THE NATIONAL FOOTBALL LEAGUE CAPITAL ACCUMULATION PLAN (TAMPA BAY BUCCANEERS)

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

Note 1 **Description of Plan**

The following brief description of The National Football League Capital Accumulation Plan (Tampa Bay Buccaneers) (the "Plan"), which is sponsored by the Tampa Bay Buccaneers (the "Company"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration

The Plan is administered by the Company. The trustee of the Plan's assets is PNC Bank. AON Hewitt serves as the recordkeeper of the Plan.

Contributions

The Plan provides that each participant may make elective contributions up to the maximum contribution provisions imposed by the Internal Revenue Code ("IRC"). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company will match the lower of:

a. Fifty percent (50%) of the participant's contributions for the year;
b. Two and one-half percent (2.5%) of the participant's compensation for the plan year; or
c. Three thousand seven hundred and fifty dollars ($3,750).

Rollover Contributions

With the Company's prior written consent, an eligible employee may make one or more rollover contributions to the Plan if the employee demonstrates, to the Company's satisfaction, that the contribution qualifies as a rollover contribution under the appropriate section of the IRC.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution and Plan earnings and charged with the participant's withdrawals. Company matching contributions are allocated to investment funds in the same proportion as the participant's investment election. Plan earnings are allocated by fund based on the ratio of each participant's account invested in a particular fund to all participants' investment in that fund.

Vesting

Participants are immediately 100% vested in all employee and employer contributions plus actual earnings thereon.

Note 1 **Description of Plan - Continued**

Notes Receivable from Participants
The Plan does not allow loans to participants.

Benefit Payments
Upon termination of service, a participant may elect to receive either a lump sum amount equal to the value of his/her account or a deferred lump sum distribution, as defined in the Plan agreement. If the value of a terminated participant's vested benefit balance does not exceed $1,000, the entire amount shall be paid to the participant in a single lump sum. In addition, the Plan allows hardship withdrawals and in-service withdrawals after age 59½ for participants who qualify. The amount of hardship and in-service withdrawals shall not exceed the value of the participant's tax deferred and Roth accounts. All distributions are subject to the provisions of the Plan agreement.

Administrative Expenses
Administrative expenses of the Plan are paid by the Company.

Note 2 **Summary of Significant Accounting Policies**

Basis of Presentation
The financial statements are prepared on the accrual method of accounting.

Subsequent Events
In preparing the financial statements, management has evaluated events and transactions for potential recognition or disclosure through September 4, 2014, the date that the financial statements were available to be issued.

Use of Estimates
The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan invests in investment securities which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with these investment securities, it is at least reasonably possible that changes in their values will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of Benefits
Benefit payments are recorded when paid to the participant.

Note 2 **Summary of Significant Accounting Policies - Continued**

Trust Agreement
The Plan's investment securities, other than interest bearing cash, are included in the National Football League Reciprocal Trust (the "Trust"), which was established and is maintained for the collective investment of contributions by plans of the National Football League member clubs and other league entities. The assets of the Trust are maintained by the trustee. The Trust has several investment funds where participants may direct their account balances.

Note 3 **Investment Valuation and Income Recognition**
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan follows the fair value measurement guidance required by accounting principles generally accepted in the United States of America for financial and nonfinancial assets and liabilities. This guidance defines fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 3 **Investment Valuation and Income Recognition - Continued**

Following is a description of the valuation methodologies used for investments measured at fair value.

Money Market: This investment is valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Common/Collective Trusts: Valued at the NAV of the units held by the Plan at year end, as determined by the trustee, based on quoted market prices of the underlying investments on the last business day of the Plan year.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	Investments at Fair Value as of December 31, 2013		
	Level 1	**Level 2**	**Total**

(a) This category includes two funds: (1) the NFL Index Total Domestic Equity Fund which has the objective to provide participants with the ability to gain broad U.S. equity exposure through a passive investment and (2) the NFL Large Cap Equity Fund which has the objective to invest in common stocks of large companies. The fund currently employs a mix of growth, value and core managers.

(b) This category includes two funds: (1) the NFL Fixed Income Fund which has the objective to invest in fixed income obligations that will offer a greater income return than the Money Market Fund, without assuming the risks inherent in common stocks and (2) the NFL Index Total Bond Market Fund which has the objective to gain broad intermediate-term bond exposure through a passive investment.

(c) The investment objective of the fund is to invest in the common stocks of companies with market capitalizations between $500 million and $10 billion. The fund currently employs a mix of growth and value managers.

(d) This category includes five funds: (1) the NFL International Fund which has the objective to provide long-term growth of capital through investments primarily in common stocks of non-U.S. companies; (2) the NFL Global Tactical Asset Allocation Fund which has the objective to provide attractive long-term return, modest correlation to the global equity and fixed income markets, and lower volatility than equities; (3) the NFL Liquid Real Assets Fund which has the objective to provide diversification and potential protection against unanticipated inflation through investments in global inflation-linked bonds or in liquid securities whose returns are derived from real assets, such as, but not limited to, real estate, natural resources and commodities; (4) the NFL Index Total International Equity Fund which has the objective to gain international equity exposure in developed and emerging market countries through a passive investment; and, (5) the NFL Index International Developed Market Equity Fund which has the objective to gain international equity exposure in foreign and developed countries except for the U.S., through a passive investment.

(e) The investment objective of the fund is to invest in a mix of fixed income, domestic equity and international equity securities with a targeted allocation set by the NFL Investment Committee. The current market value allocation target adopted by the Committee is 15% fixed income, 21% domestic equity, 21% international equity, 35% global tactical asset allocation and 8% liquid real assets.

(f) This category includes ten Life Cycle Fund choices that have an investment objective that seeks the highest total return over time emphasizing both capital growth and income based on a date a participant expects to begin receiving distributions from the particular fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 **Investment Valuation and Income Recognition - Continued**

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 4 **Financial Information Certified by the Trustee**

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-5 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, the schedule of assets (held at end of year) as of December 31, 2013, and the related investment income reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

Note 5 **Investments**

The following presents investments that represent five percent or more of the Plan's net assets available for benefits at December 31:

		2013		**2012**
NFL Large Cap Equity Fund	**$**	**2,127,768**	$	1,488,932

Note 6 **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7 **Tax Status**

The Internal Revenue Service ("IRS") has determined and informed the Company, by a letter dated October 21, 2010, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8 **Party-in-Interest Transactions**

Certain Plan investments are managed by the trustee, as defined by the Plan, and therefore, transactions involving these investments qualify as party-in-interest transactions.
