Tiff's Treats 401(k) Plan

Notes to Financial Statements

December 31, 2013

1. Description of the Plan

Tiff's Treats 401(k) Plan (the "Plan") is a defined contribution plan covering substantially all eligible employees of Tiff's Treats, LLC (the "Company"). The Plan became effective January 1, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All Plan assets are held by State Street Bank and Trust Company. Complete information regarding the Plan is included in the Plan Agreement. Significant Plan provisions are summarized below.

Eligibility

Employees of the Company are eligible to participate in the Plan upon the attainment of 6 months of service, as defined. The Plan will automatically enroll participants at a contribution rate of 3% unless the employee elects a different percentage or elects not to participate. The automatic deferral percentage increases by 1% at the beginning of each plan year, up to a maximum of 10%.

Contributions

Participants are allowed to make elective deferral or Roth contributions in an amount equal to not less than 1% nor more than 90% of their Plan compensation, as defined, for the contribution period. Participants who have attained age 50 are eligible to make catch up contributions. Participants may also contribute amounts representing rollover from other retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers common/collective trusts and a variety of mutual funds as investment options for participants.

The Company makes contributions to the Plan of amounts determined and authorized by the Company's Board of Directors up to the maximum amounts permitted by the Internal Revenue Service ("IRS"). The Company's matching contributions are discretionary and are based on each participant's contribution. None were made in 2013. The Company may also make discretionary non-elective contributions. None were made in 2013. The Company's contributions are invested directly in the mutual funds or common/collective trust funds as directed by the participant. Contributions are subject to certain limitations.

1. Description of the Plan (continued)

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings. Plan earnings in each of these funds are allocated based on each employee's fund account balance relative to the aggregate of all employees' fund account balances. A participant is entitled to the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Company matching contributions are subject to a vesting schedule as follows:

Years of Service	Vested Benefits
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Forfeitures

Non-vested balances of participants' accounts may be subject to forfeiture upon termination of their employment with the Sponsor. A forfeiture occurs in the Plan year in which the participant receives a distribution of their vested account, as defined by the Plan. There were no forfeitures at December 31, 2013 or 2012. Amounts are retained in the Plan and are used to reduce future employer matching contributions or to pay Plan administrative expenses.

1. Description of the Plan (continued)

Participant Receivable from Loans

Participants are allowed to borrow a maximum amount of the lessor of 50% of the participant's vested amount or $50,000, but not less than $500. The loans are collateralized by the vested balance in the participant's account, and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid through payroll deductions with equal installments made each pay period.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant is entitled to receive an amount equal to the vested interest in his or her account, payable in annuity or lump-sum form. In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, subject to a $500 minimum, as defined by the Plan. Hardship withdrawals are strictly regulated by the IRS and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal. In-service distributions are available after attainment of age 59 ½.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Risks and Uncertainties

The Plan provides for investments in various investment securities, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

2. Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits to participants are recorded by the Plan when actual payment is made.

2. Significant Accounting Policies (continued)

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payment transactions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Company evaluated events occurring between the end of the most recent fiscal year and August 29, 2014, the date the financial statements and supplemental schedule were available to be issued.

3. Investments

All information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivables from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments and investment income for the year ended December 31, 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by State Street Bank and Trust Company, trustee of the Plan.

The following presents individual investments that represent 5% or more of the Plan's net assets at December 31, 2013.

	December 31,

State Street S&P 500 Index Fund	**26,340**	10,240

* Investment is less than 5%.

3. Investments (continued)

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value as follows:

	Year ended December 31, 2013
Mutual funds	**$ 8,245**
Common/collective trust funds	**10,605**
Total	**$ 18,850**

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, are described below:

- *Level 1:* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- *Level 2:* Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- *Level 3:* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- *Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Common collective trust (SSGA S&P Mid Cap Index Fund, SSGA Russell Small Cap Index Fund, SSGA S&P 500 Index Fund, SSGA REIT Non-Lending Series Index Fund, SSGA International Index Fund, SSGA Cash Series US Government Money Market Fund)*: The State Street funds are common/collective trust funds for which State Street Bank and Trust Company acts as custodian. The net asset value ("NAV") is based on the market value of its underlying investments. The NAV is not a publicly-quoted price in an active market. The money market fund is valued as a cash equivalent, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

5. Related-Party Transactions and Party In Interest Transactions

Plan assets include investment in funds managed by State Street Bank and Trust Company. They are the Plan's trustee and as such, these transactions qualify as party in interest transactions under ERISA.

5. Related-Party Transactions and Party In Interest Transactions (continued)

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The amounts received through revenue sharing are not significant. The Plan Sponsor pays directly any other fees related to the plan's operations.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event of the termination of the Plan, the individual accounts of all members shall become fully vested. After deducting all charges and expenses, the balances of all individual accounts will be adjusted and the remaining assets distributed.

7. Income Tax Status

The underlying nonstandardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008 stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2013-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. The Plan has also adopted model EGTRRA amendments. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
