1. DESCRIPTION OF THE PLAN

The following description of the Spruce Grove Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is intended to qualify under Section 401(k) of the Internal Revenue Code of 1986, as amended (the "Code" or "IRC").

General

The Plan is a trusted profit sharing 401(k) plan. The Plan, effective October 1, 2002, provides retirement benefits to employees of Spruce Grove, Inc. and its affiliates (collectively referred to as the "Company"), owned or controlled by James A. Carter. The Company is the "Plan Sponsor"; Automatic Data Processing is the "Plan Administrator" or "TPA"; and Reliance Trust Company is the "Trustee" as of December 31, 2013 and for the year then ended.

Eligibility

Employees of the Company are eligible to participate in the Plan on the first day of the month following one year of employment and having reached age 21.

Employee Contributions

Employee contributions are allowed through tax-deferred deposits of 1% to 90% of the employee's earnings up to the maximum contribution allowed under Section 404(a) of the Code. The maximum contribution allowed for 2013 was $17,500. Participants age 50 can defer an additional amount in excess of the dollar limit in the Code. For the 2013 Plan year, the maximum catch-up contribution was $5,500. Employees may change their elective deferral percentage or discontinue their contributions at any time.

Excess Contributions Payable

The Plan is required to refund contributions received during the Plan year in excess of the IRC limits. At December 31, 2013, the Plan had approximately $13,000 in corrective distributions payable to one participant, which are included in excess contributions payable to participants in the accompanying statements of net assets available for benefits. The excess contributions payable as of December 31, 2013 were paid in March 2014. At December 31, 2012, the Plan did not have excess contributions payable to participants.

1. DESCRIPTION OF THE PLAN (continued)

Employer Contributions

The Company may make discretionary matching contributions to the Plan. In order to receive the discretionary matching contribution, the participant must make elective deferrals to the Plan. During 2013, the Company made no such contributions.

In addition, the Company may make additional discretionary contributions each year to all employees who are eligible to participate in the Plan. No such additional discretionary contributions were made during 2013.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer contributions, as well as the participant's share of the Plan's income and any related administrative expenses. Allocations are based on the proportion of each participant's account balance to the total of all account balances.

Investment Options

Upon enrollment in the Plan, a participant may direct both employer and employee contributions into the various investment options offered by the Plan.

Vesting

Employee voluntary contributions are 100% vested when contributed. Company contributions vest ratably over six years beginning at the end of the first Plan year in which they work at least 1,000 hours, at 20% per year. Participants become fully vested in Company contributions upon attainment of normal retirement age of 65, upon retirement due to disability, upon death, and upon termination of the Plan, as defined, at which time such balances may be withdrawn.

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

If participation in the Plan is terminated by reason other than resignation or dismissal prior to retirement, the participant will become entitled to the entire balance in their account.

1. DESCRIPTION OF THE PLAN (continued)

Notes Receivable from Participants

Participants may borrow from their vested account balances a minimum of $500 up to the lesser of $50,000 or 50% of their vested account balance. The loans are to be secured by the balance in the participant's account and bore interest ranging from 5.25% to 6.00% as of December 31, 2013 and 2012. Principal and interest are paid ratably through payroll deductions.

Benefit Payments

Upon termination of service before the normal retirement age of 65, a participant may elect to defer distribution until normal retirement age or receive a lump-sum payment equal to the vested share of the participant's account. Upon termination of service, including retirement, termination, disability or death, a participant may elect to receive a lump-sum amount equal to the vested value of his or her account or installments over a period of not more than the assumed life expectancy determined at the time of distribution. If the value of the participant's account exceeds $5,000, the participant may elect to receive monthly installments or keep the account in the Plan and maintain his or her account in any of the Plan's investment options until age 70½.

Participants may also withdraw funds while they are employed. A participant may withdraw all or part of his/her vested balance once age 59½ is reached. Also, a participant may withdraw all or part of his/her rollover contributions or after-tax contributions in the Plan at any time and at any age. In the event of a qualifying financial hardship, as defined, a participant may withdraw elective deferrals, less interest earned, as well as any vested nonelective contributions made by the Company, subject to certain restrictions and excise taxes.

Forfeitures

Forfeitures result from termination of employment before full vesting has occurred. Forfeitures stay in the Plan and are used to offset future employer contributions. Since the employer has historically never contributed to the Plan, there are no forfeitures as of December 31, 2013 and 2012 or for the year ended December 31, 2013.

Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. If the Plan is terminated, benefits earned become fully vested as of the date the Plan is terminated.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of additions to, and deductions from, net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options in any combination of stocks, bonds, fixed-income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. The Plan's exposure to credit loss in the event of nonperformance by other parties to directly and indirectly owned financial instruments is limited to the carrying value of such instruments. The Plan's concentrations of credit risk are dictated by the Plan's provisions as well as those of ERISA and participants' investment preference.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds and money market portfolio are valued at the quoted market prices. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. The net realized and unrealized gains and losses are reflected in the statement of changes in net assets available for benefits as net appreciation (depreciation) in the fair value of investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Administrative Expenses

Certain administrative expenses, including legal and accounting, are paid by the Company and accordingly are not reflected in the accompanying financial statements of the Plan. Certain transaction processing fees are charged to the participants and, therefore, are reflected in the accompanying statement of changes in net assets available for benefits as administrative expenses.

