401(k) Plan
Notes to Financial Statements
December 31, 2013 and 2012

Note 1. Description of Plan and Summary of Accounting Policies

Description of Plan

The following description of the EyeCare Associates, Inc. 401(k) Plan (the Plan) provides general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

A. **General** - The Plan is a defined contribution plan created on January 1, 2002, covering substantially all full-time employees of EyeCare Associates, Inc. (the Company) who have at least one year of service (1,000 hours), and have attained age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. **Contributions** - Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. In order to maintain "safe harbor" status, the Company makes a non-elective contribution equal to one hundred percent of the first three percent deferred by the participant plus fifty percent of the participant's deferrals between three and five percent of the participant's compensation. Additional amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

C. **Participant Accounts** - Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. **Vesting** - Participants are immediately vested in their contributions and the Company's "safe harbor" and qualified non-elective contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

E. **Investment Options** - A participant may direct account balances and contributions in one percent increments into any of the pooled separate accounts and guaranteed investment accounts offered by Massachusetts Mutual Life Insurance Company (Mass Mutual). Participants may change investment options daily.

Note 1. Description of Plan and Summary of Accounting Policies - Continued

F. **Forfeited Accounts** - If any portion of a participant's matching contribution account is forfeited during a plan year, it will be used to reduce the employer matching fund contribution and allocated among the accounts of the participants who receive a matching contribution for the plan year based on their compensation. At December 31, 2013 and 2012, the Plan did not hold a balance in its forfeited nonvested account.

G. **Payment of Benefits** - Upon retirement, death or disability, a participant (or beneficiary) may elect to receive the entire amount of his/her account in one lump sum payment. If employment is terminated for reasons other than retirement, death or disability, participants may be entitled to all or part of their account, depending on their vesting percentage.

H. **Administration** - The Plan's administrator is the Company. Mass Mutual is the appointed custodian of the Plan. Certain administrative expenses are paid directly by the Company. Administrative and trust expenses paid by the Company and not charged to the plan were $6,454 and $6,956 for the years ended December 31, 2013 and 2012, respectively. Fees paid to national broker-dealers for the maintenance and custody of the Plan's assets are paid from the assets of the Plan.

Basis of Accounting

The Plan's policy is to prepare its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Revenues are recognized in the period in which they are earned. Expenses are recognized in the period in which they are incurred.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans (the "FSP"), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the statement of net assets available for benefits should present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 1. Description of Plan and Summary of Accounting Policies - Continued

The pooled separate accounts are stated at fair value based on quoted market prices, if available. Guaranteed investment contracts are stated at net contract value.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation or depreciation in fair value of investments is the difference between the proceeds received or aggregate fair market value of investments determined at the end of the year and the aggregate fair value of investments determined at the beginning of the year or cost if acquired during the year. Dividends are recorded on the ex-dividend date.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Note 2. Information Prepared and Certified by Custodian (Unaudited)

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified as complete and accurate by the custodian.

Certain balances shown below may differ from the accompanying financial statements due to in-transit items at December 31, 2013 and 2012.

	2013	2012
Investments:		
Pooled separate accounts	$ 8,027,525	$ 5,808,572

Note 3. Investment Contract with Insurance Contract

MassMutual Retirement Services' (MMRS) general investment account investment option for defined contribution plans is a guaranteed interest account provided through a group annuity contract. Under the terms of the group annuity contract, a crediting rate is established for amounts invested in the guaranteed interest account and participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees. Contract value is also often referred to as "Book Value". MMRS considers this investment option to be fully benefit-responsive notwithstanding the liquidation value events under the contract that limit the ability of the plan to transact at contract value.

If the plan's contract has a market value formula that uses Barclays Capital U.S. Aggregate Index (excluding treasuries), then the fair value presented below represents the estimated liquidation value determined in accordance with the contractual market value formula. If the plan's contract has a market value formula that uses the Moody's Baa Corporate Average index, Mass Mutual is giving the plan the option of using either: (a) the Moody's market formula without regard to capital gains or losses, or (b) the Barclays market value formula including an adjustment for capital gains or losses, depending on which produces the higher value. As of December 31, 2013, the Barclays market value formula produced higher value than the Moody's market value formula. Accordingly, this good faith estimate of fair value is based on the Barclays market value formula even though it may not be presently included in the plan's contract.

As described in Note 1, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the plan by MMRS, represents contributions plus credited interest less participant withdrawals and fees. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $1,438,546 and $1,292,819, respectively. Under the terms of the group annuity contract, a crediting rate is established for amounts invested in the guaranteed interest account.

Note 3. Investment Contract with Insurance Contract - Continued

Certain events may limit the ability of the Plan to transact at contract value. Such events include, but may not be limited to, the following: (1) temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the Plan; (3) transfer or other change in position resulting in employment by an entity controlling, controlled by, or under common control with the employer; (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or sale or discontinuance of all or any part of the Plan sponsor's business; (5) removal from the plan of one or more groups or classifications of participants; (6) partial or complete plan termination; or (7) plan disqualification.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2013	2012
Based on actual earnings	2.65%	2.63%
Based on interest rate credited to participants	2.65%	2.63%

Note 4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 5. Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 6. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 7. Related Party Transactions

The investments of the Plan are shares of mutual funds managed by the custodian, and therefore, these transactions qualify as party-in-interest transactions.

Note 8. Investments

The Plan maintained investments in the following pooled separate accounts and guaranteed investment contracts that represent more than 5% of the Plan's net assets:

	2013	2012
Pooled separate accounts:		
Guaranteed Investment Contracts	$ 1,438,546	$ 1,292,819
PIMCO Total Return	1,040,011	917,934

Sel Blue Chip Growth TRP	486,305	*
Value MFS	998,443	631,479

*Less than 5%

Note 9. ERISA Bond Requirement

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be the lesser of 10% of the plan's assets at the beginning of the plan year or $500,000. At December 31, 2013 and 2012, the Plan's sponsor maintained bond coverage in the amount of $500,000.

Note 10. Fair Value of Assets and Liabilities

Effective January 1, 2008, the Plan adopted Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), which provides a framework for measuring fair value under GAAP. Subsequent to adoption, SFAS 157 was incorporated in the FASB Accounting Standards Codification as FASB ASC 820 (ASC 820). FASB ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820 requires that valuation techniques maximize the use of observable input and minimize the use of unobservable inputs. ASC 820 also establishes a fair value hierarchy, which prioritizes the valuation inputs into three broad levels.

Note 10. Fair Value of Assets and Liabilities - Continued

Level 1 Inputs to the valuation methodology are unadjusted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common stock, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 10. Fair Value of Assets and Liabilities - Continued

Assets and liabilities itemized below were measured at fair value during the years ended December 31, 2013 and 2012 using the market and income approaches. The market approach and income approach was used for Level 2 and Level 3, respectively.

Note 11. Income Taxes

In June 2006, the Financial Accounting Board (FASB) issued FIN 48, "Accounting for Uncertainty in Income Taxes," an interpretation of FASB Statement No. 109, that clarifies the accounting and recognition for income tax positions taken or expected to be taken in the Plan's income tax returns. FIN 48 was incorporated in the FASB codification as ASC 740-10. The Plan's income tax filings are subject to audit by various taxing authorities. The Plan has evaluated its tax positions and interpretations, and believes its positions are appropriate based on current facts and circumstances.
