Educate, Inc. 401(k) Retirement Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan description

The following description of the Educate, Inc. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions. Copies of this summary are available from Educate, Inc. (the "Company") or Plan sponsor.

General

The Plan is a defined contribution plan covering all part-time and full-time regular employees. Participants must complete one year of service with 800 hours of service, and be employed as of the last day of the Plan year in order to be eligible for employer matching and discretionary contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All investment programs are participant-directed. At December 31, 2013, the Plan offers 27 investment options into which participants may direct their investments. Participants have the opportunity to change their investment options daily.

Contributions

Participants may contribute any percentage of their pretax annual compensation, not to exceed net take home pay, as defined by the Plan. For 2013 and 2012, the maximum statutory limit for employee deferrals is \$17,500 and \$17,000, respectively. For 2013 and 2012, employees 50 years of age or older could defer a maximum of \$23,000 and \$22,500, respectively. In addition, employees may rollover distributions received from other plans. The Company can make a discretionary matching contribution equal to up to 50% of the first 6% of a participant's compensation that is deferred to the Plan. There was no discretionary matching contribution for the years ended December 31, 2013 and 2012.

Participant accounts

Each participant account is credited with the participant's contribution and an allocation of: (a) the Company's contribution; (b) Plan earnings; and (c) forfeitures of additional Company discretionary contributions related to terminated participants' nonvested accounts, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Company's discretionary matching contributions plus earnings thereon is based on years of continuous service at a rate of 33⅓% per year, including the first year of service. A participant is 100% vested after three years of service.

Participant notes receivable

Participants may borrow from their account balances a minimum of \$1,000, up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Principal and interest are repaid ratably through payroll deductions over loan terms, which generally do not exceed five years. Interest is charged between 4.25% and 6% on all outstanding loans as of December 31, 2013.

Educate, Inc. 401(k) Retirement Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Payment of benefits

Participants may withdraw voluntary after tax contributions, qualified rollovers, and transfers into the Plan, and earnings thereon, at any time. Pre-tax deferrals, vested employer-matching contributions, and vested employer discretionary contributions, if any, may be withdrawn upon attaining age 59-½ or employment termination. All employee contributions may be withdrawn upon termination of employment. Upon termination of service, participants receive a lump sum payment of benefits. Hardship withdrawal is allowed but is limited to certain types of contributions, as defined.

Forfeited accounts

Forfeited balances of terminated participants' nonvested accounts are invested in units of collective trust and used to reduce expenses related to the administration of the Plan and then to reduce future employer contributions. As of December 31, 2013 and 2012, the balance of the nonvested accounts available to reduce further employer contributions was \$19,453 and \$15,125, respectively.

Plan termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2 - Significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

The Plan's investments are stated at fair value. Quoted market prices are used to value these investments.

Investments in units of collective trust are valued at the respective net asset values. The fair value of the investment contracts at December 31, 2013 and 2012 was \$61,202 and \$1,027,876, respectively. Contract values represent contributions and reinvested income, less any withdrawals, plus accrued interest. At December 31, 2013 and 2012, there are no reserves against contract values for credit risk of contract issuers or otherwise. The crediting rate for these investment contracts is reset biannually by the issuer. The crediting rate was 1.449% and 1.816% at December 31, 2013 and 2012, respectively.

Notes to Financial Statements December 31, 2013 and 2012

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold and held during the year.

The methods described above produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant notes receivable

Participant notes receivable are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

Payment of benefits

Benefits payments to participants are recorded upon distribution.

Administrative expenses

Administrative expenses are paid by the Plan. The participant is responsible for certain costs and expenses attributed to their individual participant account. The investment fees of the trustee are paid by the Plan, while substantially all other expenses, after considering forfeitures, are paid by the Company.

Income taxes

The Plan has received a determination letter from the Internal Revenue Service dated November 19, 2004, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 3 - Fair value measure

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Educate, Inc. 401(k) Retirement Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

Note 6 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.