Notes Receivable from Participants

Notes receivable from participants reflected in the accompanying statements of net assets available for benefits are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Subsequent Events

The Plan evaluated subsequent events for their potential impact on the financial statements and disclosures through September 5, 2014, which is the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan Administrator obtained certifications from the Trustee that the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, at fair value, and notes receivable from participants, as reflected in the statements of net assets available for benefits as of December 31, 2013 and 2012, and investment income and interest income on notes receivable from participants, as reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA states, in part, that any statement of information prepared and certified by the Plan's Trustee need not be audited or reported on by an independent public accountant. Pursuant to that regulation, the Plan Administrator has instructed its independent public accountants, Squar, Milner, Peterson, Miranda & Williamson, LLP, not to perform any auditing procedures with respect to information certified by the Trustee.

4. INVESTMENTS

Based on the information provided to the Plan Administrator and certified by the Trustee (Note 3), the following presents investments that represent 5% or more of the Plan's net assets as of December 31:

	2013	2012
Invesco Van Kampen Equity & Income Fund	$ 271,700	$ 194,197
BlackRock Large Cap Growth Fund	$ 57,226	$ 38,755
BlackRock Large Cap Value Fund	$ 60,558	$ 41,332
Franklin Small Cap Value Fund	$ 40,485	$ 27,770
Ready Assets Prime Money Fund	$ –	$ 39,363
Oppenheimer Global Opportunities Fund	$ 45,294	$ 29,955

5. FAIR VALUE MEASUREMENTS

The Plan adopted the provisions of FASB Accounting Standards Codification ("ASC") Topic No. 820, *Fair Value Measurements and Disclosures*, or ASC 820, with respect to its investments. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value.

This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The level in the fair value hierarchy is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The three levels of inputs used to measure fair value are as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

5. FAIR VALUE MEASUREMENTS (continued)

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Portfolio

The money market portfolio is valued at quoted market prices in an exchange and active markets, which represent the net asset values of shares, held by the Plan at year-end and are classified as Level 1 investments.

Registered Investment Companies

The shares of registered investment companies are valued at the net asset value of shares held by the Plan at year-end, based on published market quotations on active markets and are classified as Level 1 investments.

The Plan did not hold any Level 2 or 3 investments as of December 31, 2013 and 2012.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Total**

During the years ended December 31, 2013 and 2012, there were no investment transfers between Level 1 and Level 2 or in or out of Level 3. There were no changes in valuation methodologies as of December 31, 2013 and 2012.

6. TAX STATUS OF THE PLAN

The Plan obtained its last determination letter from the Internal Revenue Service on March 31, 2008. As of that date, the Plan was deemed to be designed to satisfy the qualification requirements, and consequently the related trust appeared to satisfy the tax-exempt requirement of the Code. The Plan has been amended since receiving such determination letter. However, the Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status and believes that the Plan is currently designed and being operated in compliance with the qualification requirements of the Code.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and the Plan could be subject to income tax if issues were found by the IRS that could result in the disqualification of the Plan's tax-exempt status; however, there are currently no audits in progress. Tax returns remain open for examination by applicable authorities for the statutory period of time.

7. PARTY-IN-INTEREST AND REPORTABLE TRANSACTIONS

No prohibited transactions with "parties-in-interest," as defined under ERISA, occurred during the Plan year ended December 31, 2013 and 2012. Administrative expenses of approximately $4,000 were paid to the TPA and Trustee by the Plan Sponsor for the Plan years ended December 31, 2013 and 2012, and are considered "parties-in-interest" transactions. Certain plan assets are managed by the Trustee.

Reportable transactions are transactions in excess of five percent of Plan assets, as defined under ERISA. Since the Plan's investments are entirely participant directed, there were no occurrences of reportable transactions required to be reported on a supplemental schedule for the year ended December 31, 2013.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2013 and 2012:

	2013	2012
Net assets available for benefits per the financial statements	$ 685,527	$ 497,537
Current year excess contributions payable to participants	13,068	–
Current year participant contributions receivable	–	(2,932)
Employer contributions receivable	(58)	(58)
Net assets available for benefits per the Form 5500	$ 698,537	$ 494,547

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2013:

Net increase in net assets available for benefits per the financial statements	$ 187,990
Current year excess contributions payable to participants	13,068
Prior year participant contributions receivable	2,932
Net increase in net assets available for benefits per Form 5500	$ 203,990

9. DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2012, the Company retained certain employee deferral elections of approximately $27,000 beyond the maximum limitations as defined by the Department of Labor Code of Federal Regulations Title 29, Chapter XXV, Part 2510.3-102. The withholdings were accounted for by the Company as unauthorized loans from the Plan that are subjected to interest due to the Plan and tax penalties due to the IRS. Management estimates the interest due on the late remittances approximates $58, which is included in employer contributions receivable in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012. Management intends to file the applicable Form 5330 with the IRS. The Plan Sponsor believes there were no nonexempt transactions during the year ended December 31, 2013.
