$ 12,227,631
Adjustment from contract value to fair value for fully benefit responsive investment contract	8,475	12,062
Net assets available for benefits per the Form 5500	$ 16,280,338	$ 12,239,693

The following is a reconciliation of the net increase in net assets available for benefits as reported on the accompanying financial statements to the net increase as reported on the Form 5500 for the year ended December 31, 2013:

Net increase in net assets available for benefits per the financial statements	$ 4,044,232
2012 Adjustment from contract value to fair value for fully benefit-responsive investment contract	(12,062)
2013 Adjustment from contract value to fair value for fully benefit-responsive investment contract	8,475
Net increase in net assets available for benefits per the Form 5500	$ 4,040,645

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to year-end, but not yet paid as of that date.

NOTE 10 – Subsequent Events:

The Plan has evaluated subsequent events through August 21, 2014, the date the accompanying financial statements were available to be issued, and has determined there were no material events to disclose.
