Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The RoomPlace Profit Sharing and Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Great-West Life & Annuity Insurance Company and Great-West Trust Company LLC, the custodians of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the agent on behalf the custodians as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the agent on behalf of the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Member of the RSM International network of independent accounting, tax and consulting firms.

Other Matters

The supplemental schedule of assets (held at end of year) as of or for the year ended December 31, 2013, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

As described in Note 2, the financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of The RoomPlace Profit Sharing and Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan which covers all employees of TRP Acquisition, Inc. (the Company), as defined. Employees become eligible to participate in the Plan on the first day of the quarter following completion of six months of service and upon attainment of age 21. Eligible employees are automatically enrolled in the Plan at 3 percent of their total compensation unless they elect not to enroll. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute a pretax portion of their compensation, as defined, through payroll deductions not to exceed regulatory limits according to the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified plans. Catch-up contributions for those employees age 50 or older are also allowed, as defined in the plan agreement.

The Company may elect to make discretionary matching contributions. The Company may also elect to make a discretionary contribution to the Plan at the end of the year at an amount to be determined by the Company. No employer contributions were made to the Plan for the year ended December 31, 2013.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's discretionary matching contribution, if any, and allocations of employer discretionary contributions, if any, plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. Earnings include interest, dividends and changes in the fair value of investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. A participant is 100 percent vested after six years of credited service based on an annual 20 percent vesting schedule, which begins after the completion of two years of service, in any Company contributions. If an active participant dies or becomes disabled prior to attaining the normal retirement age, the participant's account becomes 100 percent vested.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment choices within the Plan as more fully described in the Plan's literature. Participants may change their investment options at any time.

Payment of benefits: Upon termination of service, a participant or his or her beneficiary is eligible to receive an amount equal to the value of the participant's account in the form of a lump-sum distribution or equal installments over a fixed period, as described in the plan agreement. Under certain conditions of financial hardship, as defined in the plan agreement, participants may withdraw a portion or all of their vested account balances. If the nonforfeitable portion is $5,000 or less, the participants will receive a lump-sum cash payment.

Forfeitures: At December 31, 2013 and 2012, forfeited non-vested accounts totaled $730 and $3,121, respectively. Forfeitures not used to pay the Plan's administrative expenses shall be reallocated to participants as discretionary employer contributions. During 2013, $4,300 of forfeitures were used to reduce administrative expenses and $2,638 was reallocated to participants.

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 (reduced by the participant's highest outstanding loan balance in the preceding 12 months) or one-half of the participant's vested account balance one time each plan year. Loans are collateralized by the balance in the participant's account and are to be repaid through payroll deductions over a period not to exceed 5 years, except for the purpose of purchasing a principal residence, in which case the term may not exceed 15 years. Interest is determined by the Plan Administrator based on prevailing market rates and is fixed over the life of the loan. Interest rates on outstanding loans range from 4.25 to 9.25 percent at December 31, 2013.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the modified cash basis method of accounting, which is a method of accounting acceptable under the Department of Labor (DOL) regulations. It differs from accounting principles generally accepted in the United States of America as contributions, interest and dividend income, and administrative expenses are accounted for on the cash basis.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the fully benefit-responsive adjustment of the investment in the contracts from fair value to contract value. Contract value approximates fair value in the current year and prior year. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies using information provided by the investment custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the date received. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Loans in default are treated as distributions based upon the terms of the plan document.

Accounting estimates: The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

Note 2. Significant Accounting Policies (Continued)

Recent accounting pronouncements: In October 2012, the Financial Accounting Standards Board (FASB) issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through September 2, 2014, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Great-West Life & Annuity Insurance Company and Great-West Trust Company LLC (the Plan Custodians)

The following is a summary of the Plan's assets and income information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following information is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2013	2012
Shares of registered investment companies	$ 6,284,602	$ 5,662,565
Guaranteed investment contract - fair value	$ 2,005,759	$ 2,172,239
Guaranteed investment contract - contract value	$ 2,005,759	$ 2,172,239
Notes receivable from participants	$ 640,709	$ 806,313
Net appreciation in fair value of investments	$ 921,477	
Interest income on notes receivable from participants	$ 25,969	
Interest and dividends	$ 285,641	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Shares of registered investment companies: The fair values of shares in registered investment companies are based on quoted market prices from nationally recognized securities exchanges.

