Independent Auditor's Report

To the Plan Administrator of the
Marketon, Inc. 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Marketon, Inc. 401(k) Plan, which are comprised of the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Massachusetts Mutual Life Insurance Company, an investment contract issuer, and State Street Bank and Trust Company, the trustee of the Plan, as of December 31, 2013 and for the period February 1, 2013 through December 31, 2013; and by John Hancock Life Insurance Company (U.S.A.), an investment contract issuer, as of December 31, 2012 and for the period January 1, 2013 through January 31, 2013, except for comparing such information with the related information included in the financial statements.

We have been informed by the plan administrator that the investment contract issuers and the trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the investment contract issuers and the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the investment contract issuers and the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the investment contract issuers and trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of Plan

The following description of the Marketon, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1998 to qualify as a defined contribution plan for eligible employees of Marketon, Inc. and its related affiliates (the "Company" or "Employer"). The Plan has a pre-tax salary reduction provision as defined under Section 401(k) and an employer matching contribution under 401(m) of the Internal Revenue Code (the "IRC"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Eligibility

Each of the Company's employees is eligible to participate in the Plan upon the later date of attaining the age of 21 or completion of one year of with a minimum of 1,000 hours of service. An eligible participant may enter the Plan on January 1 or July 1 immediately following satisfaction of eligibility requirements.

Contributions

The Company's eligible employees may contribute up to the limitations as defined by the IRC each year on a pre-tax basis by salary reduction. In addition, the Company may make matching contributions equal to a discretionary percentage, to be determined by the Company, of the participant's elective deferrals. The Company did not elect to make a matching contribution for the year ended December 31, 2013.

Participants direct the investment of all contributions to their accounts into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings less an allocation of investment and operating expenses charged to the Plan. Allocations are based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Note 1. Description of Plan (continued)

Vesting

Participants are 100% vested in their salary deferral contributions plus actual earnings thereon. Effective January 1, 2006, the Plan elected to be a Safe Harbor Plan according to IRC regulations. As a result, participants became 100% vested in their Company safe harbor matching contribution account for any contributions made from January 1, 2006 through December, 2009. Effective December 11, 2009, the Company discontinued its safe harbor matching contributions to all participants. For Company contributions made prior to January 1, 2006 and Company contributions made subsequent to December 11, 2009, each participant's interest in their Company contribution and related earnings are vested as follows:

Years of Vesting Service	Vested Percentage
Less than two	0%
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more	100%

Payment of Benefits

Upon termination of service due to death, disability, retirement or any other reason, a participant will receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account as soon as administratively feasible following termination of employment.

Forfeited Accounts

Amounts forfeited from terminating participants' non-vested portion of their employer matching contribution account and employer discretionary contribution and earnings on Company contributions are used to pay administrative expenses and to reduce future employer contributions. At December 31, 2013 and 2012, there were no unallocated forfeited non-vested accounts available to reduce future administrative expenses or employer contributions. And during the year ended December 31, 2013, no forfeitures were used to off-set administrative expenses or employer contributions.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan.

Fees related to the administration of notes receivable from participants and certain fees related to distributions are charged directly to participant's accounts and are included in administration expenses. Additionally, plan recordkeeping fees are paid by forfeitures when forfeitures are available. When forfeitures are not available the Company pays the recordkeeping fees. Investment related expenses are included in net appreciation of fair value investments.

Note 1. Description of Plan (continued)

Contribution Funding

The Company funds its participant contributions and Company matching contributions, if any, to the Plan on a weekly basis concurrent with each pay period. The Plan incurred certain participant administrative expenses associated with participant initiated transactions related to participant notes receivable and distributions.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Valuation of Investments

All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned.

Note 2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Subsequent Events

Subsequent events have been evaluated through September 11, 2014, the date the financial statements were available for issuance.

Note 3. Insurance Contracts

Guaranteed Interest Account

Through January 31, 2013, the Plan participated in a contract with John Hancock Life Insurance Company (U.S.A.) ("John Hancock") whereby the assets of the Plan were part of the general assets of John Hancock. This contract was identified and accounted for as a guaranteed interest account. The guaranteed interest account provided a guaranteed interest rate for a specified period of time as determined or allowed by the Plan. The rate credited was the rate in effect on the day when each deposit was directed to the accounts.

