NOTE A – Description of Plan

The following description of the Jones & Carter, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Jones & Carter, Inc. (the "Company") who have one month of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute the maximum amount allowed by the Internal Revenue Code, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan which consist primarily of mutual funds and money market funds. The Company may make matching contributions equal to a discretionary percentage, to be determined on a quarterly basis by the Company. In determining Company matching contributions, only salary reductions up to 6% of a Participant's compensation will be matched. Matching Company contributions are invested as directed by the participants. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested as directed by the participants. Contributions are subject to certain limitations.

During the years ended November 30, 2013 and 2012, the Company made matching contributions of $538,575 and $466,492 and profit sharing contributions of $825,051 and $710,818, respectively.

Deemed IRA's – Effective December 1, 2009, the Plan was amended to allow Roth Elective Contributions to be made into the Plan. In addition, it was amended to permit Deemed IRA's and Deemed Roth IRA's to be included within the Plan after January 1, 2010. During the year ended November 30, 2011, several employees rolled their Deemed IRA's (both traditional and Roth) into the Plan with initial balances totaling $16,747,589 and appreciated balances at November 30, 2010 of $17,335,738.

Except for specific items addressed in the tax regulations, deemed IRA's (both pretax IRA's and after tax Roth IRA's) are treated as separate entities under the Code, thus they are subject to separate rules applicable to qualified employer plans and IRA's respectively. The Plan assets and deemed IRA's are therefore presented in separate columns on the Statement of Net Assets Available for Plan Benefits and Deemed IRA's and on the Statement of Changes in Net Assets Available for Plan Benefits and Deemed IRA's.

NOTE A – Description of Plan – continued

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. In previous years the Plan sponsor elected to absorb substantially all administrative expenses of the Plan. In August of 2011, the Plan sponsor modified the fee structure for inactive terminated employees and active employees with balances in excess of $1,000,000. Effective October 1, 2011, administrative expenses are charged against the account balance of each terminated participant, excluding retirees and participants who die while actively employed. Effective January 1, 2012, administrative asset fees and investment advisory fees are charged against the account balance in excess of $1,000,000 of each active participant.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Participant Loans – The Plan does not allow loans to be made.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Benefits are recorded when paid.

Forfeited Accounts – During the years ended November 30, 2013 and 2012, forfeited non-vested accounts allocated to participants totaled $66,918 and $108,684, respectively. Forfeitures of Company contributions other than matching contributions are added to the Company's contribution under the Plan. Forfeitures of matching contributions may be used to reduce the Company's contributions; however, they have not reduced their contributions for such forfeitures during 2013 or 2012.

NOTE B – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Recently Issued Accounting Standards – Recent accounting pronouncements issued by the Financial Accounting Standards Board (FASB) did not or are not believed by management to have a material impact on the Plan's present or future financial statements.

NOTE C – Investments

The following presents the fair value of investments at November 30, 2013 and 2012 that was certified as complete and accurate by Wilmington Trust and represent 5% or more of the Plan's net assets. All investments are participant directed; there are no nonparticipant directed accounts at November 30, 2013 or 2012.

Wilmington Trust also certified to the completeness and accuracy (including gains and losses on investments bought and sold, as well as held during the year) of $2,463,240 and $4,303,765 net appreciation in the fair value of investments and $56,050 and $36,418 of interest and dividends for the years ended November 30, 2013 and 2012, respectively.

NOTE D – Tax Status

The Internal Revenue Service has determined and informed the sponsor, by a letter dated October 22, 2003, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Code.

Management has evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan's tax returns for tax years 2010 and beyond remain subject to examination by the Internal Revenue Service.

NOTE E – Transactions with Parties-In-Interest

The Plan's investments are held by custodians, TD Ameritrade and Fidelity Investments, who invest cash received, interest and dividend income. Investments are self directed by the participants within several investment accounts established by Wilmington Trust, the Plan trustee. The trustee administers the distributions to participants. Certain administrative functions are performed by officers and employees of the Company. No such officer or employee receives compensation from the Plan.

The Company paid the following administrative expenses on behalf of the Plan during the years ended November 30, 2013 and 2012.

	2013	2012
Investment management and advisory fees	$ 247,032	$ 251,909
Plan administration and audit fees	73,089	71,931
Total	$ 320,121	$ 323,840

NOTE F – Plan Amendment

Effective December 1, 2009, the Plan was amended to allow for Deemed IRA's and Roth Elective Contributions to be made into the Plan as further described in Note A.

NOTE G – Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to terminate the Plan, subject to provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – Fair Value Measurements

FASB ASC Codification 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Codification 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to valuation methodology include,

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at the fair value. There have been no changes in the methodologies used at November 30, 2013 and 2012.

Mutual funds and money market funds: Valued at the net asset value of shares held by the plan at year end.

NOTE I – Fair Value Measurements - continued

The preceding method described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30,