Guaranteed investment contract: The fair values of interests in the guaranteed investment contract are based on discounting the related cash flows of similar instruments with comparable durations considering the credit-worthiness of the issuer, or by the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no significant transfers in or out of Level 3.

Note 4. Fair Value Measurements (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013

Balance, beginning of year	$ 2,172,239
Purchases	420,579
Sales	(587,059)
Balance, end of year	$ 2,005,759

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Shares of guaranteed investment contract	$ 2,005,759	See Note 6	See Note 6	See Note 6	N/A

In estimating fair value of investments in Level 3, the Investment Committee may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Investment Committee evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Note 5. Investments

The following table presents investments as of December 31, 2013 and 2012, representing 5 percent or more of the Plan's net assets available for benefits:

	2013	2012
Shares of registered investment companies, at fair value, as determined by quoted market prices:		
Pimco Total Return Admin	$ 551,066	$ 608,641
Russell Lifepoints 2025 Strategy R3	-	543,949
Guaranteed investment contract:		
Guaranteed Portfolio Fund	2,005,759	2,172,239

During 2013, the Plan's shares of registered investment companies appreciated by $921,477.

Note 6. Investment Contract with Insurance Company

The Plan holds a benefit-responsive group annuity investment contract with Great-West Life & Annuity Insurance Company (Great West), an AA rated company. The Guaranteed Portfolio Fund is part of the general account of Great-West. All or a portion of the participant's contributions and participant's annuity account may be allocated to the Guaranteed Portfolio Fund, which is a fixed account. The contract is included in the financial statements at contract value as reported to the Plan by Great West. Contract value represents contributions made under contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed by the Plan. Amounts may be transferred from the participant's account balance in the Guaranteed Portfolio Fund at any time. The value of the Guaranteed Portfolio Fund in respect of the Participant will be determined as the value of the sum of the participant's Guaranteed Portfolio Fund Contributions plus interest and transfers minus the sum of any amounts distributed, transfers and premium tax.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net asset available for benefits at fair value. Contract value, as reported to the Plan by Great West, represents contributions made under the contract plus interest of 1.3 percent for the period from January 1, 2013 through December 31, 2013 and interest of 1.5 percent for the period from January 1, 2012 through December 31, 2012, as determined by Great West, less participant withdrawals and administrative expenses. Contract value approximates fair value. Participants may ordinarily direct the withdrawal or transfers of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012, was $2,005,759 and $2,172,239, respectively. Interest will be earned on the Guaranteed Portfolio Fund value and compounded daily to the effective annual interest rate.

The interest rate to be credited to the entire value of the Guaranteed Portfolio Fund will be determined by Great-West prior to the last day of each calendar quarter and will remain in effect until the end of the calendar quarter. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. As mutually agreed to by the Plan and Great-West, the Plan may elect to change the interest crediting method. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

The investment policy of the Guaranteed Portfolio Fund is to invest the money with a three to five year average maturity. That policy may change over time based on prevailing market conditions.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on completing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemptions under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 6. Investment Contract with Insurance Company (Continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2013	2012
Based on actual earnings	1.3%	1.5%
Based on interest rate credited to participants	1.3%	1.5%

Note 7. Related-Party Transactions

The Plan has investments in shares of registered investment companies managed by Great West, the custodian, or an affiliate thereof; therefore, these transactions qualify as party-in-interest transactions. Great West also performs administrative and recordkeeping services for the Plan. The administrative expenses paid by the Plan to Great West were $13,885 for 2013. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services. Certain other administrative expenses, including investment advisory fees, are paid by the Company on behalf of the Plan.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 9. Income Tax Status

The Internal Revenue Service (IRS) issued an opinion letter dated March 31, 2008, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the IRC. The Plan has been amended since receiving the opinion letter. The Company believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credits risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2013 and 2012:
