INDEPENDENT AUDITOR'S REPORT

To The Board of Trustees of
Scottsdale Medical Imaging, Ltd. 401(k) Plan and Trust:

Report on the Financial Statements

We were engaged to audit the financial statements of Scottsdale Medical Imaging, Ltd. 401(k) Plan and Trust (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Minnesota Life Insurance Company ("Minnesota Life"), except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that Minnesota Life administers the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from Minnesota Life as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan administrator by Minnesota Life is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (held at end of year), which is the responsibility of Plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by Minnesota Life, have been audited by us in accordance with auditing standards generally accepted in the United States of America as established by the AICPA's Auditing Standards Board and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Other Matter – Merger of Plan

As described in Note 1 to the financial statements, on November 14, 2013, the shareholders of the Company ratified their decision to terminate the Plan effective January 1, 2014. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting used to determine the amounts at which investments are stated from the ongoing plan basis to the liquidation basis as of December 31, 2013.

1. Description of Plan

The following brief description of the Scottsdale Medical Imaging, Ltd. (the "Company" and "Administrator") 401(k) Plan and Trust (the "Plan") is provided for general information purposes only. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

Merger

On November 14, 2013, the shareholders of the Company ratified their decision to merge the Plan. Effective January 1, 2014, the Plan was merged with the Southwest Diagnostic Imaging, Ltd. 401K Plan A and the Southwest Diagnostic Imaging, Ltd. 401K Plan B (collectively the "New Plans") sponsored by Southwest Diagnostic Imaging, Ltd., and the New Plans are the surviving plans of the mergers.

General

The Plan was a defined contribution plan covering all eligible employees of Scottsdale Medical Imaging, Ltd. who were 21 years of age or older, had completed one year of service and had worked 1,000 hours during the plan year. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may have contributed from 1% to 60% of their pretax compensation to the Plan, subject to limitations prescribed by the Internal Revenue Service. Participants who had attained age 50 before the end of the plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered various pooled separate accounts, a guaranteed return account and self-directed brokerage accounts.

The Plan included a Safe Harbor Contributions provision. Under this provision, the Company contributed 3% of compensation to all eligible participants, as defined, during the Plan year. Additionally, each year at the Company's discretion, the Company could have contributed to the Plan a percentage of the participants' contributions. For the year ended December 31, 2013, the Company elected to not make a matching contribution. The Company could have also elected to make a discretionary profit-sharing contribution to the Plan. During the year ended December 31, 2013, approximately \$504,000 was profit-sharing contributions. Contributions were subject to certain limitations.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could have been provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary contributions and in the Company's discretionary matching and profit-sharing contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants could borrow from their accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. A fee was deducted from the participant's loan proceeds for administrative costs. Loan terms were up to 5 years or up to 25 years for the purchase of a primary residence. The loans were collateralized by the balance in the participant's account and bore interest at the prime rate in effect at the time that the loan was made. At December 31, 2013 the interest rates on outstanding loans were 3.25%. Principal and interest was paid ratably through payroll deductions.

Payment of Benefits

A participant who was employed by the Company after reaching age 59 1/2, could, once a quarter, elect to receive all or part of the balance of his or her vested account, other than his or her Money Purchase Plan Merger Sub-Account. Upon a participant's termination of service or attaining normal retirement age, as defined, a participant may have elected to receive either a lump-sum payment or an installment-type payment in an amount equal to the value of the participant's vested account balance.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying 2013 statement of net assets available for benefits have been prepared on the liquidation basis. The accompanying 2013 statement of changes in net assets available for benefits and the 2012 statement of net assets available for benefits have been prepared on the accrual basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets and the reported amounts of additions to and deductions from net assets. Accordingly, actual results may have differed from those estimates.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net change in fair value of investments included realized and unrealized gains and losses on investments.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions based upon the terms of the plan document.

Payments of Benefits

Benefits were recorded when paid

Administrative Expenses

Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions to participants were charged directly to the participant's account and are included in the administrative expenses. Investment related expenses are included in net appreciation/depreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through August 19, 2014, the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held at the end of the year) appreciated/(depreciated) in value by approximately \$7,146,000 as follows:

Exchanged-traded products	\$ 128,205
Government bonds	(22,769)
Common stock	69,519
Mutual funds	(111,638)
Pooled separate accounts	7,082,247
	<u>\$ 7,145,564</u>

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts

Pooled separate accounts are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, and mutual funds. Units held in pooled separate accounts are valued based on the market prices of the underlying investments in the funds at year-end.

SCOTTSDALE MEDICAL IMAGING, LTD.
401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

Mutual Funds, Money Market Funds and Exchange-traded Products

Investments in mutual funds, money market funds and exchange-traded products are based on quoted market prices for the identical security in an active market.

Guaranteed Return Account

The guaranteed return account assets are measured at contract value, which approximates fair value.

Common Stocks and Government Bonds

Common stocks and government bonds are valued at the closing price reported in the active market in which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed Return Account	\$ 2,745,244	Market Value = Contract Value	Crediting Yield Rates	2.42% - 2.56%

5. Guaranteed Return Account With Insurance Company

The Plan had a fully benefit-responsive guaranteed return account with Minnesota Life Insurance Company ("Minnesota Life"). Minnesota Life maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed return account issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

Because the guaranteed return account was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract was presented on the face of the statement of net assets available for benefits at contract value, which approximated fair value. Contract value, as reported to the Plan by Minnesota Life, represented contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may have ordinarily directed the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was approximately \$2,745,000 and \$2,434,000, respectively. The crediting interest rate was based on a formula agreed upon with the issuer, but it may not have been less than 1.5%. Such interest rates were reviewed on a quarterly basis for resetting.

The average yields earned by the guaranteed return account were as follows:

Average yields:	2013	2012
Based on actual earnings	2.52%	2.83%
Based on interest rate credited to participants	2.52%	2.83%

6. Party-in-Interest Transactions

Certain Plan investments were in pooled separate accounts and a guaranteed return account managed by Minnesota Life, and therefore these transactions qualified as party-in-interest transactions. Fees incurred by the Plan for the investment management services were included in net appreciation/depreciation in fair value of the investment. As described in Note 2, expenses for loan administration and benefits paid to participants were charged directly to the participant's account. The Company paid directly any other fees related to the Plan's operations.

7. Information Provided by Minnesota Life

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Minnesota Life certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012 and supplemental schedule as of December 31, 2013, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

8. Income Tax Status

The Internal Revenue Service determined and informed the Company by a letter dated January 22, 2013, that the Plan and related trust were designed in accordance with the appropriate sections of the Internal Revenue Code. Although the Plan had been amended since applying for the determination letter, the Plan Administrator and the Plan's counsel believe that the Plan was designed and was being operated in compliance with the Internal Revenue Code and therefore believe that the Plan was qualified and the related trust was tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Risks and Uncertainties

The Plan provided for various investment securities. Investment securities are exposed to various risks, such as interest rate fluctuation, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.