The guarantees made with regard to the guaranteed interest account were supported by John Hancock's general account. There were no reserves against contract value for credit risk of the contract issuer or otherwise.

The guaranteed interest account promised contract value for a benefit event (termination, death, disability and retirement), however, there were possible market value adjustments when funds were withdrawn prior to their maturity. There may have been withdrawal restrictions associated with these contracts based on Plan level initiated transactions.

Note 3. Insurance Contracts (continued)

Pooled Separate Accounts

Through January 31, 2013, the Plan had entered into a contract with John Hancock Life Insurance Company (U.S.A.) ("John Hancock") whereby the assets under the contract were pooled with those of other investors in separate accounts. The Plan owned units of participation in the fair value of the account's underlying assets. John Hancock did not own the underlying assets, but only held them in trust for the participating plans.

Effective, February 1, 2013, the plan participates in a contract with MassMutual Life Insurance Company ("MassMutual") whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. MassMutual does not own the underlying assets but only holds these assets in trust for the participating plans.

Note 4. Investments

At December 31, 2013 and 2012, the following investments represent 5% or more of the Plan's net assets:

	December 31,	
	2013	**2012**
Pooled separate accounts

Franklin Templeton Conservative	$ 154,873	$ ---*

**Investment does not represent 5% or more of the Plan's net assets at the respective year end.*

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by investment type, as follows:

	Year Ended December 31, 2013
Net appreciation in fair value of investments	
Pooled separate accounts	$ 109,453

Note 5. Information Certified by Investment Contract Issuers and Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by Massachusetts Mutual Life Insurance Company, an investment contract issuer, and State Street Bank and Trust Company, the trustee of the Plan, as of December 31, 2013 and for the period February 1, 2013 through December 31, 2013; and by John Hancock Life Insurance Company (U.S.A.), an investment contract issuer, as of December 31, 2012 and for the period January 1, 2013 through January 31, 2013, as complete and accurate, except for comparing such information certified by the investment contract issuers and trustee to information included in the Plan's financial statements and supplemental schedule:

Pooled separate accounts	$ 1,062,839	$ 967,494
b) Notes receivable from participants*	$ 51,521	$ 71,672

**Notes receivable from participants are participant loans allowed under the related regulations. The participant loans are certified by the investment contract issuer, and are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

c) Investment income and other additions

	Year Ended December 31, 2013
Net appreciation in fair value of investments	$ 109,453

Note 6. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Guaranteed interest account: This investment is part of the general assets of an insurance company. This investment is valued by discounting the related cash flows based on the composite yield in effect, current yields of similar contracts of the issuer and the number of months until maturity.

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") as a practical expedient provided by the investment custodian. The NAV is quoted on a private market that is not active; however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market

Note 6. Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following are the Plan's financial instruments carried at fair value categorized by the fair value hierarchy as of December 31, 2013 and 2012:

December 31, 2013	Fair Value Measurements Using Input Type

Note 6. Fair Value Measurements (continued)

The following presents additional information relative to Plan investments reported on net asset value at December 31, 2013 and 2012:

a) Lifecycle Funds: Invest in a variety of combinations of equity and fixed income instruments. These funds provide varying degrees of long-term appreciation and capital preservation based on an investor's age or target retirement date through a mix of asset classes. The mix changes over time to become less focused on growth and more focused on income. These funds are also known as "target date retirement" or "age-based" funds.

b) Lifestyle Funds: Invest in a variety of combinations of equity and fixed income instruments. These funds maintain a predetermined risk level and generally use words such as "conservative," "moderate," or "aggressive" in their names to indicate the funds' risk level.

c) Aggressive Growth Funds: Invest primarily in equity securities. These funds take higher risk of loss in return for potentially higher returns or gains.

d) Growth Funds: Invest primarily in equity instruments of public companies with above-average risk in return for potentially above-average gains. These companies often pay small or no dividends and their stock prices tend to have the most price fluctuations from day to day.

e) Growth and Income Funds: Invest in a variety of combinations of equity and fixed income instruments. These funds have a dual strategy of growth or capital appreciation and current income generation through dividends or interest payments.

f) Income Funds: Invest primarily in fixed income instruments. These funds primarily seek current income rather than capital appreciation.

g) Conservative Funds: Invests primarily in short-term, high-grade fixed-income securities, and seeks the highest level of income consistent with the preservation of capital.

