Note A - Description of the Plan

The following description of the Schimenti Construction Company, LLC ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a salary deferral defined contribution plan established effective January 1, 1998 and subsequently amended effective November 1, 2013. For the years ended December 31, 2013 and 2012, all employees of the Company were eligible to participate once they had completed ninety (90) days of service and had attained age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

The Company is the Plan's named fiduciary and plan administrator. Principal Financial Group ("the Principal") is the TPA and custodian of the Plan, who holds the Plan's investment assets and executes investment transactions. The Principal prepares statements for participants, which include amounts of contributions, investment income, disbursements and fair value of investments, along with calculating distributions in the event of a participant's termination of employment.

Contributions

Participant's salary reduction election:
The total deferral in 2013 and 2012 may not exceed $17,500 and $17,000, respectively. These amounts are adjusted annually in accordance with the Internal Revenue Service. Participants who will reach age 50 by the end of the tax year may contribute an additional $5,500.

Employer matching contribution:
The Company may make a qualified matching contribution of 50% up to the first 6% contributed. Any participant actively employed during the Plan year shall be eligible to share in the matching contribution for the plan year. The Company's matching contributions to the Plan for the years ended December 31, 2013 and 2012 was $98,612 and $99,357, respectively.

Employer discretionary contribution:
The Company may make a discretionary contribution. Participants are eligible if they are active on the date of the contribution and have 1,000 or more hours of service in the plan year. Also, any participants who were active at any time during the plan year and had retired, died or became totally disabled will be eligible. The Company did not make a discretionary contribution to the Plan for the years ended December 31, 2013 and 2012.

Note A - Description of the Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 20% vested after two (2) years of service, 40% after three (3) years, 60% after four (4), 80% after five (5) and 100% vested after six (6) years of service.

Participant accounts

Each participant's account is credited with the participant's deferrals and the Company's matching contribution and Plan earnings. Plan contributions are participant directed and are invested in one or more investment vehicles available to participants under the Plan. Earnings and losses are determined by individual investment vehicle performance.

Investment options

Upon enrollment in the Plan, a participant may direct employee contributions and employer discretionary contributions in any whole percent increments in any of the various investment options available by the Plan. Participants may change their investment options on a daily basis.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the non-forfeitable accrued benefit of the participant under the Plan. Loan terms range for 1-5 years, unless the proceeds are used for the purchase of a principal residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Hardship withdrawals

Participants may elect, subject to specific circumstances as defined in the Plan, to receive all or part of elective deferral contributions (not earnings) for immediate and severe financial need. Participants receiving a hardship withdrawal are suspended from making salary reduction contributions to the Plan for a six month period following the distribution.

Note A - Description of the Plan (continued)

Forfeitures

If excess 401(k) elective deferral contributions are refunded to a participant, any matching contributions will be forfeited. If the participant is a highly paid employee, the law may limit their contributions and the Company's matching contributions. If 401(k) elective deferral contributions are refunded to the participant, any matching contributions made because of these 401(k) elective deferral contributions will be forfeited. Matching contributions which are forfeited because of these limits reduce the Company's future contributions. Forfeitures for the year ended December 31, 2013 and 2012 were $12,616 and $4,550, respectively.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments in accordance with IRS regulations. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note B - Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions

Employee and employer contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings.

Note B - Significant Accounting Policies (continued)

Investment valuation and income recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Plan expenses

The Company has elected to charge administrative fees to the Plan's trust and all other expenses are paid by the Company.

Note C - Fair Value Measurements

Accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy are described below:

Level 1 Inputs: Valuation based on quoted prices in active markets for identical assets or liabilities that a reporting entity has the ability to access at the measurement date, and where transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 Inputs: Valuation based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, that is markets in which there are few transactions, prices are not current, or prices vary substantially over time.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs: Valuation based on inputs that are unobservable and significant to the fair value measurement.

Note C - Fair Value Measurements (continued)

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2013.

Guaranteed Interest Accounts

The guaranteed interest accounts are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed interest accounts is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. (See Note F). The redemption frequency for these funds is daily with a 7-180 day redemption notice period.

Pooled Separate Accounts

The Plan holds pooled separate investment accounts. The value of a separate account is its market value less operating expenses accrued but not deducted, if any. If there is no readily available market, its value is the fair value of the underlying investments held in such separate account as determined by the Principal using generally accepted accounting practices and applicable law (See Note F). The redemption frequency for these funds is daily with a one day redemption notice period.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value:

		Based on:	
December 31, 2013	**Fair Value**	**Significant Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
Pooled separate accounts	$ 4,130,406	$ 4,130,406	$ -
Guaranteed interest accounts	109,380	-	109,380
Total assets at fair value	$ 4,239,786	$ 4,130,406	$ 109,380

Note C - Fair Value Measurements (continued)

December 31, 2012	Fair Value	Based on: Significant Observable Inputs (Level 2)	Based on: Significant Unobservable Inputs (Level 3)
Pooled separate accounts	$ 3,528,381	$ 3,528,381	$ -
Guaranteed interest accounts	106,774	-	106,774
Total assets at fair value	$ 3,635,155	$ 3,528,381	$ 106,774

The effect of Level 3 inputs on net assets for the year ended December 31, 2013 is as follows:

	Fair Value Measurement Using Unobservable Inputs (Level 3) Guaranteed Interest Accounts
Beginning balance	$ 106,774
Total gains or losses (realized and unrealized) included in changes in net assets	(141)
Interest earned	70
Purchases	74,608
Sales	(71,931)
Transfers in and out of Level 3	-
Ending balance	$ 109,380
Total amount of total gains and losses for the period included in changes in net assets relating to assets still held at the reporting date	$(141)

Note D - Certified Financial Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Principal, the custodian, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2013	2012
Pooled separate accounts	$ 4,130,406	$ 3,528,381
Guaranteed interest accounts	109,380	106,774

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

Principal Life Insurance Company Prin Money Market Sep Acct-R6	409,168	390,727
Principal Life Insurance Company Prin SmallCap Growth I SA-R6	315,909	235,185

Note F - Deposits with Insurance Company

Pooled separate accounts

The Plan includes separate accounts as investments options through group annuity contracts with the Principal Financial Group. A separate account is an account segregated from the insurance company's general account that holds assets allocated to that account. These accounts are credited with the income, gains, or losses resulting from the assets allocated to the account but are not credited with the income, gains, or losses resulting from the insurance company's general account or any other separate account.

Guaranteed interest accounts

The guaranteed interest account provides a guaranteed interest rate for a specified period of time as determined by the Plan custodian, or allowed, by the Plan. The rate credited is the rate in effect on the day when each deposit is directed to the account. All rates credited during the12-month "deposit year" are averaged into a single composite rate. The guaranteed interest accounts are supported by Principal Life Insurance Company's general account. The fair value of the accounts is the amount that would be paid any time funds are withdrawn or transferred within the Plan prior to their maturity (for an event other than death, disability, termination, or retirement) and reflects a surrender charge, if applicable, according to the terms of the Plan's contract.

Note G - Nonexempt Transactions

During 2012 and 2013, the company failed to remit participant's contributions to the Plan in a timely manner, as defined in the Department of Labor (DOL) regulations, totaling approximately $203,582. The Company corrected this oversight during 2013 by restoring to the plan lost earnings attributable to the period during which the deposit was late. The Company also paid the applicable excise tax to the IRS.

Note H - Related Party Transactions

Certain Plan investments are managed by affiliates of the Principal, who is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

Note I - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of full termination, partial termination, or the complete discontinuance of contributions by the Company, all amounts credited to the affected participants' combined accounts shall become 100% vested.

Note J - Tax Status

The Internal Revenue Service has determined and informed the Principal by a letter dated March 31, 2008 that the Principal's prototype plan, which has been adopted by the Company, is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note K - Risk and Uncertainties

The Plan provides the participant with options of investing in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

Note L - Subsequent Events

Management has evaluated subsequent events through September 2, 2014, the date on which the financial statements were available to be issued.

Effective July 1, 2014 the Plan transferred the investments from their current TPA and custodian, the Principal, to Fidelity Management Trust Company. From that date forward, Fidelity Management Trust Company will serve as the Plan's TPA and custodian.
