XLHealth Corporation 401(K) P/S PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan

The following description of the XLHealth Corporation 401(k) P/S Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by XLHealth Corporation ("the Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). All employees who have completed at least three months of service with the Company, as defined in the Plan, and are age 18 or older are eligible to participate. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of available investment options.

Effective July 1, 2012, the Plan was amended to freeze participation and contributions to the Plan. Participants are eligible to continue to request in-service withdrawals in accordance with the terms of the Plan document.

Contributions

Prior to the freeze, participants were able to contribute an amount up to the maximum dollar amount permissible under the Internal Revenue Code ("the Code"). Elective deferrals included pre-tax deferrals and Roth deferrals. Participants who have attained age 50 before the end of the plan year were able to make additional catch-up contributions, subject to limitations imposed by the Code.

The Company made a safe harbor matching contribution equal to 100% of applicable contributions up to 4% of compensation as defined in the Plan document. The Company could, in its discretion, contribute an additional amount to the Plan, to be distributed among participants pro rata based upon compensation within limitations as determined by the Code. No discretionary contributions were made for the year ended December 31, 2013.

Participant Accounts

Prior to the freeze, each participant's account was credited with the participant's salary reduction contributions, rollover contributions and an allocation of the Company's contributions and plan earnings (net of administrative expenses). Allocations were based on the participant's eligible compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments Classification

All investments are participant directed. Participants have the right to individually select the percentage of their accounts to be invested among different classifications of investments.

XLHealth Corporation 401(K) P/S PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan (cont.)

Vesting

Participants are immediately vested in their salary reduction, safe harbor match contributions, rollover contributions, and earnings thereon. Participants who leave the Plan because of death, early or normal retirement, or disability retirement, as defined in the Plan document, are considered 100% vested. Company discretionary contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 or more years	100%

Forfeited Accounts

As of December 31, 2013 and 2012, forfeited nonvested accounts totaled \$0 and \$27, respectively. For the year ended December 31, 2013, \$3,650 was used to reduce employer contributions and \$5,060 was used to pay plan expenses. These accounts will be used to reduce future company contributions or certain administrative expenses.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan agreement. The Plan provides for normal retirement at age 65 and early retirement the later of attainment of age 55 or 4 years of service. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment or installments if the participant is eligible for a required minimum distribution. The Plan allows for automatic lump-sum distributions of participant vested account balances which do not exceed \$5,000. If the lump-sum distributions of participant vested account balances exceed \$5,000, then the participant must consent to the lump-sum distribution. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan document and subject to the IRS safe harbor rules.

There are no amounts owed to the participants who had elected to withdraw from the Plan, but had not been paid as of December 31, 2013 and 2012.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates which are commensurate with local prevailing rates at the inception of the loan as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan (cont.)

Administrative Expenses

The Company pays a portion of the Plan's administrative expenses. The Plan may pay reasonable expenses from plan assets.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Risks and Uncertainties

The Plan has investment securities, which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 5 - Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded and applied based on the loan amortization schedule. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Recent Accounting Pronouncements

There have been no recent accounting pronouncements.

NOTE 5 - Fair Value of Financial Instruments

The Plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Unadjusted quoted prices for identical assets in active markets that the Plan can access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.

Level 3 - Unobservable inputs for the asset.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the daily closing price reported by the fund.

Common/Collective Trust: Units are stated at fair value as determined by issuer of the common/collective investment trust funds based on the fair market value of the underlying investments.

The Company is responsible for the determination of fair value. Accordingly, the Company performs periodic analysis on the prices received from the Trustee used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Company has not historically adjusted the prices obtained from the Trustee. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 – Investment in Common/Collective Trust Fund

The Plan currently invests in a common/collective trust fund ("the Fund") which holds guaranteed investment contracts (GICs). The objective of the Fund is to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term. The Fund strives to maintain a stable \$1/unit price. The Fund announces its crediting rate in advance of each month. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Fund. The Fund then announces its crediting rate for each month. The Fund is contractually obligated to repay the principal and the announced credit rate to the Plan.

Because the Fund's GICs are fully benefit-responsive investments, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to GICs. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or the transfer of all or a portion of their investment at contract value. The Plan has reported its investment in the common/collective trust fund at fair value on the statements of net assets available for benefits with an adjustment from fair value to contract value reported, if material. As of December 31, 2013 and 2012 the fair value approximated contract value and no such adjustment was necessary.

NOTE 7 – Net Asset Value (NAV) Per Share

A summary of the Plan's investments with a reported NAV at December 31, 2013 and 2012, is set forth as follows:

Investment	Fair Value (1)	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions (2)	Redemption Notice Period
December 31, 2013					
Common/Collective Trust (3)	\$ 182,761	\$ -	Immediate	Various	Various
Total	\$ 182,761	\$ -			

Investment	Fair Value (1)	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions (2)	Redemption Notice Period
December 31, 2012					
Common/Collective Trust (3)	\$ 299,461	\$ -	Immediate	Various	Various
Total	\$ 299,461	\$ -			

⁽¹⁾ The fair values of the investments are based on the fair values of the underlying investments in the funds.

⁽²⁾ Certain events may cause funds held in the common/collective trust and stable value collective trust to be deferred, including, but not limited to, the following:

- (i) Closing or disruption of the financial markets or exchanges in which a transaction is unable to be settled prudently.
- (ii) An emergency situation in which the disposition of assets would be seriously prejudicial to Plan participants.
- (iii) Breakdown in the means of communication normally employed to determine fair market value on an investment.
- (iv) Investments cannot be effected at normal rates of exchange.

None of these events occurred in 2013 or 2012.

⁽³⁾ The funds in the common/collective trusts employ a variety of investment strategies, including, but not limited to, long-term capital growth.

NOTE 8 – Party-in-interest

Fees paid by the Plan to American Funds Service Company, an affiliate of the Trustee, for the investment management services are considered to be exempt party-in-interest transactions. These fees are netted against investment income. Recordkeeping fees of \$3,125 were paid from plan assets to Capital Research Management Company, an affiliate of the Trustee. This transaction is considered an exempt party-in-interest transaction.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 9 - Tax Status

The Plan uses a prototype plan document sponsored by American Funds Distributors, Inc. The document sponsor received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2008, which states the prototype document satisfies the applicable provisions of the Code. Although the Plan itself has not received a determination letter, the Company believes the Plan is designed and operated in compliance with the Code and maintains a qualified and tax exempt status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 10 – 5500 Reconciliation
