Camuto Consulting 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Camuto Consulting 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document and summary Plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan sponsor.

(a) General

The Plan is a defined contribution plan covering substantially all employees of Camuto Consulting, Inc. (the "Company"), which includes the employees of Hot on Time LLC, VC Accessories LLC, VC Footwear LLC, VCJS LLC, VCS Group LLC and Vince Camuto LLC and any participating affiliates, who have completed six months of service, are age 21 or older and are not a leased employee. On October 28, 2012, the Company acquired full ownership of VM Retail Ventures, LLC. Accordingly, employees of VM Retail Ventures, LLC became eligible to participate in the Plan on May 1, 2013. The Plan was amended effective May 1, 2013 to exclude employees classified as sales associates or key holders.

Effective April 1, 2014, employees are required to complete one month of service to be eligible to participate in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Investments are participant directed, and the Plan uses Fidelity Management Trust Company as the Trustee.

(b) Contributions

Each year, participants may contribute up to 60% of pre-tax annual eligible earnings, as defined in the Plan document, through a salary reduction. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants also may contribute amounts from other eligible retirement plans, as defined in the Plan document. Contributions are subject to certain annual limitations as imposed by the Internal Revenue Service ("IRS"). The Company also may make annual discretionary matching contributions, annual discretionary profit-sharing contributions, or other qualified nonelective contributions. For the years ended December 31, 2013 and 2012, the Company made a matching contribution of one third of participant contributions up to the first 6% of the participant's eligible compensation, as defined in the Plan document.

(c) Participant Accounts

The Plan maintains individual accounts for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's matching contributions, if any, and allocations of Plan earnings or losses, and charged with an allocation of administrative fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their employee pre-tax contributions, rollover contributions, employer matching contributions, qualified nonelective contributions and any earnings thereon.

Camuto Consulting 401(k) Plan

Notes to Financial Statements

(e) Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan, which include investments in a money market fund, a commingled trust fund and various mutual funds.

(f) Payments of Benefits

Participants are eligible to receive a distribution of their vested account balance under the following circumstances: (a) retirement, (b) termination of employment, (c) disability, and (d) death. Participants also are entitled to hardship withdrawals.

(g) Notes Receivable From Participants

Participants may borrow from their vested accounts an amount not less than \$1,000 and not to exceed the lesser of \$50,000 or 50% of their vested account balance. Loan terms range up to five years, but can be longer for the purchase of a primary residence. The loans are secured by the participant's account balance and bear interest at a rate of 4 percent, which is commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

2. Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment from fair value to contract value relating to the fully benefit-responsive investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

(b) Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect reported amounts and disclosures in the financial statements and supplemental schedule. Accordingly, actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for a discussion of fair value measurements.

The Plan presents in the statements of changes in net assets available for benefits the net appreciation or depreciation in the fair value of investments, which consists of realized gains or losses and unrealized appreciation or depreciation on investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Camuto Consulting 401(k) Plan

Notes to Financial Statements

(d) Risks and Uncertainties

The Plan provides for investments in various investment securities that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term, and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(e) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

(f) Notes Receivable From Participants

Notes receivable from participants are stated at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent notes receivable are reclassified as a distribution based on the terms of the Plan document. Fees charged by the Trustee relating to notes receivable from participants are paid from the participants' accounts and are included in administrative expenses and expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012.

(g) Excess Contributions Refund Payable

During 2012, contributions by highly compensated participants exceeded the maximum amount under the Internal Revenue Code ("IRC"). At December 31, 2012, a liability of \$49,203 was recorded for the amount refundable by the Plan to these participants for excess contributions. The balance due as of December 31, 2012 was paid in 2013. There was no liability for excess contributions refund payable to participants as of December 31, 2013.

(h) Administrative Expenses

Expenses related to processing fees for loans are deducted from the respective participants' accounts. Other expenses incurred in the administration of the Plan, including recordkeeping and trust fees, are paid by the Company. Investment-related expenses are included in net appreciation of fair value of investments.

3. Information Certified by the Trustee

The following is a summary of the information regarding the Plan as of December 31, 2013 and 2012 and for the years then ended, included in the Plan's financial statements and supplemental schedule, that was prepared by, or derived from, information prepared by the Trustee of the Plan and furnished to the Plan administrator. The Plan administrator has obtained certification from the Trustee that such information is complete and accurate.

During the years ended December 31, 2013 and 2012, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,741,870 and \$779,375, respectively.

5. Fair Value Measurements

The Plan follows the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurement." ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Notes to Financial Statements

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The following tables set forth the level, and, for mutual funds, their investment class, within the fair value hierarchy, of the Plan's assets at fair value.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- *Mutual funds* – Valued at unadjusted quoted market prices, which represent the net asset value of shares owned by the Plan at year-end.
- *Commingled fund* – Valued at fair value. Fair value is the value of the units owned by the Plan. Unit value is based on the fair value of the underlying assets of the fund derived from inputs principally from or corroborated by observable market data by correlation or other means.
- *Money market fund* – Valued at unadjusted quoted market price, which represents the net asset value of the shares owned by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Investment in Commingled Fund

The Plan holds an investment in the Fidelity Managed Income Portfolio Fund (the “MIP”). The MIP is a commingled pool of the Fidelity Group Trust for Employee Benefit Plans and is managed by Fidelity Management Trust Company. The MIP invests in investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds to provide daily liquidity. The investment contract issuers seek to preserve the principal investment and earnings, but cannot guarantee that they will be able to do so. The MIP is included in the Plan’s financial statements at fair value adjusted to contract value, as described in Note 2. There are no reserves against contract value for credit risk of the contract issuers or otherwise.

Camuto Consulting 401(k) Plan

Notes to Financial Statements

The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the MIP's constant net asset value of \$1 per unit. Distributions to the MIP's unit holders are declared daily from the net investment income and automatically reinvested in the MIP on a monthly basis, when paid. It is the policy of the MIP to use its best efforts to maintain a stable net asset value of \$1 per unit, although there is no guarantee that the MIP will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the MIP, plus earnings, less participant withdrawals and administrative expenses.

For the years ended December 31, 2013 and 2012, the MIP had an average crediting interest rate of 1.54% and 1.70%, respectively, and an average yield, based on both actual earnings and interest rate credited to participants, of 0.89% and 1.05%, respectively.

The MIP does not have a finite life. The Plan does not have unfunded commitments relating to its investments in the MIP, or significant restrictions on redemptions. However, certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the Plan to qualify for exemption from Federal income taxes or any required prohibited transaction exception under ERISA. The Plan administrator believes that the occurrence of any such value event that would limit the Plan's ability to transact at contract value with participants is not probable.

7. Related Party Transactions

Certain Plan investments are managed by the Trustee. Any purchases and sales of these funds are performed in the open market at fair value and qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Notes receivable from participants also qualify as exempt party-in-interest transactions.

8. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will remain fully vested in their accounts.

9. Tax Status

The Plan adopted the Trustee's volume submitter plan that received a favorable opinion letter from the IRS dated March 31, 2008, which stated that the prototype plan meets the requirements of IRC Section 401(a). The Plan administrator believes the Plan is designed and operated in accordance with, and continues to qualify under the applicable requirements of, the IRC and that the Trust is exempt from Federal income taxes.

Notes to Financial Statements

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.
