SOVENA USA, INC.
401(k) PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of Plan

The following description of the Sovena USA, Inc. (Company) 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all employees of the Company. There are no age or service requirements to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustee is responsible for oversight of the Plan.

(b) Contributions

Each year, participants may contribute a percentage of their pretax annual compensation as defined in the Plan, up to the maximum allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may elect to make a discretionary matching contribution to the Plan on behalf of each participant equal to the percent declared for the contribution period as determined by the board of directors of the Company. In 2013 and 2012, the Company's matching contribution was 50% of the amount of the participant's contribution, up to a maximum of 6% of eligible compensation. Contributions are subject to certain IRS limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and Company discretionary matching contributions, if any, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(Continued)

(1) Description of Plan, Continued

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant vests according to the following schedule:

Years of service	Vesting percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

(e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of the value of their vested balance. Loan terms range from one to five years, unless for the purchase of a primary residence, in which case, the maximum duration of the loan may be up to thirty years. The loans are secured by the balance in the participant's account and bear interest at 4.25%, which is based on local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through biweekly payroll deductions.

(f) Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or may elect to defer distribution until a later date, as defined by the Plan.

(g) Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $4,358 and $2, respectively. These accounts will be used to reduce future employer contributions. Also, in 2013 and 2012, employer contributions were reduced by $8,621 and $16,134, respectively, from forfeited nonvested accounts.

(Continued)

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for fully benefit-responsive investment contracts. Contract value is based on information reported by the investment advisor using the audited financial statements of the collective trust fund at December 31, 2013 and 2012.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by investment advisers and the custodian. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(2) Summary of Significant Accounting Policies, Continued

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

(e) Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 and 2012 excess contributions to the applicable participants prior to March 15, 2014 and 2013, respectively.

(f) Payment of Benefits

Benefits are recorded when paid.

(g) Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's accounts and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

(h) Subsequent Events

During 2014, the Company passed a resolution to merge the Plan into the Sovena USA, Inc. Profit Sharing plan renaming it as the Sovena USA, Inc. 401(k) & Profit Sharing Plan. Effective March 1, 2014, the Company transferred funds and custodial responsibilities from MG Trust Company, LLC to Fidelity Management Trust Company.

The Plan has evaluated subsequent events through August 18, 2014, the date the financial statements were available to be issued.

(4) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(4) Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value of Investments in Entities that use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013 and 2012:

December 31, 2013		Fair value	Unfunded commitments	Redemption frequency	Redemption notice period
Collective trust fund	$	45,477	N/A	Daily	None

December 31, 2012		Fair value	Unfunded commitments	Redemption frequency	Redemption notice period
Collective trust fund	$	58,071	N/A	Daily	None

The objective of the collective trust fund is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology allowing for preservation of capital and stable returns. The fund invests in investments contracts and security-backed contracts.

(5) Information Certified by the Plan's Custodian

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

	December 31, 2013	2012
Investments:		
Mutual funds	$ 2,007,086	1,741,643
Collective trust fund at contract value	45,116	56,434

Interest and dividends	56,507	54,643
	$ 384,856	208,040

All information in the supplemental schedule is presented solely upon the certification except for the fair value of the collective trust fund and participant loans.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(6) Related-Party Transactions and Party-in-Interest Transactions

Fees incurred by the Plan for the investment management services are included in net appreciation of fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in note 2, the Plan made direct payments to third-party administrators of $3,859 and $2,884 in 2013 and 2012, respectively, which was not covered by revenue sharing. The Plan sponsor pays directly any other fees related to the Plan's operations.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(8) Tax Status

The Internal Revenue Service (IRS) has determined that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan utilizes a non-standardized prototype document. The IRS has issued an opinion letter to the prototype sponsor on July 1, 2009. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

(Continued)

(8) Tax Status, Continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(9) Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(10) Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31 to Form 5500:
