1. DESCRIPTION OF PLAN:

The following description of Omya Industries Inc. Security Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

This Plan, adopted on January 1, 1992, covered all the full-time non-union employees of Omya Industries, Inc. (the Company and Employer, formerly known as Pluess-Stauffer Industries, Inc.) and its subsidiaries: Omya Inc., Omya Arizona Inc., Omyaviation, Inc., Omya Alabama Inc. (formerly Alabama Carbonates, L.P.) and Omya California Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan merger

Pursuant to an election by the Board of Directors, the Plan was merged with the Omya Industries, Inc. 401(k) Savings Plan ("401(k) Plan"). Therefore, effective November 1, 2013, all the assets of the Plan were transferred to the 401(k) Plan, and this Plan ceased to exist.

Contributions

The Company has historically made non elective contributions as determined by the Board of Directors. The contribution was made in the subsequent period. Due to the merger effective November 1, 2013, no contributions were made to the Plan during the period from January 1, 2013 through November 1, 2013. The Company contributions for 2013 that would have been made had the Plan not merged, were allocated to the participants accounts held in the 401(k) Plan as of December 31, 2013. No employee contributions were permitted to be made to the Plan.

Participant accounts

Employees' account values were equal to all employer contributions and related earnings thereon.

Payment of benefits

Upon termination, disability or retirement, vested employees could elect to receive their benefits as a life annuity or a lump sum payment.

Vesting and forfeitures

Employees were eligible to join the Plan upon completion of one year of service. After two years of service an employee became 20% vested. Upon completion of each successive year an employee gained 20% vesting each year until they became 100% vested after six years of service. Forfeitures could be used to offset employer contributions, pay plan administrative costs, or could be reallocated to eligible participants.

Administrative expenses

Certain expenses of maintaining the Plan were paid directly by the Company and are excluded from these financial statements. Certain distribution and activity fees were charged directly to the participant's accounts and are included in administrative expenses. Investment related expenses were included in net appreciation in fair value of investments.

2. SUMMARY OF ACCOUNTING POLICIES:

Basis of accounting

The financial statements of the Plan have been prepared on an accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments were recorded on a trade-date basis. Interest income was accrued when earned. Dividend income was recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits were recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date that the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. These securities are categorized in Level 1 as they are actively traded and no valuation adjustments had been applied.

Money market: Money market funds are valued at cost which approximates fair value.

Mutual funds: Mutual funds are valued at the quoted daily closing price reported by each fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012. There were no investments held as of November 1, 2013.

<u>Assets at Fair Value as of December 31, 2012</u>

During the period from January 1, 2013 through November 1, 2013, the Plan's investments in mutual funds appreciated in value (including gains and losses on investments bought and sold, as well as held during the year) by \$3,671,530.

5. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee, has certified to the accuracy and completeness of all investments as of November 1, 2013 and December 31, 2012, and the related investment income for the period from January 1, 2013 through November 1, 2013.

6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

The Plan invested in shares of mutual funds managed by an affiliate of Fidelity Management Trust Company ("FMTC"). FMTC acts as trustee for only those investments as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment. The Company provided certain accounting, recordkeeping and administrative services to the Plan for which it was not compensated.

7. TAX STATUS:

The Plan administrator has adopted a non-standardized form of a prototype plan sponsored by Fidelity Management and Research Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan, and recognize a tax liability if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2010.