h) Bond Funds: These funds have average durations that are greater than 3.5 years and less than six years. Most of the funds rotate among a variety of sectors in the bond market, based upon which appear to offer better values. Whatever types of bonds they hold, these funds are less sensitive to interest rates, and therefore less volatile, than funds that have longer durations.

i) Balanced Funds: These funds have portfolios that are fairly representative of the overall market in both size, growth rates and price. The tend to invest across the spectrum of the U.S. industries and owing to their broad exposure, the funds returns are often similar to those of the S&P 500 Index.

j) Large Cap Funds: These funds focus on big companies that are less expensive or growing more slowly than other large value funds. These funds often feature investments in energy, financial, or manufacturing sectors.

k) International Funds: These funds seek appreciation by investing in a variety of international stocks and foreign stocks. The blend style is assigned to funds where neither growth nor value characteristics predominate. These funds will typically have less than 20% of assets invested in the U.S. Stocks.

Note 6. Fair Value Measurements (continued)

l) Fixed Income Funds: These funds invest in short-term liquid financial instruments with fixed rates of return.

The pooled separate account investment funds are subject to the redemption frequency of two transactions per month. There are no other redemption restrictions, redemption notice requirements, or unfunded commitments related to the pooled separate account investment funds as of December 31, 2013 and 2012.

The following sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Guaranteed Interest Accounts
Beginning balance	$ 520
Total gains or losses (realized and unrealized)	---
Purchases	---
Settlements	(520)
Ending Balance	$ ---

Quantitative Information about Level 3 Fair Value Measurements

The fair value of the Guaranteed Interest Accounts was based on significant unobservable inputs, including the interest rates of the applicable investment contracts. Significant fluctuations in any of the inputs in isolation would have resulted in a significantly different fair value measurement.

The following table provided quantitative information about the significant unobservable inputs used for recurring fair value measurements categorized within Level 3 as of December 31, 2012:

		Valuation Techniques	Unobservable Inputs	Range Of Inputs
Guaranteed interest accounts	$520	Discounted cash flow; see note (1)	Contractual interest rates	0.25% - 0.55%
			Maturity dates	12/31/2012 to 12/31/2015

(1) The market value of the guaranteed interest account was equal to the book value of each account multiplied by:

$$(1 + (0.08 \times n) \times (i - j - (0.0050 \times k)))$$

Where: "n" is the number of complete months until maturity;
"i" is the composite rate of interest being earned by that account;
"j" is the declared rate at the effective date of the withdrawal for contributions of the same term as that of the original contribution;
"k" is 0 if the withdrawal is for a pre-retirement distribution at age 59-1/2 or after; or 1 if any other circumstance.

Note 6. Fair Value Measurements (continued)

The Insurance company had the right to change the basis of calculating the market value upon providing three months advance written notice. Any such change was only applied to those accounts set up after the effective date of the change.

Note 7. Excess Contributions

Contributions received from participants for the plan year ended December 31, 2012 include $1,272 of excess contributions (net of corresponding gains and losses) that were distributed in the subsequent year to certain active participants. The excess deferral contributions, originally contributed during the year ended December 31, 2012, were returned to comply with the participants' applicable maximum annual contributions permitted under the Internal Revenue Code. The amount is included in the Plan's statements of net assets available for benefits as excess contributions payable at December 31, 2012.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9. Tax Status

The Company has adopted a standardized prototype plan which received a favorable opinion letter dated March 31, 2008 from the Internal Revenue Service qualifying the Plan under Section 401(a) of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter, however, the Company and the plan administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 10. Party-In-Interest Transactions

Certain Plan investments are units in pooled separate accounts which are managed by MassMutual Life Insurance Company. Prior to January 31, 2013, certain investments were units in pooled separate accounts which were managed by John Hancock. MassMutual and John Hancock are investment contract issuers which hold some of the Plan's investment contracts. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to MassMutual, John Hancock, other investment custodians and investment advisors.

Additionally as noted in Note 1, certain administrative expenses related to participant related activities are paid directly to MassMutual, John Hancock and affiliates. In addition, certain plan recordkeeping fees may be paid by the Plan. All fees paid directly by the Plan to MassMutual, John Hancock and affiliates are included in administration fees.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions also qualify as party-in-interest transactions for which there is a statutory exemption.

Note 11. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all unvested account balances, if any, would become fully vested.
