Omnicare Acquisition Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

Beginning in November 2003, Omnicare, Inc. (the "Company") transferred and merged the net assets of several of its defined contribution plans that were acquired through various acquisitions into Omnicare Acquisition Plan and terminated the merged plans. In connection with the merger of the acquired defined contribution plans, the existing participants became eligible to participate in the Omnicare Employees' Savings and Investment Plan. The following description of Omnicare Acquisition Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan available to all participants of an acquired plan as outlined in the plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan is frozen and contributions are not allowed by the Plan.

Participant Accounts - Each participant's account is credited with allocations of the plan earnings and charged with an allocation of administrative expenses. Allocations are based on a participant's compensation or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan. Effective January 1, 2007, participants may diversify their Omnicare, Inc. common stock investment after three years of service, based on the participant's age. Additionally, the Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in publicly traded securities.

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount or annuity equal to the vested balance of a participant's account.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is in accordance with the respective acquired plan's plan document and is generally based on an employee's years of service.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures can be used to pay plan expenses at the discretion of the Company or reallocated to participants, in accordance with the respective acquired plan's plan document. At December 31, 2013 and 2012, forfeited account balances totaled \$362,755 and \$605,930, respectively.

Omnicare Acquisition Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Charles Schwab Bank or its affiliates. Charles Schwab Bank is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Certain plan assets are in investments in the Company's stock. The Company is the sponsor of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Various administrative costs are paid for by the Company.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Participant Notes Receivable - The Plan does not allow for new participant notes receivable. Existing balances are carried forward from acquired plans. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value, except for the stable value common collective trust fund, which is valued at contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 5, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Charles Schwab Bank (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments included in end of year net assets are as follows:

	2013	2012
Mutual funds:		
Vanguard Institutional Index	\$ 28,965,954	\$ 24,537,385
Vanguard Short Term Treas Adm	5,303,916	6,401,346
Vanguard Wellington Admiral Sh	24,036,453	22,250,335

PIMCO Total Return Fund	7,851,486	9,874,212

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Omnicare Acquisition Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 4 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Common Stock - Common stocks are valued at closing quoted prices reported in active markets.

Money Market Funds - Money market funds are valued at closing quoted prices reported in active markets or at the outstanding balance, which is the best estimate of fair value.

Common Collective Trust Fund - The stable value common collective trust fund (Federated Capital Preservation Fund) investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the stable value common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the stable value common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund.

Omnicare Acquisition Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 4 - Fair Value Measurements (Continued)

The stable value common collective trust fund primarily holds guaranteed investment contracts, fixed-income securities, and derivatives. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

The remaining common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

Self-directed Brokerage Accounts - The Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in publicly traded securities which are valued at the closing quoted prices reported in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2013.

Omnicare Acquisition Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 4 - Fair Value Measurements (Continued)

The Plan also holds other assets not measured at fair value on a recurring basis, including participant notes receivable and accrued income. The fair value of these assets approximates the carrying amounts in the accompanying financial statements due to either the short maturity of the instruments or the use of interest rates that approximate market rates for instruments of similar maturity.

Note 5 - Nonparticipant-directed investments

The significant components of the changes in net assets relating to the nonparticipant-directed investments for the year ended December 31, 2013 are as follows:

Net realized and unrealized gains	\$ 42,088
Benefits paid directly to participants or beneficiaries	(11,027)
Transfers to participant-directed investments	<u>(9,990)</u>
Net realized and unrealized gains	<u>\$ 21,071</u>

Note 6 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has received a determination letter from the IRS.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.
